No. 1029 OF 1882.

From

G. F. SHEPPARD, ESQUIRE,
Commissioner, Northern Division,

To

THE HONOURABLE C. GONNE,
Chief Secretary to Government,
Judicial Department.

Poona, 17*th June* 1882.

SIR,

Statements A. to G.
Statement of Expenditure on Police Buildings.
Statement of Resignations and Dismissals.

I have the honour to submit the Annual Report on the working of the Police of the Northern Division during the year 1881. The usual statements, as per margin, are appended.

2. The several statements remain unaltered and have been prepared with care and accuracy by the several Superintendents of Police.

3. The dates of the reports of the Superintendents of Police and the endorsements of the District Magistrates forwarding them, as also of the references from the former relating to discrepancies discovered on examination of the returns in my office, are shown below:—

DISTRICTS.	Superintendents' Reports.	Magistrates' Memoranda.	Superintendents' final letters.
Ahmedabad	1st April 1882	21st April 1882	31st May 1882
Kaira	31st March ,,	4th ,, ,,	12th ,, ,,
Panch Mahâls	28th ,, ,,	3rd ,, ,,	17th ,, ,,
Broach	24th ,, ,,	28th March ,,	2nd ,, ,,
Surat	15th ,, ,,	17th ,, ,,	8th ,, ,,
Thâna	15th ,, ,,	24th ,, ,,	21st April ,,
Kolâba	11th ,, ,,	28th ,, ,,	24th ,, ,,

COGNIZABLE AND NON-COGNIZABLE OFFENCES.

4. The following table exhibits the total crime ascertained to *have occurred* in this Division as shown in the returns of the previous year and that under report:—

DISTRICTS.	Cases ascertained to have occurred.		PERSONS.						Percentage of Convictions to Arrests.		REMARKS.
			Arrested.		Convicted.		Acquitted or released.				
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	
Ahmedabad	4,714	4,773	6,098	6,860	3,871	4,147	2,282	2,750	63	60	
Kaira	2,465	2,240	3,083	2,631	2,260	1,791	852	852	73	68	
Panch Mahâls	924	912	1,395	1,151	938	813	464	395	67	70	
Broach	1,138	1,148	1,888	1,934	691	781	1,190	1,121	37	40	
Surat	2,150	2,615	3,225	3,987	1,808	2,232	1,485	1,795	56	56	
Thâna	3,359	2,998	5,200	4,202	2,520	2,453	2,800	1,674	49	58	
Kolâba	1,780	1,461	2,763	2,182	1,002	943	1,720	1,270	36	43	
Total ..	16,530	16,147	23,652	22,947	13,090	13,160	10,793	9,857	55	57	

These figures show a net decrease of 383 offences in the Division. Taking each district separately there is a considerable increase in Surat and slight increase also in Ahmedabad and Broach, and on the other hand Thâna, Kolâba and Kaira exhibit each a decrease, and in the Panch Mahâls too there is a small diminution.

5. The number of cognizable cases taken up directly by the Magistrates is given below, and as was the case last year the figures again exhibit curious results:—

Ahmedabad	
Kaira	122
Panch Mahâls	105
Broach	25
Surat	22
Thâna	2,940
Kolâba	394

In Ahmedabad no cases were taken up by the Magistrates directly and the large number which were disposed of in Thâna without the intervention of the Police as compared with Surat and Broach, indeed with all other districts, is striking, and the attention of the District Magistrates will be called to these figures.

6. The total number of offences accepted as true during the past five years is as follows:—

1877	19,449	1879	22,452
1878	22,433	1880	20,687
1881	19,755		

The steady increase up to 1878 was suddenly arrested in the following year, and the equally steady *decrease* since then promises the realization of the hope that the normal state of crime before the famine will soon be reached.

7. The following is a comparative table showing the number of persons arrested during the year under report and the previous year. Arrests in cases struck off have not been included:—

Districts.	1880.	1881.	Increase.	Decrease.
Ahmedabad	6,098	6,860	762	....
Kaira	3,083	2,631	....	452
Panch Mahâls	1,395	1,151	....	244
Broach	1,888	1,934	46	....
Surat	3,225	3,987	762	....
Thâna	5,200	4,202	....	998
Kolâba	2,763	2,182	....	581
Total ..	23,652	22,947	1,570	2,275
Net Decrease ..	....	....	....	705

8. These details include arrests in non-cognizable cases for which the Police are not responsible and do not therefore call for comment in this place.

9. It will be seen from the table in para. 4 that the percentage of convictions to arrests is 57 against 55 last year, which, I then pointed out, was the highest percentage obtained during the past 12 years. While Surat remains stationary as compared with last year, all districts, except Ahmedabad and Kaira, show an improvement in the percentage of convictions to arrests, which is particularly noticeable in Kolâba and Thâna. The falling off in Ahmedabad and Kaira is slight.

10. The number of persons arrested is less by 705 than in the previous year. The decrease occurs in all districts except Ahmedabad, Broach and Surat and aggregates 2,275 against which is the increase in the three districts, just mentioned, of 1,570 arrests.

Cognizable Crime.

11. The following is the number of cases reported, excluding cases struck off as "no crime", during the past five years:—

1877	13,673	1879	16,924
1878	16,711	1880	15,067
1881	12,883		

12. The large falling off is very satisfactory.

13. The following table shows the proportion of cognizable crime to the population of each District :—

Kaira	1	crime to	500	persons.
Panch Mahâls ...	1	„ to	450	„
Broach	1	„ to	422	„
Thâna	1	„ to	421	„
Kolâba	1	„ to	414	„
Ahmedabad ...	1	„ to	405	„
Surat	1	„ to	339	„

Taking the Division as a whole the proportion is 1 crime to 418 persons against 1 to 378 in 1880, and 1 to 237 in 1879, which proves that crime is on the decrease ; but for the reasons given in para. 15 of my report for last year, no very accurate conclusions can be drawn from these figures.

14. The following is a brief abstract of Statement A, Part I, showing the total cognizable offences, the number of true cases, the number of persons apprehended and convicted, and the percentage of cases and persons convicted, as compared with the previous year—

Districts.	Offences according to Crime Register.		Number of True Cases.				Percentage of Cases Convicted to the number of True Cases.				Number of Persons.				Percentage of Persons convicted to persons apprehended in True Cases.	
	1880.	1881.	Investigated.		Decided.		Investigated.		Decided.		Apprehended.		Convicted.			
			1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Ahmedabad	3,223	3,022	2,496	1,875	1,255	1,168	47	59	94	94	3,250	2,880	1,728	1,583	53	55
Kaira	2,665	2,513	1,780	1,607	1,117	837	61	49	97	93	2,020	1,617	1,562	1,149	77	71
Panch Mahâls	745	631	639	567	398	323	58	53	93	94	957	678	634	481	66	71
Broach	1,423	1,232	883	722	412	338	39	44	84	93	1,419	1,308	599	604	42	46
Surat	2,245	2,343	1,603	1,825	1,396	1,680	66	72	76	78	2,332	2,570	1,435	1,733	61	67
Thâna	3,145	3,031	1,946	2,096	1,462	1,480	68	64	90	91	3,081	2,668	1,960	1,694	63	63
Kolâba	1,648	1,279	1,141	808	438	366	36	41	95	91	1,813	1,263	711	546	39	43
Total ..	15,094	14,051	10,488	9,500	6,478	6,192	55	58	89	89	14,872	12,984	8,621	7,792	58	60

It will be seen from the above table that there has been a satisfactory decrease of crime in all districts except Surat, and omitting false cases, in all except Surat and Thâna. The increase in Surat is principally in offences of hurt, local nuisances and under the excise laws, and does not call for further comment. The diminution of crime in all other districts is no doubt due to the favourable season of last year and the consequent general prosperity of the country.

15. The percentage of persons convicted out of those arrested in cases retained on the register for the past ten years is as follows :—

1872	...	54	per cent.	1877	...	52 per cent.
1873	...	57	„	1878	...	56 „
1874	...	51	„	1879	...	52 „
1875	...	44	„	1880	...	58 „
1876	...	44	„	1881	...	60 „

The highest percentage ever obtained was 58 per cent. last year, and this is now still further improved.

16. The success of the Police in obtaining convictions in cases *brought to trial* is in order of merit as follows :—

Ahmedabad ...	...	...	...	...	94	per cent.
Panch Mahâls ...	...	...	...	...	94	„
Kaira ...	...	...	...	...	93	„
Broach ...	...	...	...	...	93	„
Kolâba ...	...	...	...	...	91	„
Thâna ...	...	...	...	...	91	„
Surat ...	...	...	...	...	78	„

and in obtaining convictions in cases *investigated* the order of merit of success is as follows :—

Surat	72	per cent.
Thána	64	„
Ahmedabad	59	„
Panch Maháls	53	„
Kaira	49	„
Broach	44	„
Kolába	41	„

For all practical purposes this last test is the best obtainable of the efficiency of the Police and the results are certainly in favor of Surat, which shows the highest percentage. The results are creditable also to Thána, Ahmedabad and the Panch Maháls, each of which has obtained over 50 per cent. convictions, as also to Kaira which has obtained 49 per cent., but Broach and Kolába are as usual at the bottom.

17. The following comparative statement shows the result of the actual operation of the Police, cases taken up by order of the Magistrate having been separated from those investigated *suo motu*, while cases disposed of by the Magistrates without the intervention of the Police are entirely omitted :—

Districts.	Year.	Number of True Cases.	Number of Persons arrested.		Number of Persons convicted of those arrested.		Number of Persons acquitted of those arrested.		Percentage of Convictions to Arrests.		Percentage of Acquittals to Arrests.		Percentage of convictions to Persons brought to trial.

18. The success of the Police in obtaining convictions of persons arrested is in order of merit as follows :—

Panch Maháls	71	per cent.
Kaira	70	„
Surat	67	„
Thána	66	„
Ahmedabad	54	„
Broach	46	„
Kolába	44	„

As compared with the previous year, there is an improvement in all districts except Kaira, in which there is a falling off from 79 to 70 per cent., and it now occupies the place below Panch Maháls, which has risen from 68 to 71 per cent. Surat and Thána have exchanged places, and Ahmedabad occupies the fifth place as in last year. Broach and Kolába remain at the bottom, but have improved from 43 and 40 per cent. in 1880 to 46 and 44 per cent. this year.

19. Taking the percentage of convictions to persons brought to trial the order of merit is as follows :—

Panch Maháls	92	per cent.
Kaira	91	„
Ahmedabad...	90	„
Broach	90	„
Kolába	88	„
Thána	88	„
Surat	69	„

20. The table given below shows the number of cases committed to the Session Court and results—

Districts.	Number of cases committed to the Sessions.	Number of persons concerned in cases in Column 2.	Number of cases in Column 2.		Percentage of cases convicted.	Percentage of persons convicted.
			Convicted.	Acquitted.		
1	2	3	4	5	6	7
Ahmedabad	36	72	27	8	75	49
Kaira	37	70	30	6	81	64
Panch Mahâls	12	34	12	..	100	76
Broach	12	25	9	3	75	68
Surat	33	93	26	1	79	72
Thâna	59	129	38	11	64	42
Kolâba	14	62	7	7	50	68
Total ..	203	485	149	36	73	..

It will be seen that in the Panch Mahâls remarkable results were obtained, every case committed to the Sessions having been convicted. In the primitive state of the country, which is moreover not yet Vakil-ridden, this result is perhaps not so remarkable as would at first appear, but the fact nevertheless shows great care and intelligence on the part of the Police. The high percentage of convictions obtained in Kaira, Surat, Ahmedabad and Broach is satisfactory. The percentages of conviction in Thâna and Kolâba have fallen off from 76 and 75 in 1880 to 64 and 50 this year, which is unaccountable.

21. As required by paragraph 11 of Government Resolution No. 6421 dated 8th November 1878, the following table is given below to show how al cognizable cases and persons concerned therein were disposed of during the year under report and in the preceding year :—

Districts.	Years.	Cases.							Persons.								Pending cases.	Undetected cases.
		Total number entered in Register, including transfers from last year.	Number struck off as no crime by order of Magistrate.	Number in which convictions were obtained.	Number discharged.	Number compounded and withdrawn.	Number acquitted.	Number pending and undetected.	Number arrested in cases referred to in column 3.	Number discharged in cases referred to in column 4. From the general statement it will be seen that the number of cases brought on the Crime Register was less by 1,038 than in the previous year. This decrease is common to all districts except Surat, where there has been an increase as already observed in paragraph 14. There is a slight decrease in the number of cases struck off, but taking each District separately, Ahmedabad shows a large increase and in Kaira also there is a slight increase, but in all others the numbers struck off have diminished. The proportion struck off is given in the margin, and shows that the effect of the Committee's proposals which were sanctioned by Government Resolution No. 7137, dated 22nd October 1880, has tended to check the random striking off of cases.

The large decrease during the last few years shows what undue laxity formerly prevailed in the practice of treating cases as " no crimes." I have found during the course of my examination of the Crime Registers, that improvement is occasionally still required. I have had occasion in several instances to bring to the notice of District Magistrates, cases which have been struck off in consequence of the evidence being *insufficient* to obtain conviction. It is manifest that this does not necessarily imply that no offence has been committed.

It is perhaps worthy of consideration whether " struck off " cases should not, in future, be divided, as is done in certain Provinces, into two classes, viz., complaints which were deliberately and mischievously false, and those struck off under section 95, Indian Penal Code, or from mistake in fact or law. The former class—those maliciously false—should in my opinion be invariably taken up by the Police and sanction for prosecution applied for. This will not always be *given*, as evidence is often very difficult to obtain, but even if refused, the Police will have done their best, and it will soon become generally known that such complaints cannot be made with impunity. At present there is nothing in these returns to show how many "struck off " cases are of this nature, or in how many proceedings have been taken against the complainants.

22. The number of undetected cases has fallen from 2,457 to 2,339 in the year under report. In Kaira, however, there has been a considerable increase in the numbers this year. In Panch Mahâls also there is a slight increase. In all other Districts there has been a satisfactory decrease, especially in Ahmedabad and Broach. The proportion of undetected cases to true cases in each District is noted in the margin. It is very unsatisfactory that in Kaira in every five cases two remained undetected, in Panch Mahâls and Kolâba one in every three, and in Ahmedabad two in every seven. The results in Broach, Thâna, and particularly Surat, are satisfactory.

The following statement exhibits the undetected cases of the two previous years, and how many of these were subsequently detected and convicted :—

Total ..	3,079	157	86	1,557	21	10	15	2,459	152	86	1,466 0 0

The results are not creditable to the Police of Broach, Kaira and Ahmedabad. The proportion of detection in each district is as follows :—

Cases of 1879 *detected in* 1880 *and* 1881.

Thâna	... 10 per cent.
Kolâba	... 10 „
Surat	... 8 „
Panch Mahâls	... 7 „
Kaira	... 2 „
Ahmedabad	... 1 „
Broach	... 1 „

Cases of 1880 *detected in* 1881.

Kolâba	... 9 „
Panch Mahâls	... 7 „
Kaira	... 2 „

Ahmedabad	... 7 „

It will be seen from Table II. given in paragraph 21 *supra*, that in the Panch Mahâls, Thâna and Kolâba the number of apprehensions in cases afterwards struck off as "no crime" is very low, which indicates that the Police of these districts exercise a wise discretion in making arrests. In the remaining districts, and more especially in Surat, the figures show that sufficient discretion has not been used.

Panch Mahâls exhibits the highest percentage of convictions on total arrests, *viz.* 69 per cent. and Broach the lowest, its percentage being 40; the other districts show—Kaira 62, Thâna 59, Surat 53, Ahmedabad 47, Kolâba 42. The high percentage of acquittals in Surat is remarkable. Broach also has improved this year.

23. The number of cases struck off as "no crime" after the case was committed for trial before a Magistrate is shown below :—

Districts.	Cases.	Persons.
Ahmedabad	13	25
Kaira	112	194
Panch Mahâls	3	8
Broach	6	7
Surat	5	6
Thâna	..	..
Kolâba	14	31
Total ..	153	271

Kaira again exhibits the largest number, and it is to be presumed, as stated last year, that the Magistrates do not generally rely upon the results of investigation by the Police but order committal. The results from Kaira are so extraordinary as compared with those of other districts that explanation has been called for.

24. The provisions of section 117, Criminal Procedure Code, were availed of to the following extent, as compared with the previous year :—

Districts.	1880.	1881.
Ahmedabad	229	197
Kaira	523	586
Panch Mahâls	57	52
Broach	359	409
Surat	303	259
Thâna	1,029	918
Kolâba	83	105

I should wish to see the Police in Ahmedabad, Panch Mahâls and Kolâba making greater use of this section.

25. The subjoined statement shows the serious offences committed during the year 1881 :—

Districts.	Murder, 302, 303, 396.	Attempt at murder, 307.	Culpable Homicide, 304, 308.	Grievous Hurt, 325, 326, 335, 329, 331, 333.	Dacoity, 395, 397, 398.	Robbery, 394, 397, 398, 392, 393. The above statement shows that there has been an increase in murders and culpable homicides, but under all other heads there has been a satisfactory decrease which is particularly noticeable under thefts and receiving stolen property.

The percentage of convictions to cases committed is as follows :—

	1880.	1881.
Murder	... 42	53 per cent.
Dacoities	...*100	49 „
Robberies	... 46	43 „

Murders.

26. The 56 murders which occurred during the year have been classed as follows by the Superintendents of Police :

Intrigues with women	... 14
Revenge	... 4
Quarrels	... 13
Infanticides	... 4
For gain	... 5
In the commission of an offence ...	... 2
Motives unknown	... 14
	56

The increase noted above occurs in all districts except Kaira and Broach. Ahmedabad has an increase of 7 cases, Thâna four, Panch Mahâls two, and Surat and Kolâba one each. Some of these cases will be noticed in Part II. of this Report.

* " This is inclusive of convictions obtained in cases of former years of which 27 were pending."

Culpable Homicide.

27. A large increase under this head has occurred in Thána: Kaira, Panch Maháls and Broach also show a slight increase.

Dacoities.

28. Dacoities have fallen from 41 to 39 this year. Thána shows six cases less, Panch Maháls four, Kolába three, and Ahmedabad one. In Kaira five more cases occurred, and Broach and Surat, which had no cases last year, show one and six, respectively, this year. It will be observed that the Police have not been as successful as last year in dealing with this class of cases.

Robberies.

29. Under this head, Surat shows an increase of twelve cases; there is a slight increase also in Thána and Panch Maháls. On the other hand, Ahmedabad and Kaira show a large decrease, and in Broach and Kolába also there is some decrease.

Thefts.

30. The number of thefts have decreased from 3,090 in 1880 to 2,692 this year. The following table gives comparative results with the proportion of decrease in each district, which, it will be seen, is common to all districts except Kaira, where there has been an increase of ten per cent :—

Districts.	1880.	1881.	Increase.	Decrease.	Percentage
Ahmedabad	615	612	....	3	0·5
Kaira	451	498	47	....	10

Kolába	462	329	....	133	29
Total ..	3,090	2,692	47	445	11

The following statement exhibits the number of thefts classified according to certain money limits. The results are very much the same as last year, though there is an improvement in the percentage of convictions in the lowest and highest classes :—

Cases of Thefts.	1880.			1881.

Rs. 10 and above	931	322	35	710	267	38
Total ..	2,833	1,440	51	2,448	1,267	53

31. Under "receiving stolen property" there is a decrease of 73 cases, which is common to all districts, and under "kidnapping" of eight cases, as will be seen from the following comparative table :—

Districts.	Number of cases of receiving stolen property.		Number of cases of Kidnapping.

Non-Cognizable Crime.

32. The following is a brief abstract of Statement A., Part II., showing non-cognizable offences, which have been inquired into by the Police, and those in which they were not employed. I would suggest that the latter description of cases should be omitted from this report, the criminal statistics in which

refer entirely to the operation of the Police, in the detection and prosecution of crime :—

Districts.	Cases in which Police were employed.					Cases in which Police were not employed.				
	Number of cases.	Persons arrested or summoned.	Persons acquitted.	Convicted.	Percentage of convictions to arrests.	Number of cases.	Persons arrested or summoned.	Persons acquitted.	Convicted.	Percentage of convictions to arrests.

In 1880 ..	241	405	131	269	66	5,682	9,081	4,887	4,192	46

33. This year again there has been a large increase of 546 cases in Ahmedabad. The fluctuations in other districts are as follows, showing a net increase of 627 cases against 395 in the preceding year—

Ahmedabad	546	
Panch Mahâls...	68	
Broach	68	
Surat	293	
Kolâba	4	
Total increase		1,013
Kaira	66	
Thâna	320	
Total decrease		386
Net Increase ...		627

34. The following statement shows the percentage of convictions to arrests, as compared with the preceding year :—

Districts.	Percentage of Convictions to Arrests.			
	Police Cases.		Magistrates' Cases.	
	1880.	1881.	1880.	1881.
Ahmedabad	81	18	72	63
Kaira	93	65	56	60
Panch Mahâls	90	67	55	57
Broach	36	59	17	25
Surat	61	51	32	32
Thâna	31	70	24	47
Kolâba	40	48	30	39

The improvement in Broach, Thâna and Kolâba is satisfactory, but there is much room for *further* improvement, particularly in the first and last mentioned districts. The proportion of persons convicted, out of those arrested in police cases, is satisfactory, except in Kolâba and Ahmedabad. It is particularly bad in the latter district, being only 18 per cent. as compared with 65 per cent. in the adjoining district of Kaira.

Property Stolen and Recovered.

35. The following statement shows the value of property stolen, and recovered, with the percentage of recoveries in 1880 and 1881 in cognizable and non-cognizable cases :—

Districts.	Property stolen.	Property recovered.	Percentage of recoveries	Percentage in 1880.
Ahmedabad	67,631	47,950	71	47
Kaira	39,349	9,646	24	27
Panch Mahâls	18,186	7,652	58	25
Broach	15,450	4,940	32	54
Surat	16,131	7,300	45	42
Thâna	45,288	17,790	39	34
Kolâba	16,304	7,103	43	46
Total ..	213,339	102,389	48	40

As compared with the previous year there has been slight increase in the amount of property stolen, but taking each district separately, Ahmedabad, Kaira and Panch Mahâls show an aggregate increase of Rs. 27,512, while the remaining districts exhibit an aggregate decrease of Rs. 26,371, giving for the Division a net increase of Rs. 1,141. The percentage of recoveries has improved from 40 to 48 per cent. Ahmedabad and Panch Mahâls have risen from 47 and 25 to 71 and 58 per cent. respectively. Surat and Thâna show a slight improvement; Kaira and Kolâba have fallen off by 3 per cent. each, and Broach, which obtained 54 per cent. last year, has only got 32 per cent. The low percentage of 24 obtained in Kaira is not creditable.

36. The following table exhibits the percentage of success of recoveries in the number of cases in which property was stolen :—

Districts.	Cognizable cases in which property was stolen.	Cases in which property was recovered.	Percentage of success.
Ahmedabad	786	599	76
Kaira	785	455	58
Panch Mahâls	279	148	53
Broach	321	241	75
Surat	485	307	79
Thâna	814	531	65
Kolâba	369	269	73
Total	3,819	2,610	68

From this statement it will be seen that the Police have generally been successful in obtaining a high percentage of success, and the inference from the above two tables is that, though the Police have not always been successful in obtaining all the property reported as stolen, they have in a large number of cases recovered some portion of it, and allowing for the usual exaggeration of losses, the measure of success attained must be considered as satisfactory on the whole.

Statement C.

37. As this statement is blank it is omitted.

Statement D.

38. This is a statement of additional Police employed for the protection of persons and property at large fairs and jatras. No extra Police were entertained for this purpose during the year under report though a large fair, known as Chhappan Bhog, was held at Nariád, in the Kaira District, which lasted 14 days, and it was estimated that 102,455 people visited it. There are, it will be seen from Statement D, several large fairs held in different parts of the Division, but at all these the Police arrangements are provided for without additional aid to the regular Police of the district.

The punitive Police posts at Lagdana, in Ahmedabad, and Samarkha, in Kaira, have been withdrawn.

The posts in the three villages of Gunjala, Sinaj and Vithlapur, in Ahmedabad, were reduced from 6 officers and 29 men to 2 officers and 5 men, and these men have been stationed at the first and last mentioned villages. Captain Humfrey writes regarding these as follows :—

"They have been a most severe lesson to the villagers, and I trust they will never again be needed in those parts."

In July 1881, a punitive post of 2 officers and 11 men was imposed on 25 villages of the Shahapur Táluka in Thâna, on account of the villagers being in the habit of harbouring dacoits and for refusing assistance to 2 constables who were attacked by 5 or 6 dacoits while engaged in making inquiries into a case of housebreaking.

Statement E.

39. The total sanctioned strength of the Police of all grades in the Northern Division, including the Superintendents of Police and their Assistants, is 4,944, and the population of the Division is 4,046,083 or one policeman to 818

inhabitants. This force is maintained at a cost of Rs. 8,39,122. It was distributed on the last day of the year as follows :—

Jail guards	207
Treasury and miscellaneous duties	617
General Police duties	3,346
Town and Municipal duties	761
Cantonment duties	4
Superintendents and Assistant Superintendents	9
Total ...	4,944

The difference in the sanctioned strength of the Police, as compared with the previous year, is on account of the reductions made to provide the clerical and account establishments under the new organization sanctioned in Government Resolution No. 7137, dated 22nd October 1880.

40. The following statement shows the proportion of Police to area and population, excluding Native States, Cantonments, and Railways, and for each district separately—

*According to Census of 1881.

Statement F.

41. The whole force is divided into two branches, the *armed* consisting of 2,147, and the unarmed of 2,788 men. The armed men are supplied with muzzle-loading Sappers' carbines, the only exception being 50 men in the Surat punitive police post, and the Gujarát Bhil Corps, which have breechloading Snider rifles. The unarmed men have Royal Navy cutlasses, or country swords, and batons. The unarmed branch are not required to wear their swords when employed on duty in towns.

Punishments.

42. The following table shows the punishments which were inflicted on the men of the force in the several districts of the Division :—

Districts.	Sanctioned Strength.		Dismissed.		Percentage.		Punished departmentally.		Percentage.	
	Officers.	Men.	Officers.	Men.	Officers.	Men.	Officers.	Men.	Officers.	Men.

Total ..	859	4,076	7	102	0·8	2·5	145	785	16·9	19·2

43. There is a large reduction, as compared with the preceding year, in the number of men dismissed in the Panch Mahâls and Broach. On the other hand Ahmedabad shows an increase of 12 men, Kolâba 3, and Surat 1 man. Departmental punishments were heaviest among the men in Ahmedabad, and a large proportion of officers have been punished in Kaira, Panch Mahâls and Kolâba. In Kaira a large proportion of men also have been punished.

44. I have had a statement prepared of the number and amount of fines imposed during the year under report in each District of the Division. But as I have no desire to weaken the authority of the Superintendents by too much

interference with their discretion in awarding punishments, I refrain from a critical review of the returns.

45. It may be sufficient to observe that fining as a punishment is comparatively seldom resorted to in the Districts south of the Mhye. In Thána and Surat for instance, the incidence of fines was annas 2-9 and annas 3 respectively, while in the Panch Maháls and Ahmedabad it was Re. 1-1-0 and annas 8 on the sanctioned strength.

46. The Superintendents are almost unanimous in considering the present pay of the Police too low, and it appears to me that there is consequently special danger in resorting to this form of punishment. The result may not improbably be temporary embarrassment, which may tempt men to recoup their loss by dishonesty or extortion. Cases of absence without leave are of course properly met by retrenchment, but such cuttings are brought to account as "Savings," not as "Fines," and should, I think, be shown *separately* in the Annual Returns.

Rewards.

47. The following statement exhibits briefly the number and description of rewards for good service:—

Districts.	Number of Men.	Rewards.			
		By Promotion.	Percentage.	By Money.	Percentage.
Ahmedabad	1,198	70	6	...	...
Kaira	721	54	7	17	2
Panch Maháls	795	11	1	30	4
Broach	406	57	14	...	...
Surat	652	...	...	6	1
Thána	818	...	...	...	...
Kolába	345	5	1	20	6
Total	4,935	197	4	72	1

48. The almost entire absence of rewards in Surat, Thána and Kolába is remarkable, and the Superintendents will be called upon to explain why this is so. Comparatively fewer rewards have been granted this year in the Panch Maháls. The number of rewards given in Ahmedabad, Kaira and Broach is considerably less than last year, though larger than in any other district in this Division.

49. The following statement may be of interest to Government. It has been prepared from the Administration reports of the other Presidencies and Provinces for the year 1880:—

Name of Province.	Number of Police rewarded by promotion.	Number of Police rewarded by money rewards.	Remarks.
Lower Provinces of Bengal	178	761	
Madras	237	438	
Bombay	1,266	365	Northern-Division ... 557— 64 Central-Division ... 68—241 Southern-Division ... 243— 41 Sind ... ... 398— 19
North-West Provinces and Oudh	757	2,640	
Panjab	898	727	
British Burmah	105	115	
Assam	35	137	
Central Provinces	683	691	
Hyderabad Assigned Districts	78	30	
Coorg	.....	2	
Mysore	611	.....	

50. The very large number of rewards by promotion in Bombay, compared with other parts of India, gives some support to the doubt expressed last year whether the promotions in this Presidency represent rewards for special instances of good conduct (as it is presumed they are supposed to do). I think it more likely that many, if not most, of these 1,266 cases represent promotions given *in ordinary course* to men of fair average character. It must always be difficult to find *vacancies* wherewith to reward special service, and *when these occur*, it is often difficult to pass over men with longer service. Or again, a man may perform some special good service deserving reward, who from age, or want of education or other cause, may be unfit for promotion. *Money rewards* have a demoralizing tendency, and it appears to me that we should seek for some other means of recognizing good service. I think that some system such as that in the Army of "good conduct stripes" carrying a small addition to the pay of the rank, and

eventually to pension, would provide a very strong encouragement to the Police. I believe that the hope of obtaining (and the fear of losing) a stripe would prove a powerful motive to exertion, and that the small additional cost to the State would be more than compensated by additional efficiency.

Education.

51. The following table shows the state of education in each District:—

Districts.	Number of Men.	Able to Read and Write.		Percentage.
		Officers.	Men.	
Ahmedabad ...	1,198	212	465	56
Kaira	721	65	117	25
Panch Mahâls...	795	50	91	18
Broach ...	406	42	120	42
Surat ...	652	81	225	47
Thâna ...	818	67	54	15
Kolâba ...	345	31	58	26
Total ...	4,935	548	1,139	34

There has been a general improvement in all districts except, perhaps, in Kaira. The progress in Broach is remarkable, 42 per cent being shown as able to read and write against only 11 per cent in 1880, and it is the more noticeable as Broach is a district in which the Police have always been supposed to have least leisure for improvement.

52. The following table shows the number of officers and men under instruction, and contrasts unfavorably with the results of the preceding year, there being a falling off in all districts except Surat, where the number has more than quadrupled. In Thâna none are shown as under instruction—

Districts.	Officers.	Men.
Ahmedabad ...	.....	190
Kaira	24	161
Panch Mahâls ...	2	189
Broach ...	31	197
Surat ...	30	311
Thâna ...	.....	.....
Kolâba ...	.....	24
Total ...	87	1,072

Enlistments, Resignations, &c.

53. Of the whole force little more than 10 per cent are recruits, 497 having been enlisted during the year, 47 per cent have under ten years' service, and the remainder have served ten years and upwards. The number of resignations amount to 107 against 131 in the preceding year, and the number dismissed is 106 against 138 last year. Only 7 desertions occurred against 18 in 1880.

Statement G.

54. The following is a brief abstract of this statement shewing the different castes of the officers and men constituting the force of the Division as contrasted with the previous year. All the Superintendents are Europeans, three are Military officers, and the rest belong to the uncovenanted service. A Parsi Inspector was for a short while appointed to act as an Assistant Superintendent:—

Police Buildings.

55. The amount of expenditure incurred on Police buildings is Rs. 23,992 against Rs. 21,419 in 1880. From this sum Rs. 19,775 were spent by the Public Works Department and Rs. 4,217 departmentally on buildings costing less than Rs. 1,000 each.

Suicides and Accidental Deaths.

56. The number of suicides and accidental deaths which occurred during the year is shown in the subjoined table :—

Districts.	Population.	Suicides.			Proportion of suicides to the total population of the District.	Accidental Deaths.					Proportion of accidental deaths to the total population of the District.

* According to Census of 1881.

The number of suicides in Kaira is abnormally high as compared with the adjoining Districts. A large number of accidental deaths have occurred in Thâna, Kaira and Surat.

Personal Investigation of Serious Crimes.

57. The returns from the several Superintendents and their Assistants are appended in original, and the following is a brief abstract of these :—

* Visited by Assistant Superintendent.

There is some improvement this year. In Ahmedabad and Panch Mahâls half the total number of serious crimes were visited at once; in Broach, nearly half, in Kaira, Surat and Thâna, little more than a third, and in Kolâba only one out of seven such cases. The explanations of the several Superintendents will be noticed in my review under Part II.

58. I have pleasure in acknowledging the good work done this year by the Superintendents generally. There have been less changes than usual in the staff. Kaira, Kolâba and Surat have had most changes, and the effect is manifest in the results of the year's work. Kaira has been specially unfortunate, having been left without a Superintendent for three months, while Mr. Gell was learning his drill in Ahmedabad, shortly after which Mr. Holland was appointed, but remained only for a few months.

59. It would be desirable if a somewhat shorter time were allowed to qualify for a drill certificate. Mr. Gell's absence during the monsoon interfered very seriously with work, and with the efficiency of his Police, with whose appearance, shooting, &c., I was shortly afterwards very much dissatisfied.

60. I think that if an officer puts his heart into the work he might be able to qualify perfectly well in six weeks, or so; and if he requires a longer time, a junior officer might be appointed to act for him on half pay.

61. I would also suggest that to require *a good rider* to leave his duty and pass the riding school to obtain an equitation certificate, is a waste of power. Either the Commissioner might have discretion to dispense with the certificate, or the Military authorities might be requested to pass any fairly good horseman without requiring him to go through *the entire course.*

I have the honor to be,
Sir,
Your most obedient Servant,
G. F. SHEPPARD,
Commissioner N. D.

PART II.

REVIEW OF SUPERINTENDENTS' REPORTS.

AHMEDABAD.

1. Area ... ... 3,821 square miles.
   Population 829,637
   Strength of Police 1,200
   Police to Area ... ... 3·19
   Police to Population 691

2. *Superintendent of Police*—Captain J. HUMFREY.

Assistant Superintendent of Police.—Mr. F. WARDEN, up to 14th June 1881. Mr. D. MACLEAN, up to 28th August 1881. Captain J. HUMFREY, in charge, 11th September 1881. Mr. DHANJISHA DADABHAI, up to 20th December 1881. Mr. D. MACLEAN, for the remainder of the year.

Murders.

3. There was a large increase in the number of murders, 16 having occurred against 7 of last year. Of these, two were struck off as no crime; in seven convictions were obtained, in two the accused were acquitted, two are pending disposal, and three remain undetected. In one case remaining undetected, the deceased is supposed to have died from the effects of smoking gánja. The Chemical Analyser to Government was unable to detect any poisonous matter in the stomach or the uneaten portion of food which was found with the deceased. In the other undetected case, the body of a man was found concealed in a hay stack with the throat cut. It was so decomposed that it could not be recognized. It is supposed that the murder was committed in foreign territory. In the third undetected case the murder was committed by thieves, who, in escaping, killed the owner of the house with a sword. Every effort is being made to trace the criminals.

Homicides.

4. Only two cases under this head occurred against eight in the preceding year; in one a conviction was obtained, and as regards the other, the Superintendent writes:—

"A man named Becharsing Amarsing was killed by a blow on the head in a dispute about land. No conviction was obtained, as it is believed that the Hospital Assistant was bribed to give false evidence in the matter. His department have ordered his trial on a charge of perjury. Had his evidence been truly given there would have been a conviction."

Attempt at murder.

5. There were three cases of attempts to murder against 8 in the previous year. In one, conviction was obtained, one was struck off as no crime, and one is under inquiry.

Dacoities.

6. The Superintendent writes —

"There were but four dacoities during the year, only one of which was of any consequence, the other three of the aggregate value of Rs. 90."

Highway robberies.

7. Seven cases occurred during the year, in which the total amount stolen was Rs. 284. The diminution of this description of crime is principally due to the system of patrolling which is adopted, and regarding which Captain Humfrey writes:—

"Patrolling all the frequented roads is very strictly carried out and they may be considered perfectly safe. For this purpose Savárs are absolutely necessary."

On the same subject the District Magistrate observes that —

"The general security of the highways, which was remarked on last year, was maintained in 1881, and the value of property stolen on the highway fell from Rs. 1,222 to Rs. 284."

Stolen property.

8. The total amount of property stolen amounted to Rs. 66,756, of which Rs. 47,503 was recovered. Captain Humfrey observes :—

"This percentage (of recoveries) is very high, but it is swelled by a large theft of valuable bonds and documents amounting to Rs. 11,000, which were recovered intact."

Allowing for this, however, the recoveries for the year are very good and creditable to the Police.

Opium and A'bkári.

9. The Superintendent reports regarding these cases as follows :—

"The District Police have strict orders on the subject of smuggling. Since the beginning of the year under report, a distinct Police establishment has been formed for the purpose of dealing with this crime, and they are assisted in every way by the District Police. No doubt a noticeable difference will be detected in the revenue from these two sources."

Punishments.

10. The Superintendent states that the number of men that have been punished is larger than in last year, but in most cases the punishment has not been severe. He adds :—

"Indeed, considering the large number of men in the force and that they are much scattered, the amount of punishment is very slight."

In this remark I am unable to concur.

Education.

11. Captain Humfrey remarks :—

"The Educational Inspector reported last year that the education in the Police school was faulty. No doubt it is, but with the material that I have to teach with, it is as good as can be expected.

"The teachers are Constables themselves and have gone through no teaching for the posts, and as none of the Police have served in the Educational Department, it is not improbable that our teaching does not come up to the Educational Department standard."

On this subject the District Magistrate adds :—

"It might be advisable that Government should sanction the substitution of regular schoolmasters for the teachers drawn from the Police force, and on this point the Superintendent has been asked to make a further communication to me."

Drill.

12. On this subject the Superintendent reports :—

"During the year, drill has been regularly carried on when sufficient men have been at Head Quarters.

"In the monsoon, I was able to get a number of men in, both mounted and foot, and much benefit was experienced by drilling a large number of men together.

"Both foot and mounted police drill very creditably."

Mounted Police.

13. The Superintendent reports regarding the mounted branch of the Police as follows :—

"As regards the efficiency of the mounted Police, I need say but little, as the Commissioner has had an opportunity of seeing them and judging for himself.

"I have for the last 18 months gelded as many horses as I have had time and opportunity to do.

"It is only during the rains that I can get many horses into Head Quarters, and that is the least suitable time for the operation. However, such opportunities as I had, I made the most of, and all the most vicious, unsteady horses have been operated upon.

"At first, the men were much averse to their horses being castrated. In the first place they feared to lose them, also that the operation would spoil their horses' temper and manners, and that they would become spiritless and sluggish.

"The first objection was removed by the Commissioner sanctioning my recommendation that on any horse dying under operation, his owner should be compensated for the actual value of the horse from the Horse Fund. This fund is entirely the men's property, and therefore very rightly used for the benefit of the men in whatever way may be considered most fit.

"The other objections vanished as soon as the men perceived the advantage of the change; and now I have operated on many horses at the desire of their owners.

"They find that the horse is easier to manage; thrives on less food, is less liable to soreback, and is able to stand more work. There is also a considerable saving in the matter of picketing ropes, while the change in the appearance of those gelt is most marked, several animals which were always out of condition and ragged-looking are now plump and round. Only one horse, an old one, died from the operation. Every new remount is gelded before being handed over to his owner.

"In consequence of the number of geldings in the ranks, which number will rapidly increase, I am now commencing to purchase mares as remounts. These are more easily obtainable than horses and are equally useful."

I have in a separate letter reported that I was much pleased with Captain Humfrey's men on parade, and I fully concur in his remarks on the benefit of gelding Police horses. As soon as Dr. Lamb is able to provide gelders no entire horses will be admitted into the mounted Police of this Division.

Assistant Superintendents of Police.

14. Regarding his Assistants Captain Humfrey reports as follows :—

"Mr. Warden was under me for six months, and though young and inexperienced, will, I hope, make a good officer.

"Mr. Maclean has only been with me for five weeks during the whole year. He is energetic and painstaking.

"Mr. Dhanjisha Dadabhai was assistant for three months and is a most excellent officer. He knows his work well and spares no pains to do it."

The District Magistrate adds :—

"I have pleasure in endorsing Captain Humfrey's remarks regarding the services of Mr. Dhanjisha as Assistant Superintendent. They convey a very high opinion but not more than Mr. Dhanjisha's work would, in my judgment, warrant."

Conduct of Subordinate officers.

15. Of his several Inspectors and the Mounted Chief Constable, Captain Humfrey speaks in high praise.

One Chief Constable was convicted of torture. This case is reported as follows :—

"I received on the 30th May information that a Koli had been badly beaten and tortured by the Police in the village of Juarej.

"I at once proceeded to investigate the case and visited the injured man in Dholka Hospital. He complained that he had been beaten and tied up to the roof of the chowra in the village of Juarej to extort a confession regarding a theft. I wrote to the District Magistrate and asked that Mr. Beaman might be sent to the spot to enquire into the case.

"This was done, and the Chief Constable was eventually tried for the crime and sentenced to four months' imprisonment and Rs. 1,000 fine.

"He appealed and the sentence was enhanced to one year.

"Two Police Constables were also charged with assisting in the matter, but they were acquitted. Jamsetjee was accordingly dismissed from the date of his suspension."

Serious crime.

16. The Superintendent remarks on this subject as follows :—

"In Government Resolution No. 1094, of 14th February 1880, it is ordered that all serious crimes should be visited when possible.

"This rule I have acted up to as far as possible, but in a large district like Ahmedabad, and with the amount of office work that there is to be done daily, it is absolutely impossible to visit every crime without great hindrance to other work.

"Many crimes are of such a very simple character that it would be waste of time for the Superintendent to visit them.

"It often happens that a serious crime occurs, the offenders are at once arrested and the case is perfectly clear; yet to visit this crime the Superintendent may have to leave his office for several days to go and return.

"I would respectfully suggest to the Commissioner that the rule at present in force should be modified. It is of more importance that the Superintendent should visit those crimes in which he considers that there are special circumstances requiring his presence or in which the local officers have been unable to detect.

"If the Superintendent has to go to a crime and be of any service, he must stay there some days and his inspection of his men, horses and thánas and daily office work is much interfered with. I am strongly of opinion that a Superintendent is far better employed in directing the general work of his subordinates and insisting on their doing their work well than by doing the work of a detective himself.

"On the commission of a crime the Head Constable in charge of the division goes to enquire, also the Chief Constable and Inspector. If the Superintendent goes as well there is a great waste of power.

"In this office, especially, it being one of the largest in the Presidency, the Superintendent cannot be often away without injury to current work.

"The pay, clothing, arms, accoutrements, discipline of 1,200 men have to be looked after besides other work.

"The Rajputana Málwa State line as far as Abu is in the Superintendent's charge, and as all the correspondence is in English, a great deal more work is thrown on the Superintendent than was the case formerly."

On the same subject the District Magistrate observes :—

"In Captain Humfrey's case there can be no presumption that his remarks are suggested by any want of activity, and there is certainly some justice in his objection to the rule that it may interfere with the performance of more important duty and sometimes occasion 'waste of power.' It is probably not the desire of Government that the Superintendent should exercise no discretion but should go to the scene of serious crime even when informed that the offenders have been detected and proof is ready. In such cases the Superintendent will usually be in a day or two at most in a position to judge whether his presence is needed and to act accordingly. Heavy responsibility would certainly attach to the Superintendent, if he gave no personal labour to the detection of serious crime which had baffled the local officers."

The explanations afforded in the cases not personally enquired into are mostly satisfactory.

But I do not press for any relaxation of the Government orders on the subject.

17. Captain Humfrey has done much good work during the year, and his report has been carefully reviewed by the District Magistrate, Mr. Richey.

19. *Superintendent of Police.*—Mr. H. J. DUGGAN, up to 1st March 1881. Mr. H. G. GELL, up to 20th November 1881. The Inspector was in charge up to 1st December, then Mr. KENNEDY, C. S., assumed charge till Mr. HOLLAND joined on the 13th December 1881.

General results.

20. The Superintendent, in noticing the general results, observes that "the only satisfactory point consists in the decrease of offences." This appears correct as the percentage of cases in which convictions were obtained has declined from 62 to 49 during the year under report, the percentage of arrests to convictions from 79 to 71, and that of recoveries to stolen property from 27 to 24 per cent.

Murder.

21. There were 14 cases of murder against 15 in the previous year. Of these, 11 cases were detected and convictions were obtained in 10, and one remained pending. In two cases, application has been made to have the case struck off, as one is a case of suicide and the other of natural death. One case only remains undetected. The Superintendent classes them as follows :—

Intrigue	6
For gain	2
Quarrel	4
Other causes	2

The case remaining undetected is described as follows :—

"The dead body of a man was found in a field. The body bore a deep sword cut on the neck, but there were no traces of blood around, and it is supposed that the man was killed elsewhere and his body placed in the field after death. It was recognized as that of

a servant of a Desái of Boriavi, on whom suspicion rests, as the deceased had been carrying on a criminal intrigue with the wife of his master's son."

The District Magistrate observes :—

"Considerable success has attended the efforts of the Police towards the detection of murder, which, however, though the most serious of crimes, is not, in the undersigned's opinion, the most difficult to detect."

The Police deserve credit for their success in dealing with these cases.

Culpable Homicide.

22. There were five cases against three in the previous year. Convictions were obtained in four, and in the fifth the accused was acquitted.

Kidnapping.

23. Five cases of kidnapping occurred during the year, of which three remain undetected, and in one only was conviction obtained.

Dacoity.

24. Dacoities have increased, 9 having occurred during the year under report against 4 in 1880. Only 4 cases were detected. The Superintendent remarks—

"Matár (Táluka) was the scene of three, all of which remain undetected. A special report has already been submitted on the lawless conduct of the people of that táluka, and it is to be hoped that a punitive post will have the desired effect of checking this crime."

It may be added that the strongest suspicion rests on some of the Patels of screening the offenders, and inquiries are being made as to their conduct with a view to prosecute judicially or dismiss departmentally, so as to make an example of one at least.

Robberies.

25. There were 14 cases less in robberies this year, only 16 having occurred; in five convictions were obtained, in five the accused were acquitted, five remain undetected, and one was pending at the end of the year.

Fire.

26. On this subject the Superintendent reports that :—

"71 cases of mischief by fire have occurred as compared with 33 of last year, which shows that strict vigilance will be required by the Police to check the increasing rise of incendiarism. One girl and 3 bullocks fell victims to the flames in one case, and property valued at Rs. 3,510 was destroyed. Accidental fires to the number of 112 occurred, in which 3 human beings, 2 head of cattle, and property, valued at Rs. 15,724, were destroyed."

The District Magistrate remarks on the above subject as follows :—

"The figures in para 52, showing an increase in cases of mischief by fire from 33 to 71, are very noteworthy. This is a crime most difficult of detection, and which was, at one time, prevalent in the District to an extraordinary degree."

Conduct of Officers.

27. Mr. Holland is well satisfied with his Inspector.

28. Mr. Holland has had the disadvantage of writing his report after only a very short acquaintance with the District. The general results for the year are not satisfactory, but it must be borne in mind that the Superintendent, Mr. Gell, was unfortunately away for nearly 4 months during the rains. It was necessary to allow this officer to proceed to Ahmedabad to qualify in drill and equitation, which ordinarily occupies from 3 to 4 months.

29. The District Magistrate, Mr. G. F. M. Grant, in submitting the report, observes :—

"There were unfortunately frequent changes of charge during the year, and perhaps the falling off in results noted in the earlier paragraphs of the report may be traced partly to this cause and partly to there having been no Superintendent resident in the District for some months."

Serious crime.

30. Mr. Duggan, during the two months he was at Kaira, visited the scenes of crime of only two out of 14 cases. His excuse for not visiting more is generally because the accused were arrested at once, but this is not a sufficient reason. An officer of Mr. Duggan's experience should also be aware that omission to enquire personally into a serious dacoity case cannot be justified by the excuse that "the

Superintendent was engaged in writing his annual report!" Mr. Gell was more active, and investigated 22 cases out of 38 personally and promptly. His explanations for not visiting the remainder are only partly sufficient. In a small district like Kaira, and with the help afforded by the Railway, there is little excuse for serious crimes remaining unvisited.

31. Mr. Holland is not responsible for the results of the year's work, which is far from creditable to his predecessors Messrs. Duggan and Gell. Independently of the bad results obtained on paper, I must observe that I was obliged to notice with much disapprobation the general *appearance*, *shooting* and *drill* of both branches of the corps.

Under Colonel LaTouche improvement in the latter direction will soon be manifest.

33. *Superintendent of Police.*—Mr. J. B. D. Adams up to 23rd February 1881. Colonel W. P. LaTouche for the remainder of the year.

Assistant Superintendent of Police.—Mr. L. Spence, from 1st to 28th January and 10th May to end of year. During the interval Messrs. Gell and Adams were in charge.

Decrease in crime.

34. The Superintendent states that "the large decrease of crime is attributable to a good season, the consequent cheapness of food, large demand for labour and a careful patrolling system."

General results.

35. The Superintendent describes the general results as follows:—

"In 616 cases the investigations were completed during the year and convictions were obtained in 303, while 17 were pending trial at the end of the year. These last have for the most part been disposed of since the commencement of this year and resulted in convictions. The percentage of cases convicted to cases investigated in 1881 is 49·18 against 51·23 in 1880, and of cases convicted to cases reported 45·36 against 48·12 in 1880. A large percentage of the crimes in this district are committed by men from across the borders, and even though known and identified, their arrest is rarely effected. All that we can do being to call on the Political authorities of the State the offender belongs to, but they, as a rule, have no Police system and are unable to give effect to their wishes. The percentage of persons convicted to persons arrested in cognizable cases during the year under report is 72·81 against 67·66 in 1880.

"The reported value of the property stolen is Rs. 12,377 and of that recovered Rs. 7,207, the percentage of recovery being 58·22 against 22·85 in 1880."

Murder.

36. There were 4 cases of murder against only 2 in the preceding year. In two cases convictions were obtained; in one the murderer is at large wandering in foreign territory, and the fourth case remains undetected. This last case is described by the Superintendent as follows:—

"Some bones were found in a field of the Police Patel of Timba. They were said to be those of a woman, Sirdarba, widow of Thakore Jhamirsing, son of the Police Patel, Teja, who had been missing some time, and regarding whom rumours of foul play had arisen. From enquiry, it seems more than probable that Sirdarba was unchaste, that she had become pregnant, and that she was killed to avoid the scandal, but it is hard to obtain evidence. The whole village is Rajput. There are six shareholders of whom the Patel is one, and all are related more or less remotely and all combine to suppress any proof of the murder. The case remains undetected. One person was arrested but released by Magistrate without trial."

Culpable Homicide.

37. Four cases occurred during the year, and in all convictions were obtained.

Rape.

38. There was one case under this head against four in the previous year. The accused was arrested and convicted.

Dacoity.

39. There were 6 cases of dacoities against 12 of the previous year. Conviction was obtained only in one case, in 2 cases the accused were discharged, 1 case was struck off. The Superintendent writes regarding these cases:—

"The value of the property stolen amounted to Rs. 178 and of that recovered to Rs. 25. These dacoities are, as a rule, committed by men from over the borders, those in Godhra, Kálol, Hálol and Jambughoda being the work of Naikras from Oodepur and Sagtalla, where the police arrangements are utterly useless, and there is little chance of ever getting hold of an offender once he is back in his own border again."

Robberies.

40. Sixteen cases occurred during the year, and in 7 convictions were obtained, 3 cases were struck off, 2 were pending and 5 remain undetected. The Superintendent points out that the difference between robberies and dacoities in the Panch Maháls is purely technical.

Abduction.

41. Under this head there is a decrease of 4 cases, 10 having occurred in the previous year. In 5 cases Bheel girls about 13 or 14 years old were abducted, and in the sixth, a Bhoi girl of 17 years.

Opium.

42. Out of 28 cases of opium smuggling which occurred, in 21 convictions were obtained and 4 cases were struck off as no crimes; in three cases the accused were discharged. The value of opium smuggled amounted to Rs. 3,621.

Drill.

43. On this subject the Superintendent reports:—

"Drill has been carried on steadily throughout the year both with mounted and foot police. The only practical results however, I conceive, are obtained at Dohad, where the Assistant Superintendent is, and at Godhra, the Superintendent's head quarters. In the tálukas, a Constable, who is drill master, takes drill in a most perfunctory manner. Neither Inspectors nor Chief Constables have any real knowledge of drill or any soldierly instincts, and I have no hesitation in saying that more harm than good is done, for the *few* things *learnt*, are learnt incorrectly.

Ball practice.

44. The Superintendent states that—

"Ball practice is also steadily carried out; here too I anticipate little good from the táluka shooting. At Dohad and Godhra, on the contrary, under European supervision, good results have been obtained."

Assistant Superintendent.

45. Regarding his Assistant Colonel LaTouche reports:—

"Mr. Spence, my Assistant, continues to do his duty energetically and well. He takes much interest in his work and has the making in him of a very good Police officer."

Conduct of Officers.

46. Regarding his Inspectors and Chief Constables, Colonel LaTouche states:—

"I regret I can say little for the work done by two Inspectors. Their thána inspections are of very little value, while their enquiry into crime, as far as I can see, has been attended with no practical results at all. I really don't think if the 2 Inspectors were removed that the fact would be appreciably noticeable."

"The Chief Constables one and all are very indifferent. No practical knowledge of drill, though year after year they are supposed to attend and learn. Not the least idea or care whether a man is clean and turned out properly or not. Stupid and careless in investigation into crime, dilatory and grossly careless in all their clerical work, and utterly regardless of orders and circulars."

47. The District Magistrate in forwarding the Superintendent's report remarks:—

"The diminution of crime coupled with a considerable increase in the amount of stolen property recovered is very satisfactory. The decreased number of offences may be attributed to a bountiful season and a consequeutly cheap supply of grain foods for the lower classes, while the other favourable points noticed reflects credit on the operations of the Police during the year.

"The details of the different offences present no very special matter for remark. It may, however, be noticed that, in offences against property, robberies, thefts, cattle-thefts, &c., the Police have been notably unsuccessful—similarly, in dacoities, the percentage of success is very poor. The reason given by the Superintendent of Police for the failure of his Police is, to a certain extent, true, but now that the organization of their Police in the surrounding Native States is being improved day by day, the inability to detect this class of crime must not be ascribed wholly to absence of external assistance.

"In opium matters the arrangements made along the border seem to work well, and there is no doubt that opium smuggling into the Mahâls is far less than it used to be. Deterrent punishments and generous rewards are the principles laid down for the Magistrates in dealing with this class of crime.

"It is regretable that the percentage of rewards to meritorious Police should compare so disadvantageously with the amount of punishment distributed. As long, however, as the lowest class of Police is so badly paid, it is impossible to expect other than the dregs of the population from which to recruit the force. The two grades of Rs. 6 and 7 per mensem should be abolished and in their stead Rs. 9 and 10 substituted. A higher-bred, more intelligent and better educated set of men might then be demanded, and, with improved material, more happy results might reasonably be looked for.

"But it is a question whether, now that the Rewa Kántha has been amalgamated with the Panch Mahâls and the control is more certain and immediate, whether the strength of the force in the Mahâls is not susceptible of decrease. It may be asserted that the State Police in Baria, Lunávâda and Sunth, being portions of the Federal Police organized under Mr. Prescott during the attachment of those three States, is good and effective and ready to co-operate with our Police on all occasions. Again, the Chota Oodepur Force is in process of reintegration, and will, it is hoped, shortly be something more than a name. With these friendly and well-administered States on certain sides, the only portion of our border, where a strong Police is required, is to the north and north-east, and then undoubtedly no laxity in guard or supervision can be allowed. But for the rest it is not so, and circumstances have changed much since the Police force was established at its present strength. The District Magistrate does not suggest any savings in the finances; what he thinks worthy of consideration is that the quality of the Police might be improved at the expense of its quantity.

"The District Magistrate also observes that the Bheel Corps, originally intended to act as a safeguard and security against the marauding Bheel tribes, and, therefore, to be composed of Bheels alone, has now very much changed from that intention, and not more than half the corps consists of Bheels; whether this recruitment from other sources is intentional or not, the District Magistrate is not aware.

"The District Magistrate has pleasure in endorsing Colonel LaTouche's favourable commendation of Mr. Spence, the Assistant Superintendent of Police. He is zealous, hard-working, and can act with discretion on occasions."

48. Mr. Woodward's views and suggestions regarding possible reductions in the Bheel Corps shall have my attention. If the Railway should be continued to Dohad these suggestions will probably be practicable.

Serious crime.

49. Colonel LaTouche personally investigated 5 out of the 10 cases entered in the statement.

In the Assistant's return only 7 cases have been entered, and 5 of these were visited. Mr. Spence visited all three cases during his time, Mr. Adams two out of three, and the Inspector omitted to go to the scene in the one case which occurred when he was in charge.

From the returns it appears that 30 cases of serious crime occurred, while 17 have been entered in the above returns. Only 3 cases of dacoity are entered, out of the 6 reported to have occurred. It would be desirable, to ensure uniformity of practice, that some definition should be laid down of "serious crime," but regarding "dacoity" there can be no doubt. Only two out of the 16 cases of "robbery" are considered to have been of a serious nature, and as the amount stolen in one of these two was only Rs. 5-8-0, and the average amount in each of the 14 other cases was Rs. 17-0-0, it is difficult to understand what test has been applied.

51. *Superintendent of Police*—Mr. G. W. COTGRAVE up to 6th January 1881. Captain C. J. DICKSON for remainder of the year.

Decrease of Crime.

52. There has been a decrease of 237 offences, and the Superintendent explains that during the year under report the price of grain has been cheaper than usual, and that on this account the number of petty thefts have decreased from 356 to 274.

General Results.

53. The percentage of cases convicted out of those investigated is 38 against 32 in the preceding year; the percentage of persons convicted out of those arrested is 40 against 37 per cent. in 1880; and the percentage of recoveries of stolen property is 37 per cent. against 54 in the previous year. There were 145 cases remaining undetected at the close of the year, of which the greater part are cases of thefts. Captain Dickson remarks :—

"The inhabitants of the district are, on account of the cotton trade, well off, but after the season, when there is little trade, disputes occur as to the division of money gained from the sale of cotton, and the result (particularly among the Borahs) is, that false complaints of crimes of a serious nature, and thefts of large amounts are reported to the Police. These complaints, on enquiry, very often appear to be false; but on account of the manner in which witnesses have been tutored it is difficult for the Magistrates to dismiss the cases as false."

Murders.

54. Three cases under this head occurred during the year, and convictions were obtained in two, and, in the third case, the accused was discharged by the Magistrate for want of sufficient evidence. In two cases the motive for the crime was possession of land or other property, and in one case the murder was an agrarian one.

Culpable Homicide.

55. Four cases are recorded under this head. In two cases convictions were obtained, one was pending at the end of the year, and the fourth remains undetected, but this is a case in which the deceased was insane and was in the habit of attacking people. It is supposed he was struck at in self-defence and his arm broken. He was sent into Hospital but died shortly after. There was no apparent motive for the crime, and no one is likely to have harmed the deceased except in self-defence, but the offence remains undetected, as the Magistrate declines, and properly, to order its being struck off.

Highway robbery.

56. There was one case again this year; property worth Rs. 107 was carried off, but Rs. 47 worth was recovered subsequently and the offenders were apprehended and convicted.

House-breaking.

57. Three cases occurred in which large amounts were stolen. In one case Rs. 1,500, in another Rs. 1,350 and in the third Rs. 1,169 were reported as lost. Only Rs. 696 were recovered in the last case, and a conviction in that case was also obtained. The other two cases remain undetected, but it is strongly suspected that the first is a false complaint.

Abkári and Opium.

58. 37 cases were reported under the Abkári Act and convictions obtained in 31. 16 cases of Opium smuggling were detected and convictions obtained in 8. The results are good.

Treasure trove.

59. Two cases are recorded as having occurred under the Treasure Trove Act. In one case the accused was discharged and in the other a conviction was obtained. In the latter case, gold and silver coins, valued at Rs. 6,127, were found by the labourers digging a tank in the Broach City and appropriated by them.

Punishments.

60. The Police would appear to have been very leniently dealt with, and Captain Dickson explains this apparent leniency as follows :—

"As far as possible the men are punished by extra drill, and in serious cases dismissed. I am of opinion that by inflicting fines little advantage is gained, and that if the Police are aware that after being warned they will probably be dismissed, they perform their duties more satisfactorily than if they were fined."

I agree in great measure with Captain Dickson.

Outposts.

61. On the subject of outposts Captain Dickson observes :—

"The number of Police allotted to the District is not sufficient to carry out the wishes of Government that 5 to 8 men should be placed at each outpost. The wishes of Government have been carried out as far as practicable, but in every instance of an outpost of even two men being reduced, the Patels and villagers have complained and requested that the Police taken away from their villages should be replaced. As some of the outposts reduced were near foreign territory, it is probable that the villagers have reason for complaint; but it is impossible to reduce any other guards on account of the character of the inhabitants of the surrounding villages, &c. If a few extra men were sanctioned, it would facilitate the working of the Police of this district."

Drill.

On this subject the Superintendent writes :—

"The Police at head quarters have been regularly instructed in drill. 92 recruits were under instruction during the year and 42 instructed in manual, platoon and company drill as well as guard and sentry duty. The remaining recruits enlisted towards the close of the year were instructed in 20 sections of squad drill."

Education.

63. The large increase in the number of men that is shown as able to read and write is explained by the Superintendent as follows :—

"The increase in number that can read and write is to be accounted for by the number of men that have taken discharge, and I have been detained at head quarters chiefly to get rid of old and useless men and enlist recruits who could read and write."

Conduct of Officers.

64. The Superintendent speaks in high terms of his District Inspector; and of his City Inspector he says he has worked fairly well and has been more successful with his cases than his predecessors. He is generally satisfied with all his Chief Constables but one.

Serious Crime.

65. There is so little serious crime in Broach, and the District is so compact, that nearly every case should be personally investigated by the Superintendent, but in this return 21 cases are entered (including several large thefts), and out of these, 9 are shown as investigated by the Superintendent; but 4 of these occurred in the city, while the Superintendent's camp was at Broach, and omitting these, Captain Dickson personally enquired into 5 out of 17 cases. But it is noticeable that the Superintendent has entered important cases of house-breaking which some other officers have not done and omitted highway robbery. Without some orders on the subject uniformity will not be attained.

66. There is on the whole some improvement in the work this year.

Captain Dickson is not sufficiently active, but his health is indifferent.

The District Magistrate has refrained from commenting on the Superintendent's report. Messrs. White and Borradile are the only District Magistrates in the division who have been content to forward the annual report without remarks of any sort whatever.

68. *Superintendent of Police.*—Mr. H. SCANNELL up to 30th August 1881, Mr. D. MACLEAN up to 13th December 1881, Mr. H. J. H. HENDERSON for remainder of the year.

Increase of Crime.

69. The number of cases reported during the year was greater by 98 than during 1880, whilst in cases ascertained to have been committed within the year the increase is 172. The

Superintendent explains that the increase of crime comes chiefly under offences relating to simple hurt, excise laws and local nuisances, and calls for no special remark.

General Results.

70. The results of the year's work is as follows :—

	1880.	1881.
Percentage of convictions to cases investigated	54	61
Percentage of convictions to arrests	52	55
Percentage of recoveries to property stolen	46	45
Number of cases remaining undetected	123	113

Murders.

71. Four cases of murder are recorded against three in the previous year. In three cases conviction was obtained and one remains undetected. One was a case of child murder and the mother was sentenced to suffer the extreme penalty of the law, but this was commuted to 5 years' rigorous imprisonment. In another case, the husband suspecting his wife of infidelity put her into a large earthen vessel used for storing grain and closely plastered and secured the mouth. After a week he told his neighbours what he had done. He was sentenced to be hung. In the third case, a sepoy of the Forest Department was shot dead by an arrow by some Gáekwár's subjects of the Chodra caste. This was done in revenge for his having carried on an intrigue with the wife of one of the men. The fourth case, which remains undetected, is thus described by the Superintendent :—

"On the 20th February, in the town of Bulsar, a girl aged about seven years was found lying dead near a Mussalman's tomb. There were marks of pressure on the throat, both legs were broken and one ear was lacerated. When discovered she had on a pair of silver anklets. Two gold ear-rings were missing valued at Rs. 10."

Culpable Homicide.

72. There were three cases of culpable homicides against five in the year before, and in only one case conviction was obtained. One was a case of torture by the Police, and is thus described :—

"On the 9th of March, in the village of Welwach, Táluka Bulsar, a man, arrested in a case of theft, died suddenly and under suspicious circumstances. The Superintendent of Police, who conducted the investigation, has reported the cause of death to have arisen from torture. A Head Constable of the 4th class and a Constable, together with two of the village Police, were placed upon their trial but acquitted by the Session Court. The accused were removed from Government employ."

Dacoity.

73. There were no cases of dacoity in the previous year, but twelve occurred during the year under report. Six were, however, struck off as no crime. Of the remaining cases conviction was obtained in four. In one case the accused was acquitted and one case was pending at the close of the year. The value of property carried away was Rs. 808-4-0 besides 20 maunds of grain. The grain was carried away by laborers employed to clear away a wreck, and not receiving their wages on demand, they helped themselves to the grain. The case was then reported as dacoity. The Superintendent draws attention to the leniency of the punishment inflicted by the Session Court; of 28 persons convicted, 12 receiving two years' imprisonment, 9 one and a half each, and 7 one year each. Such sentences are hardly deterrent.

Robbery.

74. A considerable increase in the number of robberies occurred during the year, the increase being 17 cases. Out of the 42 cases convictions were obtained only in 10.

Punitive Posts.

75. Mr. Henderson reports :—

"The large force of Punitive Police appointed for the City of Surat was maintained throughout the year and has been found most effective, no disorderly conduct of any kind having been reported amongst the inhabitants."

Education.

76. The Superintendent observes that "the Police School was well attended by recruits and the men posted at Head Quarters, the average daily attendance being 30."

Drill.

77. The Superintendent gives the following table showing the progress made in drill :—

Grade.	The number of men remaining uninstructed in Drill at the close of the year.	
	1880.	1881.
Inspectors	....	....
Chief Constables	7	7
Head Constable, 1st Class	7	5
Do. 2nd do.	16	6
Do. 3rd do.	10	9
Do. 4th do.	25	26
Constables	401	336

Conduct of Officers,

78. The Superintendent speaks well of his Inspectors and Chief Constables generally.

Serious Crime.

79. Out of 17 cases in Mr. Scannell's time, only 6 cases were personally investigated. The explanation generally is that the complaints were supposed to be false, and in some cases these anticipations appear to have been realized, but no *reason* is shown for so many false complaints of dacoity, and the circumstance is so unusual that it is difficult to avoid feeling that, had the enquiry in each case engaged the early and personal attention of the Superintendent, some of them might have resulted differently.

80. The drill and discipline of the special Police are good. The shooting of the corps generally requires improvement.

The District Magistrate, Mr. White, has forwarded the Superintendent's report without a single remark.

82. *Superintendent of Police.*—Major C. PAYNE up to 31st May 1882, Mr. J. B. D. ADAMS for the remainder of the year.

Decrease of Crime.
General Results.

83. The District Magistrate, in noticing the decrease of crime and the general results of the year, observes :—

"The general results seem satisfactory when compared with those of the preceding year. There has been a decrease in cognizable crime amounting to 114 cases—the percentage of convictions to decisions increased from 90·28 to 91·21—the percentage of convictions to cases reported increased from 40·17 to 43·36; the number of dacoities fell from 17 to 12; the percentage of convictions to persons put on trial was 86·87 against 86·57 in 1880. The amount of property stolen was less, that recovered was greater, and the percentage of recoveries shows an increase of 6·43."

Murders.

84. There was a decrease in the number of murders, 18 having occurred in the preceding year and 16 this year. Convictions were obtained in only 6 cases, but 5 cases were pending trial at the end of the year. In 4 cases the accused were discharged by the Magistrate or acquitted by the Session Court, in 3 others no clue to the offenders has been obtained.

These cases are classed as follows by the Superintendent :—

Intrigue	1
Revenge	1
Quarrels	4
In committing dacoity	1
Motive unknown	6
Child murder	3

85. The number of culpable homicides has increased from 8 to 20 this year, but the Police have been successful in obtaining convictions in 14 cases. Only 1 case remains undetected.

Culpable Homicide.

86. There were only 12 cases of dacoity against 17 in the preceding year. This decrease is satisfactory, especially when it is remembered that 80 cases occurred in 1879. Convictions were obtained in 6 cases and 4 cases were pending at the close of the year. The Superintendent states that none of these cases were serious or committed by organized gangs. The Superintendent adds :—

Dacoities.

"Though no such scare (as that reported in former years) now exists, the timidity of the inhabitants is as great as ever. The invariable answer the Police authorities receive on reaching the spot and commencing enquiries is, 'I do not know anything about it, I can give no information, we all fled on the approach of the robbers.' This is in most cases true, though sometimes the persons robbed feign ignorance, preferring to lose their property to undergoing the inevitable inconvenience of being taken as witnesses to Magistrates' Courts. In either case the work of the Police is greatly increased and the chances of detection minimised."

87. The amount of property stolen was Rs. 44,107 and that recovered Rs. 17,726 against Rs. 45,351 and Rs. 15,307 respectively. The result is an increase of 6·43 in the percentage of recoveries.

Stolen property.

Conduct of the Police.

88. Mr. Adams writes :—

"The conduct of the force throughout the year has, on the whole, been good, though no special instances of zeal in the discharge of duties or detective ability were displayed by any individual member calling for reward in money or in the way of promotion."

89. Rs. 170 were distributed among the villagers who apprehended a noted dacoit named Padya. The capture is described as follows :—

Rewards.

"On the night of the 11th January 1881, a dacoity was committed at Koliwli in the house of Jawa Padu Patel. The dacoits came to his house between 6 and 7 P.M. of that day, and called on him to show them where his money and valuables were kept, one of them all the while cutting him with a sword and making slight flesh wounds on different parts of his body. His nephew Chango, suddenly coming in seized his uncle's torturer, on which Padya, the leader of the gang, came to his (the dacoit's) rescue, and taking Chango by the hair cut him twice with a sword over his back, and whilst they were struggling together he received further very severe wounds, one sword-cut cutting through the shoulder blade. The noise attracted the villagers to the spot, and on their ascertaining that the gang consisted of four or five persons only they made an attempt to capture the thieves, who, however, succeeded in getting out of the village and were making for the adjacent jungles followed by some villagers, when an old Mhar, taking a short cut, came on Padya, and whilst trying to capture him received many severe wounds ; he nevertheless managed to detain Padya until the other villagers came up. Padya and one Kashya were captured, but the rest of the gang effected their escape. Chango died on the 23rd idem from the effects of the wounds he had received."

Education.

90. The number of "officers" who can read and write is on the increase, and the Superintendent explains that

"This is due chiefly to the fact that at the time of making promotions preference was given to those who are able to read and write over those who cannot, although the claims of illiterate men who have displayed detective ability or have otherwise distinguished themselves were not overlooked. Hitherto little or no enquiry appears to have been made as to the amount of education recruits, on presenting themselves for enlistment, possessed, but now, unless candidates have other special qualifications, the question of their literary attainments is always taken into consideration, and I trust, in time, that the force will be composed of a better class of men than at present."

On the same subject the District Magistrate remarks :—

"The Superintendent seems to have wisely recognized the claims of those able to read and write for promotion, and his endeavours to enlist only educated men are very commendable. The dense stupidity to be met with occasionally in the force could scarcely exist long if the men were not illiterate. The revival of the school with a more efficient master will tend to improve matters, and if constables given thus an opportunity to learn do not take advantage of it, they should be passed over."

B 275—8 N D

Drill.

91. On the subject of drill the District Magistrate, Mr. Mulock, observes :—

"Much has been done, I am glad to say, in the matter of drill, and Mr. Adams takes much interest in it. The result is, one-fourth of the men have passed in this duty and the general bearing of the force is very superior to what it formerly was."

Conduct of Officers.

92. With only a few exceptions Mr. Adams does not appear to be satisfied with the detective ability, activity and energy of his Inspectors and Chief Constables. The system of promotion has necessarily confined selection to the next lower grades and the higher grades are now choked up with men who would never have been promoted but for the orders of Government on the subject. The object of the system was to induce men of a better stamp to enter the Police in the lower grades and give them the opportunity of raising themselves to the higher grades of Chief Constables and Inspectors, but the experiment has been tried for the past three years and has not been attended with the measure of success hoped for.

Wild Tribes.

93. The Superintendent reports :—

"Every endeavour has been made to give effect to the wishes of Government regarding the enlistment of members of the criminal wild and hill tribes, but without success. Nor am I sanguine of attracting them in any numbers, they preferring their wandering existence to a fixed mode of life, and there being no inducements, such as scanty rainfall and consequent privation to drive them to seeking employment. It is much to be regretted, as they would be invaluable in obtaining information regarding the criminals of the district, who chiefly belong to those castes, and they would also, to a certain extent, supply the place of a village police so much required in the Konkan."

Serious Crime.

94. 16 cases occurred during Major Payne's time, and he personally investigated 7 cases. Mr. Adams investigated 11 out of 30 cases. His explanations regarding the remainder are generally good and sufficient.

95. No special mention has been made either by the Superintendent or the Magistrate of the numerous cases against the A'bkári laws which have occurred during the year. This should not have been omitted, and next year it will be interesting to learn whether any decrease of crime is traceable to the effects of the new A'bkári Act in diminishing drunkenness.

The Superintendent of Police.

96. The District Magistrate concludes his remarks on the Superintendent's report with the following encomium on Mr. Adams :—

"I cannot conclude these remarks without referring to the excellent service performed by Mr. Adams himself during the year. He has taken much interest in his work : has done much to improve the general efficiency of the force."

I have much pleasure in endorsing these remarks. Mr. Adams is a very active and promising young officer and will be an efficient Superintendent.

98. *Superintendent of Police.*—Mr. F. GOLDSMID up to 9th February 1881, Mr. V. S. FITZGERALD up to 28th March 1881, Mr. W. HOLLAND from 31st March to 8th December 1881, Mr. H. KENNEDY for 30th and 31st December 1881; the District Magistrate and Deputy Collector were also in charge for short periods.

Decrease of Crime.

99. A comparison with the previous year's return exhibits the large decrease of 369 offences. The Superintendent explains that "this diminution is chiefly noticeable under the heads of minor offences against person and property. There is also a marked decrease in serious offences against person and property and under miscellaneous offences, while under the head of serious offences against the person there is an increase of 14 cases."

The decrease above referred to is doubtless in some measure attributable to less drunkenness owing to the increased price of spirits.

General Results.

100. The general result of the year's work is as follows :—

	1880.	1881.
Percentage of convictions to cases investigated ...	24·70	25·38
Percentage of convictions to arrests	39·08	43·16
Percentage of recoveries to stolen property	46	43
Number of undetected cases	316	291

The latter, though less than last year, is still far too high, and I hope next year to see a considerable reduction.

Murders.

101. There were only 2 cases of murder and only one in the previous year. In both cases the accused were acquitted.

Culpable Homicide.

102. Only one case under this head was recorded against 3 in 1880. Six persons were arrested but none of them were convicted.

Dacoity.

103. There were only 4 cases of dacoity against 7 in the preceding year. In 3 cases convictions were obtained, and one remains undetected. The total amount of property stolen in these cases was Rs. 936-4-0.

Fires.

104. On this subject the Superintendent writes :—

"Loss of property by fire during the year under report amounted to Rs. 74,497 as compared with Rs. 61,167 for the former year, representing an increase of Rs. 13,330 in the losses sustained. With the exception of three cases, in which the accused were prosecuted but discharged for want of proof, all the cases appear to have been accidental. In all these cases the fires originated through carelessness on the part of the inmates or from causes which were above suspicion as to their being the work of incendiaries."

Escapes.

105. Mr. Kennedy writes :—

"Five men effected their escape from the custody of the Police during the year under report. Four of this number had been convicted by the Joint Sessions Judge at Alibág for dacoity, and were lodged in the Subordinate Jail preparatory to being taken to Thána. They were all four confined in one and the same cell, and at midnight, on the 10th September, contrived to escape by bending one of the iron bars of the cell sufficiently to get their bodies through and by letting themselves down over the wall of the Jail with a rope made of the gunny stuff allowed them as bedding. The sentry on duty was prevented from seeing what was going on owing to the rain tatties with which the cells were shut in at the time. All four convicts were recaptured shortly after their escape. The sentry on duty was prosecuted and dismissed and the officer of the guard was reduced to the ranks.

"The fifth escape was that of the dacoit Sakria. He was being escorted by a guard consisting of one Head Constable and four Constables in July last, and though handcuffed and apparently firmly secured, succeeded in escaping from the guard. He was recaptured after a lapse of four months, and punished. The guard was dismissed for their negligence."

Education.

106. The Superintendent reports :—

"There has been a slight improvement under this head. Twenty-four men, chiefly recruits, were under instruction during the year. The smallness of the number at Head Quarters and the difficulty in getting intelligent recruits in the district are the chief causes of the want of more rapid progress in education".

Drill.

107. On this subject Mr. Kennedy writes :—

"The two Head Constables who qualified as Drill Masters in 1880 were attached to the Head Quarters, and were instrumental in putting 62 officers and men through the prescribed course of drill during the year. The results obtained appear small, but it must be remembered that, with the present constitution and distribution of the force, very marked progress cannot be expected in the matter of drill."

The shooting of the men at Head Quarters was excellent and did great credit to Mr. Holland's teaching.

Superintendent of Police.

108. The District Magistrate in concluding his remarks on the Superintendent's report observes :—

"The defaulters in the Police amount to more than one-seventh of the whole, an unsatisfactory state of things as pointed out by the Superintendent of Police. In this connection

it is impossible to help thinking that the frequent changes of Superintendents, as shown in para. 1 of the report, have had a prejudicial effect on the discipline of the force. The District Magistrate is aware that constant changes of officers are, for some reasons not very apparent, the rule rather than the exception in the Kolába District, but would express a hope that Mr. Kennedy's stay here may prove an exception. The Police would be much benefited by remaining for some time under a firm hand."

Serious Crime.

109. Mr. Holland was able to visit only one case out of six reported in his time. In all but two cases his explanation is satisfactory.

110. The results of the year have been fair, but the Kolába Police are not efficient generally. I look for much improvement under Mr. Kennedy and join with the District Magistrate in expressing a hope that he may be allowed to remain in his present appointment.

G. F. SHEPPARD,
Commissioner N. D.

					AHMEDABAD. *By the District Superintendent of Police.*			
1	Murder... ...	Vithlapore ...	21st Jan. 1881.	Evening of the 23rd January by telegram.	.....	The offenders were arrested immediately on the spot.	Acquitted by the Sessions Court.	
2	House-breaking, Rs. 1,198-4-0.	City	Night of the 3rd February 1881.	Morning of the 4th at 7 A.M.	At once	.....	Under enquiry.	
3	Theft, Rs. 3,610.	Do.	18th Jan. 1881.	Morning of the 11th February at 12 A.M. by Post.	.....	This crime was not reported for some days as the complainant supposed that some of his family were the culprits and so made no complaint.	Accused was sentenced to three years' rigorous imprisonment.	
4	Murder... ...	Within the limits of Waghpore.	4th Feb. 1881.	Morning of the 6th February 1882, at 10 A.M.	.....	Not visited, as it was too late to go to the spot and a report was received from the District Police Inspector that the two accused had been arrested and evidence obtained against them.	Accused No. 1 was sentenced to death and No. 2 was acquitted by the Sessions Court.	
5	Do.	Ramalpore ...	Not known ...	2nd March 1881 ...	.....	The Superintendent was unable to proceed to the spot as he was enquiring into a supposed murder case in the Gogha Táluka.	Under enquiry.	
6	Theft, Rs. 1,786-5	City	2nd March 1881	Morning of the 4th...	Went at once to enquire.	.....	The offender was sentenced to two years' rigorous imprisonment and fined Rs. 200 or in default to suffer 6 months' hard labour.	
7	Theft, Rs. 3,290.	Do.	11th March 1881	Evening of the 19th March at 4 P.M.	At once	.....	Under enquiry	Nothing has as yet been elicited; the case is apparently a family quarrel.
8	House-breaking, Rs. 10,032-9-0.	Do.	31st March ...	Morning of the 8th April 1881, by Post.	.....	A report was received from the City Police Inspector that four accused were arrested and portion of the stolen property recovered from their possession.	Acquitted by the Sessions Court.	
9	Murder	Do.	Early in the morning of 3rd May.	3rd May at 7 A.M. ...	At once	.....	Four accused were acquitted by the Sessions Court.	
10	Dacoity... ...	Sakaria... ...	16th May 1881.	Morning of the 20th May 1881.	.....	The Assistant Superintendent being near and the Superintendent at Gogha, the Assistant Superintendent was desired to go to the scene.	Under enquiry.	
11	Voluntarily causing hurt to extort confession.	Joowaraj ...	30th ,, ...	30th May, 3 P.M. ...	Started at 4 A. M. next morning.	.....	Sentenced to one year's rigorous imprisonment and fine Rs. 1,000, and in default to suffer further similar imprisonment for four months.

JUDICIAL DEPARTMENT.

FROM

E. P. ROBERTSON, ESQUIRE,

Commissioner, Central Division;

TO

THE CHIEF SECRETARY TO GOVERNMENT, BOMBAY.

Poona, 17*th July* 1882.

SIR,

I have the honor to submit the Annual Report on the working of the Police of the several districts of the Central Division for the year 1881.

1. Statement showing the Total Expenditure on Police Buildings.
2. Statement of Dismissals and Resignations in the subordinate Grades of the Police.
3. Statement showing the Serious Crimes that occurred and were investigated by the District Superintendents of Police personally.

2. The usual Statements A. to G. prescribed by the Government of India to accompany this Report, are, with the additional Statements, as per margin, required by Government, appended.

3. The dates of the District Police Superintendents' reports, the dates of the District Magistrates' transmitting memoranda, and the dates of the final replies to references made for further information and explanation are given in the subjoined table:—

DISTRICTS.	Dates of the Police Superintendents' Reports.	Dates of the District Magistrates' transmitting Memoranda.	Dates of the Police Superintendents' or Magistrates' Final Replies.

Sholápur	14th Feburary „ ..	20th February 1882 ..	5th June „

COGNIZABLE AND NON-COGNIZABLE CRIME.

4. The total number of offences of all descriptions reported to have been committed in the several districts of the Division during the year is 25,716, or a decrease of 4,152 cases as compared with the previous year. This decrease is apparent in all districts except Khándesh, where there has been a slight increase of 48 cases. The subjoined table shows the extent of cognizable and non-cognizable crime in each district of the Division and the results of the year's operations in contrast with the same for the preceding year:—

DISTRICTS.	Cases ascertained to have occurred.		Number of Persons arrested.		Number of Persons convicted.		Number of Persons acquitted and released.		Percentage of Convictions to Arrests.	
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Ahmednagar	4,065	3,154	5,445	3,634	2,355	1,516	3,054	2,086	45·	42·
Khándesh	4,884	4,932	6,595	5,865	3,147	2,622	3,370	3,134	48·	45·
Násik..	4,385	4,180	5,865	5,790	2,658	2,802	3,192	2,953	45·	48·
Poona	8,166	7,033	9,623	8,993	4,971	3,502	4,582	5,430	52·	39·
Sátára	6,114	4,475	6,089	3,539	3,103	1,865	2,955	1,636	51	53·
Sholápur	2,254	1,942	2,864	2,257	1,825	1,219	1,030	1,014	41·	54·
Total ..	29,868	25,716	36,481	30,078	18,059	13,526	18,183	16,253	49·	45·

5. In the above total, of 25,716 cases for the year no less than 6,199 cases, or 24 per cent., struck off as "no crime," are included; and if this number be deducted to admit of comparison with the figures of previous years, the number of true cases for the year under notice is reduced to 19,517, and thus compared the contrast is favourable as will be seen from the statistics of crime given below for the last ten years :—

1871 ...	... 23,284	1876 ...	... 22,514
1872 ...	... 23,069	1877 ...	... 30,046
1873 ...	... 23,726	1878 ..	... 28,970
1874 ...	... 22,156	1879 ...	... 28,730
1875 ...	... 21,946	1880 ...	... 25,436
	1881 ... 19,517.		

6. The total number of persons arrested in connection with the cases reported for the year under notice was 30,078, of whom 13,526 or 45 per cent., were convicted against a percentage of 49 in the previous year. There is a falling off in the percentages for the districts of Poona, Ahmednagar and Khándesh; Poona being the foremost where the fall is 13 per cent. In Ahmednagar and Khándesh the fall is 3 per cent., in the case of each. The percentage in the remaining districts of Sholápur, Násik and Sátára, however, shows an improvement of 13, 3 and 2 per cent. respectively.

7. The subjoined table shows the proportion of cognizable and non-cognizable crime to area and population for the entire Division in contrast with the same for the preceding year :—

	Cognizable Cases.		Non-cognizable Cases.		Total.	
	1880.	1881.	1880.	1881.	1880.	1881.
Offences ascertained to have been committed	23,724	20,460	6,144	5,256	29,868	25,716
Proportion of crime to area in miles ..	1 to 1·66	1 to 1·84	1 to 6·40	1 to 7·19	1 to 1·32	1 to 1·47
Do. do. to population ..	1 to 220·16	1 to 259·78	1 to 850·14	1 to 1011·25	1 to174·88	1 to 206·69

8. From the above it will be seen that taking the area and population at the figures given for each year, the proportion of cognizable and non-cognizable crime reported for the year is as 1 to 1·47 square miles against 1 to 1·32 in 1880, and as 1 to 206·69 of the population against 1 to 174·88 in the previous year. Thus the comparison is somewhat favourable to the year under report.

Cognizable Crime.

9. The total number of cognizable offences reported to have been committed in the entire Division during the year is 20,460 against 23,724 in 1880, being a decrease of 3,264 cases. The decrease occurs in all the districts of the Division except Khándesh, in which, however, the increase amounts to 6 cases only. The following table shows the number of cases for each district separately and for the entire Division, in contrast with the same for the previous year :—

Districts.	Cases.						Number of Persons arrested.						Died, escaped or transferred before trial

10.* The above comparison shows that the decrease in cognizable offences in the Sátára District amounted to 1,712 cases, that in Ahmednagar it amounted to 896 cases, and that in Sholápur, Násik and Poona it amounted to 303, 279 and 80 cases respectively.

11. The following abstract shows the number of cognizable offences reported under each class for the whole Division, and for each District separately in contrast with the same for the preceding year :—

DISTRICT.	*Class I.* Offences against the State, &c.		*Class II.* Serious offences against the person.		*Class III.* Serious offences against person and property, &c.		*Class IV.* Minor offences against the person.		*Class V.* Minor offences against property.		*Class VI.* Other offences.		Total.

Decrease ..	..	14	..	..	..	237	..	60	..	2,304	..	691	..	3,264

12. Thus comparing the figures for 1881 with those of 1880, it will be seen that there is a decrease under all classes except Class II. " Serious offences against the Person," under which head the increase for the Division amounts to 42 cases.

13. Under Class I., "Offences against the State, &c.", there is a decrease of 14 cases for the whole Division. There is a decrease in every district except Násik, in which there are 11 cases more than in the previous year. The largest decrease of 13 cases occurs in Sátára, and the smallest of one case in Ahmednagar.

14. Under Class II. " Serious Offences against the Person " there is an increase of 42 cases for the whole Division ; but taking each district separately, Khándesh, Poona, Násik and Ahmednagar show an increase of 28, 26, 15 and 8 cases respectively, while Sátára and Sholápur show a decrease of 30 and 5 cases respectively.

15. Under Class III., " Serious Offences against Person and Property &c.," a decrease occurs in every district except Ahmednagar, which shows an increase of 20 cases. The aggregate decrease for the Division amounts to 237 cases.

16. Under Class IV., " Minor Offences against the Person," Khándesh, Sholápur and Poona show an increase of 336, 236 and 195 cases respectively, while the remaining districts of Sátára, Násik and Ahmednagar show a decrease of 643, 100 and 84 cases respectively. The aggregate decrease for the Division amounts to 60 cases.

17. Under Class V., " Minor Offences against Property" a decrease occurs in every district, giving an aggregate for the Division of 2,304 cases. The largest

decrease of 830 cases appears against Sátára and the smallest of 107 cases against Sholápur.

18. And under Class VI., " Other Offences," there is a decrease of 691 cases for the whole Division, but looking to the figures of each district, there is a decrease of 388, 373, 164 and 59 cases respectively in the districts of Sholápur, Ahmednagar, Sátára and Khándesh, and an increase of 157 and 136 cases respectively in the districts of Poona and Násik.

19. The following table shows the number of cases of cognizable crime, and among them the number of cases struck off the registers as " No crime" by order of the Magistrates, in contrast with the same for the preceding year. It also furnishes details of the number of persons arrested, and of the number arrested and discharged in struck off cases, both in this and the preceding year :—

21. It will be seen that there is in the total number of cognizable cases brought on the crime register of the year, a decrease for the Division of 3,094 cases as compared with the preceding year, the number being 21,383 for the year under report against 24,477 in 1880; and that the number of cases struck

off the registers as "No crime" has increased from 5,632 in 1880 to 6,199 in 1881. This increase occurs in all the districts of the Division except Sátára, where a decrease of 116 cases will be noticed. The largest increase of 217 cases occurs in Khándesh and the least of 16 cases in the Násik District.

22. The total number of persons released during the year, as concerned in cases struck off the registers as "No crime" was 698 against 972 in the previous year. In the districts of Ahmednagar, Poona, Sátára and Sholápur the number is less by 202, 81, 54 and 38 respectively, while in Násik and Khándesh it is more by 71 and 30 respectively.

23. The total number of cognizable cases, including cases reported in previous year and brought under enquiry during the year, as well as cases struck off as "No crime", amounted for the year to 21,383; of these 19,969 were investigated by the Police during the year and 388 were pending investigation at the close of the year. The total number of cases decided during the year was 10,310 and in 7,002 of these convictions were obtained. The percentage of convictions to cases decided has slightly fallen from 69 in 1880 to 68 in 1881. The following table shows the results for each district in the year under report in comparison with the same for the preceding year :—

Districts.	Number of cases investigated.		Number of cases investigated pending trial at the close of the year.		Number of cases decided.		Number of cases decided in which convictions were obtained.		Percentage of convictions to cases decided.

24. The figures in the above table show an improvement in the percentage of cases in which convictions were obtained to cases decided for the districts of Ahmednagar, Sátára and Násik where it has risen from 65, 68, and 88 per cent. respectively in 1880 to 73, 74 and 92 per cent. in 1881; but for the remaining three districts of the Division the result is a falling off in the percentages amounting in Khándesh and Sholápur to 8 per cent. each and in Poona to 2 per cent.

25. The total number of persons arrested in cognizable cases investigated during the year was 22,668, and of this number 15,365 or 68 per cent. were brought to trial, and of this number again 10,004 or 65 per cent. were convicted against 68 per cent. in 1880. This slight fall in the percentage for the Division is due to the smallest percentages obtained in the Khándesh, Sholápur, Ahmednagar and Poona Districts, where they have decreased from 87, 71, 52 and 72 per cent. in 1880 to 62, 57, 39 and 70 per cent. respectively in the year under report. The percentages in Sátára and Násik have on the other hand improved to the extent of 5 and 3 per cent. respectively. The percentage of convictions to arrests for the Division has also fallen from 48 in 1880 to 44 in 1881. In the Sholápur, Ahmednagar, Khándesh and Poona Districts the percentages are smaller by 10, 9, 5 and 3 per cent. respectively, but in Sátára and Násik they have improved by 6 and 4 per cent. respectively, as will be seen from the subjoined table :—

27. From the above table it will be seen that in cases taken up by the Police *suo motu* the percentage of convictions to arrests was 57 in 1881 against 56 in 1880, while in cases in which the arrests were made on orders from the Magistrates the percentage stood at 29 in 1881 against 35 in the preceding year. The highest percentage in cases taken up by the Police was attained in the Násik District, being 70 per cent. in the year under report, while the lowest appears against Khándesh, in which district the percentage only reached 49 per cent. It is to be feared that in most of the districts of the Division there is a tendency to effect arrests in a somewhat indiscriminate manner, and the point is one to which I shall draw the attention of the Superintendents with the view of applying a remedy. On the other hand it will be seen that in cases in which action was taken on orders from the Magistracy, the results as regards convictions are very poor, the highest percentage of convictions to arrests in these cases being 49 per cent., which has been attained in Sholápur only; the lowest percentage appearing against the Ahmednagar District in which it was 21 for the year reported on.

28. The following is a comparative statement for the Division, and it shows the fluctuations in, and particulars of, the more serious offences that occurred during the two years 1880 and 1881, with the results obtained :—

Offences.	1880. Cases. Occurred during the year.	Reported in previous years.	Total.	Percentage of cases in which convictions were obtained to cases decided.	Number of Persons arrested. 29. From the foregoing table it will be seen that as compared with the previous year there has been in the Division an increase in cases of murder, culpable homicide and kidnapping, but a decrease in cases of dacoity, robbery, theft, and receiving stolen property. The percentage of cases in which convictions were obtained to cases decided has fallen in respect to all the offences specified, except murder, in which it is the same (64) as in the previous year. The percentage of convictions to arrests has also fallen in cases of dacoity, robbery, theft and kidnapping; but in cases of culpable homicide and receiving stolen property, the percentages are the same as in the previous year. In cases of murder there is an improvement of 2 per cent.

30. It is to be noticed that in the above comparison of serious offences cases struck off as "No crime" are included. Deducting all such cases the comparison stands as follows :—

	Number including struck-off cases. 1880.	1881.	Number excluding struck-off cases. 1880.	1881.
Murders	62	72	48	56
Culpable homicides	23	41	21	28
Dacoities	36	19	34	16

Receiving stolen property	400	279	386	260
Kidnapping	30	48	15	19

31. Thus there were for the Division 56 true cases of murder in the year under report against 48 in the preceding year, or an increase of 8 cases. The increase appears against the Násik, Khándesh, Sholápur and Sátára Districts, in which 7, 14, 6 and 10 cases are returned against 2, 12, 4 and 9 cases respectively in the previous year. In Poona the number is the same (11) as in the preceding year, while Ahmednagar alone shows a decrease of 2 cases, the number for this district being 8 in 1881 against 10 in the previous year. Of

the 56 cases of murder 5 were committed by robbers, 2 by poisoning, and the remaining 49 are due to other causes. The percentage of cases of murder in which convictions were obtained to cases decided has improved in the districts of Sholápur, Ahmednagar and Poona to the extent of 25, 13 and 6 per cent. respectively. Násik shows the high percentage of 100 per cent. as in the previous year, but the districts of Khándesh and Sátára show a falling off in the percentage from 64 and 90 in 1880 to 43 and 75 in 1881. The percentage of convictions to arrests for the whole Division shows a slight improvement of 2 per cent. which is due to the favourable results obtained in the Násik District, where the percentage has risen from 25 in 1880 to 80 in 1881. The Ahmednagar and Poona Districts also show an improvement of 10 and 9 per cent. respectively, but the districts of Sholápur, Khándesh and Sátára show a falling off in the percentage from 46, 45 and 75 in 1880 to 27, 29 and 64 respectively in 1881.

32. There were 28 true cases of culpable homicide in the year under report against 21 in the previous year, or an increase of 7 cases for the Division. There is an increase of 2 cases in each of the districts of Khándesh and Poona. In Násik the increase amounts to 4 cases; in Ahmednagar and Sátára the number of cases is the same (4 and 1 respectively) as in the previous year: Sholápur alone shows a decrease of one case. The percentage of convictions to cases decided has fallen from 60 in 1880 to 56 in 1881 for the whole Division. Taking individual districts the result is that the percentage has fallen in Sholápur, Poona and Khándesh from 100, 67 and 50 in 1880 to 50, 25 and 43 per cent. respectively in 1881; in Násik the percentage is the same (100) as in the previous year; while in Sátára and Ahmednagar the percentage has risen from 67 and *nil* in 1880 to 100 and 25 per cent. respectively in 1881. In connection with these cases 54 persons were arrested, of whom 17 or 31 per cent. were convicted, 35 were acquitted and released, and 2 were awaiting trial at the close of the year.

33. In cases of dacoity there is a decrease of 18 cases as compared with the preceding year, the number of true cases being 16 in 1881 against 34 in 1880. Decreases occur in the districts of Poona, Ahmednagar, Násik and Sátára, the largest being in Poona for which 4 cases are returned against 14 in 1880. Ahmednagar shows only one case against 8 in 1880; Násik and Sátára show 4 and 1 cases against 6 and 3 respectively in 1880. In Khándesh and Sholápur, however, there is an increase, 3 cases appearing against each in 1881 against 1 and 2 in 1880. The three cases in the Khándesh District are stated to have occurred in the previous year and to have been decided only during the year. They should not, therefore, have appeared as cases for the year but as pending cases pertaining to the preceding year. The percentage of convictions to cases decided for the Division has fallen from 86 in 1880 to 81 in 1881. This result is due entirely to the fact that in the Sátára District no conviction was obtained in the only case of dacoity that occurred during the year, while the percentage in 1880 was fully 100. In the remaining districts of the Division there is an improvement in the percentage in the case of Násik, Poona and Ahmednagar in which it has risen from 95, 93 and 60 per cent. to 100, 100 and 67 per cent. respectively, while in Khándesh and Sholápur there is neither increase nor decrease, the percentage being the same (100 and 75 respectively) as in the previous year. Ninety-seven persons were arrested in connection with these dacoities of whom 42, or 43 per cent. were convicted against 50 per cent. in the previous year.

34. There were 97 true cases of robbery for the Division during the year against 106 in the previous year, showing a decrease of 9 cases. There is a decrease in Sholápur, Násik, Sátára and Khándesh, amounting in the aggregate to 23 cases; but Poona and Ahmednagar show an increase of 10 and 4 cases respectively. In the percentage of cases in which convictions were obtained to cases decided there is a falling off for the Division from 61 in 1880 to 50 in 1881. In the districts of Khándesh, Sátára and Poona there are decreases of 25, 5 and 4 per cent. respectively; while in Ahmednagar and Sholápur there is an increase of 15 and 10 per cent. respectively. Násik gives the same percentage of 100 for both the years 1880 and 1881. The total number of persons arrested in these cases of robbery, including 12 who were pending trial at the close of the previous year, was 226 and of these 57 were convicted, 160 were acquitted and released,

and 9 were pending trial at the close of the year. The percentage of convictions to arrests for the Division shows a large falling off from 40 in 1880 to 25 in 1881. As regards individual districts, there is an improvement in the percentage for the districts of Sholápur, Sátára and Ahmednagar of 19, 9 and 4 per cent. respectively, but a falling off in Khándesh of 25 per cent. and in Násik and Poona of 16 per cent. each.

35. There is a considerable decrease in the number of "thefts" as compared with the previous year, the number of true cases being 3,368 in 1881 against 5,027 in 1880. The decrease in the year under notice extends to all the districts of the Division, the largest (426) occurring in Sátára and the smallest (156) in Sholápur. The percentage of cases in which convictions were obtained to cases decided, as well as the percentage of convictions to arrests has slightly fallen for the Division, in the case of the former from 74 in 1880 to 70 in 1881, and in that of the latter from 58 to 56 per cent. Taking each district separately there is a falling off in the percentage of cases convicted to cases decided in the districts of Khándesh, Násik and Sholápur to the extent of 8, 3 and 10 per cent. respectively; Ahmednagar and Sátára show a slight improvement of 3 and 2 per cent. respectively, while Poona shows the same percentage (90) for both the years 1880 and 1881. The percentage of convictions to arrests has, however, fallen in all the districts of the Division except Sátára, in which it has risen from 55 in 1880 to 59 in 1881.

36. The crime of "Receiving Stolen Property" also shows a decrease of 126 cases for the Division as compared with the previous year, the number of true cases being 260 in 1881 against 386 in 1880. The decrease occurs in every district of the Division, the largest of 42 cases being in Ahmednagar, and the least of 12 cases in Sátára. The percentage of cases convicted to cases decided has fallen from 80 in 1880 to 74 in 1881. The number of persons arrested including 6 who were pending trial at the close of the previous year was 404, of whom 277 were convicted, 118 were acquitted and released, and 8 were pending trial at the close of the year. The percentage of convictions to arrests remains the same (68) as in the preceding year.

37. Under the head "Kidnapping or Abduction" there were 19 true cases for the whole Division against 15 in the previous year, showing an increase of 4 cases. The increase occurs in the 4 districts of Khándesh, Násik, Sátára and Sholápur; Poona and Ahmednagar showing a decrease of 3 and 1 cases respectively. The percentage of cases convicted to cases decided, as also the percentage of convictions to arrests, has fallen, in the case of the former from 38 in 1880 to 33 in 1881 and in the case of the latter from 30 to 23 per cent. In none of these 19 cases were the accused charged with kidnapping females for immoral purposes. They were all cases of children being decoyed, chiefly for the purpose of stealing their ornaments.

Non-Cognizable Crime.

38. The following table, which is an abstract of Statement A, Part II, shows the number of non-cognizable offences committed in each district during the year, and the results of the year's operations in contrast with the same for the preceding year:—

District.	Cases ascertained to have occurred.		Number of persons arrested or summoned.		Number of persons convicted.		Number of persons acquitted and released.		Percentage of convictions to arrests.		Percentage of acquittals to arrests.	
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.

39. It will be seen that in the total number of non-cognizable offences for the year there is a decrease of 888 cases as compared with the preceding year, the number being 5,256 in 1881 against 6,144 in 1880. The decrease occurs in the districts of Poona, Ahmednagar and Sholápur to the extent of 1,053, 15 and 9 cases respectively; while in Násik, Sátára and Khándesh there is an increase amounting to 74, 73, and 43 cases respectively.

40. In these 5,256 non-cognizable offences 7,410 persons were arrested or summoned, of whom 3,522 or 48 per cent. were convicted and 3,824 or 52 per cent were acquitted and released. These percentages show a falling off as compared with the results of the preceding year, in which they amounted to 56 and 44 per cent. respectively. This falling off in the percentage occurs in the districts of Poona, Sátára and Sholápur, where it reached 26, 5 and 2 per cent. respectively. In Násik the percentage is the same (55) for both the years 1880 and 1881, while the Ahmednagar and Khándesh districts show an improvement of 63 and 2 per cent. respectively.

41. The following statement furnishes details for each district, and shows separately the results obtained in cases in which the police were employed from those in which the police were not employed for both the present and the previous year:—

Districts.	Cases in which Police were employed.											
	Number of Cases.		Number of persons arrested or summoned.		Convicted.		Acquitted.		Percentage of convictions to arrests.		Percentage of acquittals to arrests.

42. It will be observed that only 207 of the total number of non-cognizable cases for the Division or an average of 4 per cent. were referred to the Police for investigation, and that the remaining 5,049 cases or 96 per cent. were taken up by the Magistrates without the intervention of the Police. In the 207 cases in which Police were employed 274 persons were arrested or summoned, of whom 105 or 38 per cent. were convicted, and 161 or 59 per cent. were acquitted or released. These percentages show a considerable fall as compared with those of the preceding year, in which they represented 50 and 49 per cent. respectively. In the 5,049 cases taken up by the Magistrates without the intervention of the Police, 7,136 persons were arrested or summoned of whom 3,417 or 48 per cent. were convicted, and 3,663 or 51 per cent. were acquitted and released. These percentages also show a falling off as compared with the previous year, in which they amounted to 56 and 43 per cent. respectively.

43. I do not consider that any deductions can be drawn from this table as to the working of the Police. It is in the interest of the public that the Police should have as little as possible to do with such cases. There is no doubt that

a very large number of the complaints is in a great measure false and only made to annoy the persons complained against. If the Police are largely employed by the Magistrates, then such a course is only playing into the hands of the complainants whose ends are gained if they can only get people subjected to some police enquiry. That the percentage of convictions is small I look upon as a favourable sign that the direct and immediate enquiry by the Magistrates is doing good in protecting people from annoyance from unnecessary and vexatious complaints.

44. The value of property stolen during the year under report amounted to Rs. 2,60,089 for the whole Division or Rs. 58,192 less than in the preceding year. The amount recovered was Rs. 1,12,596 or Rs. 15,166 less than in the year 1880. The following table shows the value of property stolen and recovered, with the percentge of recoveries for each district in contrast with the same for the previous year and for the year 1879 :—

Districts.	Value of Property stolen.			Value of Property recovered.			Percentage of recoveries to value of property stolen.		
	1879.	1880.	1881.	1879.	1880.	1881.	1879.	1880.	1881.

Total ..	5,57,417	3,18,281	2,60,089	1,87,212	1,27,762	1,12,596	33·	40·	43·

45. From the above table it wil be seen that in Sátára, Poona and Khándesh there is an improvement in the percentage of recoveries which has risen by 15, 7 and 5 per cent. respectively as compared with the previous year; while in Násik, Sholápur and Ahmednagar there is a falling off of 11, 6 and 1 per cent. respectively. Taking the division as a whole, there is an improvement of 3 per cent, the total of recoveries being 43 per cent in 1881 against 40 in 1880. These results though favourable as compared with the previous two years, are still below what has been attained in the 7 years preceding 1879, except in 1877, as will be observed from the following figures :—

Year.	Value of Property stolen.	Value of Property recovered.	Percentage.
	Rs.	Rs.	Rs.
1872	3,72,571	1,71,105	46·
1873	3,60,064	1,64,152	45·
1874	2,96,585	1,54,689	52·
1875	2,80,465	1,54,412	55·
1876	3,15,328	1,39,149	44·
1877	4,36,536	1,79,997	41·
1878	5,28,753	2,40,269	45·
1879	5,57,417	1,87,212	33·
1880	3,18,281	1,27,762	40·
1881	2,60,089	1,12,596	43·

46. With regard to the falling off in the percentage in the Násik District, the District Magistrate, Mr. Ramsay, states :—

"There is a falling off in the percentage of property recovered as compared with the previous year, but this really tells but little. One single case in which thieves may have got off successfully with a large booty destroys the average as against perhaps hundreds of cases in which the Police have been successful. In other respects the figures speak well for the action of the Police generally".

47. As regards the falling off in the percentage of recoveries of stolen property in the Sholápur District, the District Superintendent of Police remarks that the large increase in property stolen is due to Rs. 6,053 worth of bonds alone being stolen in one dacoity case. If this sum be deducted from the total amount of property stolen, the percentage will rise to 60 against 56 in the previous year.

48. In explanation of the slight falling off in the percentage of recovery of stolen property in the Ahmednagar district, the Superintendent of Police, Major Babington, writes :—

"The value of property stolen is, I am glad to say, considerably less than last year, being only Rs. 32,619, as against Rs. 48,400, whilst the percentage of recoveries is just about the same. That this percentage is not very much larger is due to what, I think, I am really justified in calling very bad luck. Out of the 32,000 rupees stolen, Rs. 10,000 were taken in one single case. The case of course received very great care and attention from me personally, from Mr. Inspector Ganpatrao and from the Police generally, and, after months of patient search, a very large amount of property which we had good reason to believe was some of the proceeds of the theft was traced to a village in the Poona District. Much, however, to our disappointment, on search being made, and the property recovered, it was found to have been so much broken up, disfigured and otherwise altered, as to be quite incapable of identification".

49. There is much force in the remark made by Mr. Ramsay the District Magistrate, Násik. I consider that when the average of all the districts amounts between 40 and 50 per cent. the Police must, in common fairness, be held to have done fairly well. Every officer of any Police or Magisterial experience is well aware that complainants, as a rule, very greatly exaggerate their losses. Their simple unproved statement of their loss is obliged to be taken as the real amount lost. I feel convinced that when the loss for the division is put down at Rs. 2,60,089, the true loss has not amounted to much more than $\frac{1}{2}$ that sum or at most to $\frac{2}{3}$.

Statement C.

50. No offences having been committed by habitual criminals who came under the cognizance of the Thuggi Department, Statement C is submitted blank.

Statement D.

51. During the year under report 75 fairs were held in this Division, *viz.* 7 in the Ahmednagar District, 12 in Khándesh, 43 in Násik, 7 in Poona, 4 in Sátára, and 2 in the Sholápur District. In only 8 of these fairs, noted in the margin, the number of people assembled was 30,000 and upwards. In none of these 75 fairs, except at A'landi in the Poona District, were any special Police employed for the protection of person and property, small detachments of Police from the regular force of the district being generally found sufficient to maintain order during the fairs. At A'landi 35 men were employed for 9 days at a cost of Rs. 92 to the Municipality of that town.

Ahmednagar...	Ahmednagar City	... 35,000
Khándesh ...	Máheji ...	... 33,000

52. Under the provisions of Section 16 of the Bombay District Police Act VII. of 1867, one punitive police post was established during the year under report in the village of Devláli in the Ahmednagar District, and one in the village of Jadhowvadi in the Sátára District. The punitive post in the Ahmednagar District was rendered necessary by the suspicious conduct of the inhabitants of the village of Devláli in connection with certain serious crimes which occurred in that district, while that in the Sátára District was necessitated by the brutal murder of 5 persons at a place called Sindewadi by some of the inhabitants of the neighbouring village of Jadhowvadi. On the other hand, the punitive posts quartered last year in two villages of the Násik District, in one village of the Poona District, and in four villages of the Sátára District, were withdrawn during the year. The punitive Police posts quartered in 1879 in certain villages of the Purandhar and Haveli Tálukas of the Poona District and in the Bhor State, and which were continued during 1880, were also withdrawn during the year under report.

Statement E.

53. The total sanctioned strength of the Police force including the Superintendents and Assistant Superintendents of Police employed in the several districts of the Central Division, after effecting the reductions sanctioned in Government Resolution No. 7137, dated 22nd October 1880, was 5,620, main-

tained at a cost, including contingencies, of Rs. 9,07,833, of which Rs. 9,00,133 were defrayed from Provincial revenues and Rs. 9,120 from Municipal and other sources. The general distribution of the force on the last day of the year was as follows :—

General Police duties		3,898
Jail Guards		174
Guards over Lock-ups and Treasuries and miscellaneous ...		830
Town and miscellaneous duties		534
Cantonment duties		176
Add—		
Superintendents and Assistant Superintendent of Police ...		8
Total ...		5,620

54. The proportion of Police to area and to population for the whole Division and for each district separately is given in the following table :—

Districts.	Sanctioned Strength.	Area in square miles.	Population.	Proportion of Police.	
				To Area.	To Population.
Ahmednagar	626	6,666	751,228	1 to 10·64	1 to 1,200·04
Khándesh	1,684	10,338	1,237,231	1 to 6·14	1 to 734·70
Násik	729	5,940	781,206	1 to 8·15	1 to 1,071·61
Poona	1,096	5,348	900,621	1 to 4·88	1 to 821·73
Sátára	957	4,988	1,062,350	1 to 5·21	1 to 1,110 08
Sholápur	528	4,521	582,487	1 to 8·56	1 to 1,103·19
Total ..	5,620	37,801	5,315,123	1 to 6·73	1 to 945·75

55. From the above table it will be seen that the average proportion of the whole Police force to the area and population of the Division is one policeman to 6·73 square miles and one policeman to 945·75 souls. If, however, the portion of the constabulary employed on other than general Police duties be deducted, the proportion becomes 1 policeman to 9·70 square miles and 1 policeman to 1,363·55 of the population.

56. I here deem it my duty in connection with this table to point out that in most of the districts of this Division the Police force is quite insufficient for the numerous duties required of it. This is is the case especially in Ahmednagar, Násik and Sholápur. The Police Superintendents of all these districts have made urgent representations on this subject, and these representations have been laid before Government with full support from me. I can only express my great regret that these representations have not been favourably received by Government, and that they have even been regarded as if unnecessarily made. Notwithstanding this the facts still remain.

57. In Ahmednagar the Police force is, when the duty of Táluka Treasury guards is considered quite insufficient for regular district duty. Such being the case, when the Military were of necessity removed from Ahmednagar the Police, without any extra aid being granted, were required to take all the military duty. I believe military officers consider their men very hardly treated and very much overworked if they do not get 3 nights in bed in the week. For many many months the Ahmednagar Police at head-quarters did not get a single night in bed; they were on perpetual duty.

58. In Sholápur the case is much the same. The scarcity of police in the tálukas in both Sholápur and Ahmednagar is such that as soon as a constable arrives dead-tired from a long marching he has at once to return to his táluka. Then come treasure escorts, and now more trying than all, escorts for large gangs of prisoners. Sholápur has now to provide very many escorts for prisoners to Mhaswad, the distance being upwards of 75 miles. To get together an escort men have for days beforehand to be called in from each táluka, and thus those tálukas which already have far too few men for their ordinary Police duties are deprived for a month nearly of a number of police. This is most destructive to discipline and the proper control and organization of the Police. While the Police force is thus too weak for regular duty it is obliged from its ordinary strength to provide men as guards for the Public Works Department.

In resolution No. 2821, dated 5th May 1882, Government was pleased to state that—

"Government cannot sanction any increase of the Police force, which must continue to furnish the needful guards as usual. If more men are required the Commissioner, Central Division, should direct the Superintendents of Police to reduce the number of outposts. The men on distant outposts are under no efficient control, and practically do no police duty of any importance."

59. With the very greatest respect and deference I consider it my duty to state that the Police work of the country cannot be carried on without Police outposts or Police stations to which the villagers can go and lodge their complaints and from which a constable can proceed to give aid or investigate. Without these Police stations the villagers would feel that there was an absolute want of security of life and property. I very respectfully contest the assertion that the Police out-stations are neglected. On the contrary, they are carefully and frequently visited, the men and the station books and records being carefully examined. These posts formerly often consisted of only 2 men. His Excellency Sir Richard Temple, however, disapproved of these small posts as they were an inducement to a band of dacoits to attack and disarm them. Now the number of outposts has been considerably decreased, the number of men at the remaining posts being increased to 6 or 8 according to locality, the number of villages around the post and other special reasons.

60. Not only is an increase of the regular Police in the above-named three districts necessary, but in all the districts of this Division, and I may say in all the Divisions, the question of the reorganization of the village Police is most urgently calling for attention. The actual importance of the village Police cannot for one moment be overlooked. Without the aid of the village Police not a single offence could be traced out. The village Police are the real backbone of the detective Police. They know all that is going on and know every one in the villages. The village Police are, however, now so wretchedly paid and so entirely without organization that it is lamentable to think how the country is losing the services of this most valuable body of men.

61. For years past the reorganization of the village Police has been a question which Government has over and over again said it must and would carry out, but the question, after quires of papers have been filled with statistical information and scores of reports have been written, still remains where it was. This has been owing, I believe, to nobody having as yet been found who would venture to grapple with the question and work out in one or several schemes a new and efficient system of village Police. I say several schemes, for, I believe, it will be found that what is feasible with existing material in one district may not be feasible in another, and that different systems must prevail.

Statement F.

62. Of the entire force of the Division 2,725 are armed with fire-arms, 1,699 with swords only or swords and batons, and the remaining 1,188 are provided with batons only.

63. During the year under report 3 officers and 40 men were dismissed the Police force against 11 officers and 85 men in the preceding year. Four officers and forty men were punished judicially against 5 officers and 42 men in the previous year; and 112 officers and 529 men were punished departmentally by fine, suspension or degradation against 150 officers and 739 men in 1880. Of the officers and men punished judicially, 3 men were punished by Magistrates under the District Police Act; 2 officers and 4 men under Sections 330, 331 and 348 of the Indian Penal Code; 2 men under Chapter IX. of the same Code; and 2 officers and 31 men for other offences. On the other hand, by way of reward 54 officers and men were promoted, and 31 received money rewards. The number rewarded in the previous year was 309, of whom 68 received promotion and 241 money rewards.

64. In the year under report 531 officers and 1,036 men are returned as able to read and write against 543 officers and 995 men in the previous year. The following table shows the progress of education in each district in the present and the preceding year :—

Districts.	Sanctioned Strength.		Able to Read and Write.				Percentage.	
			Officers.		Men.			
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Ahmednagar	669	625	65	69	189	192	37·97	41·76
Khándesh	1,704	1,681	147	147	364	345	29 99	29·20
Násik	744	728	81	83	118	148	26·74	31·73
Poona	1,111	1,095	92	83	109	96	18·09	16·35
Sátára	967	956	136	119	175	188	32·16	31·11
Sholápur	539	527	22	30	40	67	11 50	18·40
Total ..	5,734	5,612	543	531	995	1,036	26·82	27·92

65. It will be observed that there is an improvement in the percentage for the Division. As regards individual districts there is an improvement in the case of Sholápur, Násik and Ahmednagar of 7, 5 and 4 per cent. respectively and a falling off in the case of Poona and Sátára from 18·09 and 32·16 to 16·35 and 31·11 per cent. respectively. In Khándesh the fall is very slight, *viz.* from 29·99 to 29·20 per cent. only. The District Superintendents have been carefully instructed that in preparing this table the old practice of entering as able to read and write, those who could only sign their names, was to be avoided, and that only those who could read and write fairly well could be entered.

Statement G.

66. In the year under report there were in the entire Police force of the Division 9 Europeans and 14 Eurasians and the rest were natives. Of the Europeans 6 are Superintendents of Police, 4 being Military and 2 Uncovenanted officers, and of the remaining 3 Europeans, 2 are Uncovenanted Assistants to the Superintendents of Police, and 1 is an Inspector of Police. Of the Eurasians, 2 are Inspectors and the rest subordinate officers. Of the natives, 919 are officers and 4,664 are constables. The following is an abstract of the different religions and castes of the various officers and men employed in the several districts of the Division, and it shows the percentage proportion they bear to the total force as it stood on the last day of the year, in contrast with the same for the previous year:—

	Officers and Men.		Percentage.	
	1880.	1881.	1880.	1881.
Christians	47	45	0·82	0·80
Mahomedans	1,838	1,894	32·32	35·56
Bráhmins	261	219	4·59	3·90
Maráthás	2,017	1,822	35·47	32·50
Rajputs	152	121	2·67	2·15
Bhils	691	655	12·15	11·68
Parbhus and Shenvis	4	3	0·07	0·05
Rámosis	67	82	1·17	1·46
Pársis and Jews	11	12	0·19	0·21
Hindus of all other castes	599	753	10·53	13·43

67. From the foregoing it will appear that Mahomedans are largely employed in the Police force, representing as they do 35·56 per cent. of the entire body. Maráthás follow next in order, of whom there are 32·50 per cent. employed in the Police. The District Magistrate, Poona, Mr. Moore, as regards Rámosis, observes:—

"The number of Rámosis entertained during the year is small. The District Superintendent should endeavour to enlist more of this class of men and of other hill-men such as Kolis".

As regards the Division it will be observed that Rámosis are being gradually enlisted in the Police, and that there is a larger number of men of this class in the force this year than in the year preceding. At the same time the more free enlistment of men not only of the Rámosi class but also of the Hill tribes such as Kolis and Mangs, should, I consider, be aimed at by the Superintendents generally. This will give honest employment to men who, for want of it, are apt to give trouble by occasionally disturbing the public peace.

68. The total expenditure incurred on Police buildings during the year under report was Rs. 13,544-11-7 against Rs. 16,537-4-6 in the previous year. Of the sum of Rs. 13,544-11-7, Rs. 10,134-4-7 were expended from the Public Works Department Budget grant, *viz.* Rs. 7,861-1-2 on repairs and Rs. 2,273-3-5

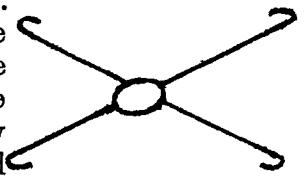
on new constructions; while the expenditure from the Police Budget grant amounted to Rs. 3,410-7, of which Rs. 1,973-4-8 were expended on repairs and Rs. 1,437-2-4 on new buildings. Thus the total expenditure incurred by both the Departments amounted on an average to Rs. 2-6-8 per man against Rs. 2-14-6 per man, or annas 7 and pies 10 per man less than in the previous year.

69. In the matter of Police accommodation it is generally complained that the Police are badly housed, and that additional and better accommodation is an urgent necessity. The question is receiving attention, and as directed in Government Resolution (Judicial Department) No. 4811, dated 18th December 1880, arrangements are being made to complete the Police quarters in one district at a time.

70. Government will notice that the number of accidental deaths from drowning is very large, amounting in the whole Division to 1,153 persons.

71. Now most of these cases take place in wells with steps, people slip in and are drowned. Such deaths are really preventable. I have had an arrangement made which, I hope, if generally introduced will, in a great measure, stop these deaths.

72. It is a very large Bopla or gourd covered with coir netting; to this four long ropes are attached. These are to be fastened by hooks to the walls of the well and to hang loose. Should any one fall in he can lay hold of one of the ropes and get hold of the Bopla and be supported till assistance arrives. The only difficulty is the funds to supply these to wells and keep them in repair. My opinion is that this is a charge which the Local Funds Committees might well undertake, and if Government will sanction the very small expenditure required, I will send one of these life-saving apparatus to each Collector, so that the matter may be laid before the Local Funds Committees. The charge would be very trifling, and, no doubt, many lives could be saved. If the Commissioners, Southern Division and Northern Division, wish it, I shall be happy to send them patterns of the apparatus.



73. The following is an abstract of the returns furnished by the District Superintendents of Police, showing the number of serious crimes in their respective districts, distinguishing those the scenes of which were visited by them at once from those visited after a few days or not visited at all. A general statement embodying the Superintendents' returns is appended :—

Districts.	Cases entered in the Returns.	Number visited at once.	Number visited after a few days.	Number not visited.
Ahmednagar	8	....	4	4
Khándesh — Superintendent of Police	10	1	....	9
Khándesh — First Assistant do.	12	8	1	3
Khándesh — Second Assistant do.	7	3	....	4
Násik	27	10	1	16
Poona	27	8	....	19
Sátára	17	7	3	7
Sholápur	15	7	2	6
Total ..	123	44	11	68

74. From the above abstract it will be seen that in Ahmednagar, out of 8 cases entered in the return, 4 were visited by Major Babington after a few days. In Khándesh 10 of the cases reported occurred in the personal charge of the District Superintendent of Police, of which the scene of only one case was visited at once by Mr. Dickinson, while the scenes of the remaining 9 cases were not visited at all by him. Mr. Dickinson states that the District Superintendent of Police who is in immediate charge of the western tálukas does not ordinarily visit the scenes of serious crimes peronally, but usually deputes an experienced Police Inspector, who is stationed in those tálukas for the purpose. I consider the practice should be corrected. There is no doubt that from the nature of the country it would be very difficult for the District Superintendent to visit every scene of serious crime soon after the crime was committed. But I consider that Mr. Dickinson might have shown far more activity than he has done. I regret that I have been compelled on more than one occasion to find serious fault with Mr. Dickinson for his want

want of active movement and for his persistently hanging about in the neighbourhood of the Railway, and Jailgaon where his bungalow is. There were 12 cases in the First Assistant Superintendent's charge, and of these the scenes of 8 were visited at once, 3 by Mr. Dickinson as First Assistant, 4 by Mr. Davies and 1 by Mr. Cotgrave. Besides these the scene of one case was visited by Mr. Davies after a few days. Of the 7 cases that occurred in the 2nd Assistant Superintendent's charge, the scenes of 3 were visited at once, 2 by Mr. Davies and 1 by Mr. Ryan. In Násik, of the 27 cases entered in the return, the scenes of 10 cases were visited at once, and of one case, after a few days by Mr. Henderson. In Poona there were 27 cases, and of these the scenes of only 8 cases were visited at once, 6 by Mr. Prescott, 1 by Mr. Cotgrave and 1 by Mr. Scannell. Of the 17 cases entered in the return of the Sátára District, the scenes of 7 were visited at once by Major Codrington and of 3 after a few days. In Sholápur there were 15 cases, and of these the scenes of 7 were visited at once, 2 by Mr. Adams and 5 by Mr. Coles; besides these the scenes of two cases were visited by Mr. Coles after a few days.

75. It will be observed that for the Ahmednagar District, the portion of Khándesh forming the Superintendent's personal charge, and for the Poona District, the return is deficient in information as regards time which is required to be entered in columns 5 and 6. It has been explained that this is owing to no record of the time having been kept by the Superintendents, but that the omission will be supplied in future.

76. Generally it will be observed that there is a reduction of crime in the districts of this Division. The prevention of crime is as much the duty of the Police as its detection; and if the improvement in the crime returns be in any measure due to this cause the Police are generally entitled to credit for the result.

77. It must, however, be borne in mind that the year has been one of general prosperity, owing to which no doubt there has been less tendency to commit crime on the part of the general population. The detection of crime does not show any marked improvement; yet it cannot be denied that the Police have generally done fairly well during the year, taking all things into account, and that they are as a body entitled to a certain amount of credit for the work they have performed during the year.

78. The Násik District is, however, conspicuous in respect of generally good results, though not in the recovery of stolen property, in which matter Sátára stands first and Ahmednagar last of all. Sholápur with its crippled Police force has done fairly well, and all the other districts show an improvement in this respect as compared with the previous year.

79. Very considerable progress has been made in the matter of the drill of the Police, the importance of which is everywhere duly recognized. It will, however, require some further time to make the entire force a fairly drilled body of men. Nothing requires more constant attention than drill in the case of the Police, and the men must, to become efficient in it, be drilled at every available opportunity. Above all, they must not be continually wandering over the country in twos and threes. The arrangements sanctioned in Government Resolution No. 2795, dated 3rd May 1882, for Sholápur, are working well and similar arrangements to systematize the escort of prisoners to the District Jails are being organized. The Police Superintendents are now generally alive to this fact, and I have no doubt will do their best, as they are doing already, to secure efficiency in this respect.

80. In conclusion, I have, with the exception of the case noticed in my 74th paragraph, much pleasure in recording my satisfaction with the manner in which the several District Superintendents of Police and the Assistants in Khándesh have conducted their respective duties during the year; and I trust their services will be deemed to be generally deserving of the commendation of Government.

I have the honour to be,
Sir,
Your most obedient Servant,
E. P. ROBERTSON,
Commissioner, C. D.

PART II.

REVIEW OF THE DISTRICT POLICE SUPERINTENDENTS' RETURNS.

AHMEDNAGAR.

1. Area ... ... 6,666 square miles.
   Population 751,228
   Strength of Police on 31st December 1881 ... 626
   Police to Area ... ... 1 to 10·64
   Police to Population ... ... 1 to 1,200·04

	Cognizable Crime.	Non-cognizable Crime.	Total.
Offences ascertained to have been committed during the year 1881	2,732	422	3,154
Proportion of crime to area in miles	1 to 2·44	1 to 15·74	1 to 2·11
Proportion of crime to population	1 to 274·92	1 to 1,780·16	1 to 238·18

Officers in charge.

2. Major Babington was in charge of the Police of this District throughout the year under report.

Conduct of the Force.

3. The returns show that during the year under report 2 men were punished judicially under the Police Act, against 5 men in the previous year, and that 2 officers and 12 men were punished departmentally against 5 officers and 48 men in the preceding year. On the other hand, 60 officers and men were rewarded, 35 by promotion and 25 by money rewards.

Education.

4. The number of officers and men returned as able to read and write during the year is 69 and 192 respectively, being an increase of 4 officers and 3 men as compared with the previous year. One officer and 10 men were under instruction in 1881 against 4 officers and 32 men in 1880.

Barrack accommodation.

5. No new buildings were constructed during the year under report. From information furnished by the Examiner of Public Works Accounts, and by the Accountant General, it appears that a sum of Rs. 342-2-3 was expended by the Public Works Department in repairing Police buildings valued above Rs. 1,000, and that Rs. 130-11-3 were expended in the repair of Police buildings departmentally from the Civil Budget allotment during the year.

Fluctuation of crime.

6. The total number of cognizable and non-cognizable offences ascertained to have been committed during the year was 3,154 against 4,065 in the previous year, showing a decrease of 911 cases. In cognizable offences there is a decrease of 896 cases as compared with the previous year, the number being 2,732 in 1881 against 3,628 in 1880. This decrease occurs in classes I., IV., V. and VI. of 1, 84, 466 and 373 cases respectively, but in classes II. and III. there is an increase of 8 and 20 cases respectively. Of the 2,774 cognizable cases, including 43 which were reported in the previous year and brought under enquiry during the year, 2,743 were investigated by the Police and of these 1,105 were decided by the Criminal Courts; the result being that in 803 cases convictions were obtained, giving a percentage of 73 in 1881 against 65 in 1880.

7. The total number of persons dealt with in cognizable cases during the year under report was 3,018; of these 2,598 were brought to trial, and 1,082, or 39 per cent. were finally convicted against 52 per cent. in 1880. The percentage of convictions to arrests has also fallen from 44 in 1880 to 35 in 1881, which is not very satisfactory.

Particulars of heinous offences.

8. There were 14 cases of murder reported during the year under notice against the same number in the preceding year. Of these 14 cases, 7 were struck off the register as no murders, as they were found on enquiry to be deaths from natural or accidental causes. Of the remaining 7 cases convictions were

obtained in 3 only. In one case it was found on enquiry that a woman by name Baya kom Ramale first threw her child into a well and subsequently committed suicide by throwing herself into another well. In one case the 2 accused were acquitted by the Court of Sessions for want of satisfactory evidence. In one case the accused effected his escape and has not since been heard of, although diligent enquiries for him have and are being made; and one case is reported to be doubtful, the particulars of which, as furnished by the District Superintendent of Police, are as follows :—

"On the 27th August a woman by name Kondi kom Baba was delivered of a child, which died the same day. The body was taken to the Hospital Assistant for examination, and he gave it as his opinion that the cause of death was a fracture of the skull, and it was on the strength of this opinion alone that the case was brought on the register as one of murder. There is nothing whatever to show that any violence was used or how the fracture occurred."

9. Two cases of dacoity are reported for the year under review against 9 in the previous year. One of these 2 cases was struck off the register, as it turned out on enquiry to be merely a private quarrel. In the other case the house of a Márwádi in the village of Taklebhan in Táluka Nevása was entered by 10 or 12 men armed with a gun and a sword, but they were driven off by the villagers. The District Superintendent of Police states that "for some reason or other the complainant was most lukewarm about the matter, for he first of all stated that no property at all had been taken, and it was not until four persons had been arrested, and delivered up property of the value of Rs. 75-15 that we knew that the case was more than one of attempt. The four accused having been committed to the Sessions, for having possession of the property and not for dacoity itself, were discharged on the grounds that the possession, if possession there were, had occurred not in British territory but in His Highness the Nizám's Dominions. The accused were subsequently re-arrested and handed over to the Nizám's authorities for trial." They have since been tried and punished.

Review of undetected cases of the previous two years.

10. There were at the close of year 1879, 410 cases of undetected crime, and at the end of 1880 there were 433, making a total of 843 cases. Of these 42 only were disposed of during the year under report, 29 being struck off as no crime, and in the remaining 13 cases, 94 persons were arrested, of whom only 23, or 24 per cent. were convicted. These results are by no means satisfactory.

Suicides and accidental deaths.

11. During the year under report there were 16 cases of suicide and 196 cases of accidental death against 26 and 136 respectively in the previous year. The following are the details of the cases relating to the year under notice :—

Suicides	By drowning ...	...	... 14	16
	By other means	...	.. 2	
Accidental deaths ...	By drowning ...	...	... 80	139
	By snake-bites	...	... 12	
	By other causes	...	... 47	

Administration of the Arms Act.

12. The Arms Act is stated to have worked satisfactorily and without any undue pressure on the people. The District Superintendent of Police states that licenses are freely given to all respectable persons who apply for them, and that the number of licenses for carrying arms issued during the year was 500. It is added that there are 21 shops in the district for the sale of gunpowder, the accounts of 6 of which were examined by the District Superintendent of Police, and of 5 by the Police Inspector. The examination should have been more frequent and they should have been extended to all the shops in the district. This has been brought to the notice of the Superintendent.

Drill.

13. The District Superintendent of Police states, as regards drill, as follows :—

"Notwithstanding the pressure of guard duties, drill has been carried on throughout the year, and it certainly seems to me that the difference in the appearance of the men is most marked. I have observed throughout the district that the men look much better set

up and are better able to move by word of command. The shooting, too, although still not, I regret to say, by any means good, is improving, and is not so wild as it used to be."

Inspection of arms, ammunition and accoutrements.

14. The various Police posts in the district are stated to have been visited by the Superintendent of Police himself, and also by the Inspectors, and in every case the clothing, arms and equipments of the men was found correct.

Proportion of crime to population	1 to 344·72	1 to 921·24	1 to 250·86

Officers in charge.

16. The following officers were in charge of the office of the District Superintendent of Police during the year under report :—

Major O. Probyn, from 1st January to 10th April, and from 2nd to 20th July 1881.

Mr. J. H. Dickinson, from 11th April to 1st July, and from 21st July to the end of the year.

The office of the 1st Assistant District Superintendent of Police, Khándesh, was held by the following officers during the year :—

Mr. J. H. Dickinson, from 1st January to 10th April, and from 2nd July to 21st August 1881.

Mr. D. Davies, from 11th April to 1st July, and from 22nd August to 7th October 1881.

Mr. G. Cotgrave, from 8th October to end of the year.

And the following officers held the office of Second Assistant District Superintendent of Police during the year, *viz.* :—

Mr. D. Davies, from 1st January to 11th April 1881, from 2nd July to 21st August, and from 8th October to end of the year.

Mr. R. P. Ryan, from 12th April to 1st July, and from 22nd August to 7th October 1881.

Conduct of the Force.

17. During the year under report 8 men were dismissed the force against 2 men in the previous year; 13 officers and 103 men were punished departmentally by fine, degradation, or suspension against 19 officers and 113 men so punished in 1880, and 6 men were punished judicially, 2 under Chapter IX. of the Indian Penal Code and 4 for other offences against 3 officers and 10 men in the preceding year.

Education.

18. The number of officers and men returned as able to read and write is 147 and 345 respectively against 147 officers and 364 men in the previous year, and the number of men under instruction during the year was 53 as against 21 in the previous year.

Barrack accommodation.

19. No new buildings were constructed during the year under report. From information received from the Examiner of Public Works Accounts, and from the Accountant General, it appears that a sum of Rs. 2,202-8-2 was expended by the Public Works Department in repairing Police buildings valued above Rs. 1,000, and that Rs. 849-0-6 were expended departmentally from the Civil Budget allotment in keeping the Police buildings of smaller value in proper repair.

20. The total number of offences, cognizable and non-cognizable, ascertained to have been committed during the year under report was 4,932 against 4,884 in the preceding year, or an increase of 48 cases. In cognizable crime there is an increase of 6 cases, the number being 3,589 in 1881 against 3,583 in 1880, and it occurs in classes II. and IV., in which the increase is 28 and 336 cases respectively. In the remaining classes, I., III., V. and VI., there is a decrease to the aggregate number of 358 cases. In non-cognizable crime the increase amounts to 42 cases, the number being 1,343 in 1881 against 1,301 in 1880. Of the 3,589 cognizable cases, 2,875 were investigated by the Police, and decided by the Criminal Courts, the result being that in only 1,110 cases convictions were obtained, giving a percentage of 39 against 47 in the previous year, and against 56 in 1879, which is very unsatisfactory.

Fluctuation of crime.

21. The total number of persons arrested in cognizable cases during the year was 4,063, including 69 who were pending trial at the close of the previous year. Of these, 2,681 were brought to trial and 1,782 or 66 per cent. were finally convicted against 87 per cent. in 1880. Of the remainder, 899 were acquitted or discharged after trial, 1,283 were released without trial, 1 died or was transferred before trial and 98 were pending trial at the close of the year, 43 of these being in custody of the Police and 55 in that of the Criminal Courts.

22. There were 16 cases of murder during the year under report against 13 in the previous year. In 6 only of these 16 cases convictions were obtained; one case was struck off the register as no crime by order of the Magistrate; in 1 case the accused has absconded, and is still at large; in 2 cases the accused were acquitted and discharged; 2 cases were pending trial at the close of the year, and 4 cases were still under enquiry. None of these cases are such as to require any special mention.

Particulars of heinous offences.

23. The returns show 3 cases of dacoity for the year under notice, but the District Superintendent of Police states that these cases were pending at the end of the year 1880 and were decided only during the year, conviction being obtained in all the 3 cases, all the accused persons, among whom were the notorious Annya and Tulchya, Bhils, being sentenced to transportation for life.

24. At the close of the years 1879 and 1880, there were 669 and 672 cases respectively of undetected crime. Of these 74 only were disposed of during the year under report, conviction being obtained in 51 cases, while in 23 cases the accused were discharged. The number of cases that remained undetected at the end of the year was 714, which is very unsatisfactory.

Review of undetected cases of the previous 2 years.

25. During the year under report there were 26 cases of suicide and 244 cases of accidental deaths against 39 and 252 respectively in the previous year. The following details relate to the cases for the year under report:—

Suicide deaths.

Suicide	By drowning	19	26
	By other means	7	
Accidental deaths	By drowning	131	244
	By snake-bites	34	
	By wild beasts	2	
	By other causes	77	

26. The provisions of the Arms Act are stated to have been fairly enforced in the Khándesh District during the year, and it is added that 758 licenses were issued for different purposes. The District Superintendent of Police reports that there are now several matchlocks in different Kacheries, which have been taken from or given up by the owners, and which are detained pending the production by the owners of the necessary licenses from the District Magistrates. He further states that the accounts and stores of all license-holders to sell arms and ammunition were duly inspected and examined by himself, his Assistants and Inspectors during the year.

Administration of Arms Act.

27. In the matter of drill the Acting District Superintendent of Police, Mr. Dickinson, reports as follows:—

Drill.

"There is a marked improvement during the year in the drill of the executive Police as well as that of the Bhil Corps; the former, as may reasonably be expected, are not so well up as the latter, for obvious reasons, *viz.* that they have many calls on their time and so cannot devote much of it to the subject of drill; these remarks apply to the executive Police force in general from a chief constable down to a constable who have multifarious duties to perform. In order, therefore, ever to attain any thing like proficiency in drill it will be absolutely necessary for the chief constables and head constables of tálukas to come into head-quarters and undergo a regular course, and this I purpose doing at the coming rains. The men of the Bhil Corps at Dhulia and at head-quarters, being constantly kept at drill, are I find far smarter than the men in the tálukas, which no doubt is attributable to the want of supervision on the part of the chief constables. Inclusive of Mr. Davies, 2nd Assistant Superintendent of Police, and myself, 5 chief constables, 4 head constables and 13 men of the unarmed and Bhil Corps were attached to the 19th Regiment N. I. at Málegaon for 3 months during the rains, to undergo a course of drill, at the expiration of which period certificates of proficiency were granted by the commanding officer.

"The services of these men are being utilized as drill masters at head-quarters, Dhulia, and the tálukas in instructing the men in the use of Snider rifles of which we have a couple of hundreds in use at present. I much regret that I cannot speak so favourably of the mounted police force, who I find very imperfect in drill owing to the fact of there being no competent person at head-quarters to instruct them. A few Savárs might with advantage be attached to some native cavalry regiment in the coming rains and instructed in cavalry drill, as far as is required, for moving about a detachment of 20 or 30 men; the use of the sword, and practice at firing from horseback."

The District Magistrate in expressing his satisfaction with the improvement in drill amongst the foot police, agrees in the Superintendent's remarks concerning the mounted police, and observes that the cause of their inferiority in the matter of drill is simple, as there is no one competent to teach them. He adds that "Police appointments are gradually being filled by non-military men, and consequently amongst them there can be no familiarity with cavalry drill. I rather think that if one savár were to be reduced, and the pay of two men given to one sharp drill-master chosen from a cavalry regiment, a manifest improvement would soon be visible in the general efficiency of the mounted police."

Inspection of arms, ammunition and accoutrements.

28. During the year under notice the arms, ammunition and accoutrements are stated to have been inspected at a large number of outposts by the Superintendent and his Assistants, who found them in good condition.

Officers in charge.

30. Mr. H. J. H. Henderson was in charge of the office of Superintendent of Police of this district from 1st January to 4th December 1881, and Major W. H. Wilson from 5th December to the end of the year.

Conduct of the Force.

31. The conduct of the force as a body is stated to have been generally satisfactory. From the returns it will be seen that one officer and 9 men were dismissed during the year against 11 men in 1880; that 1 officer and 9 men were punished judicially for other offences against 9 men in the preceding year, and that 22 officers and 103 men were punished departmentally against 16 officers and 147 men in 1880. On the other hand, 6 men were rewarded by promotion.

Education.

32. There are now in the force 83 officers and 148 men who can read and write thoroughly against 81 officers and 118 men in the preceding year. The average daily attendance

at the head-quarters school is stated to be 21 men, being 6 in excess of the attendance in the previous year; and the average daily attendance of the boys to be 36 against 31 in 1880.

Barrack accommodation.

33. During the year under report new lines for the accommodation of the men stationed at Abhona in Táluka Kalvan were provided at a cost of Rs. 526-9-6, and Rs. 382-5-6 were expended in repairing outpost buildings in the district from the Civil Budget allotment as reported by the Accountant General. The Public Works Department have also expended during the year a sum of Rs. 129-2-3 in providing an iron railing to enclose the record shelves of the Chief Constable in the Mámlatdár's Kacheri at Peint, and Rs. 329-3-2 in repairing Police buildings valued above Rs. 1,000 each. The District Superintendent of Police and the District Magistrate again draw attention to the very urgent need of constructing the proposed new lines for the Police at head-quarters.

Fluctuation of crime.

34. The total number of offences, cognizable and non-cognizable, reported to have been committed during the year under review, was 4,180, being a decrease of 205 cases as compared with the preceding year. In cognizable crime there is a decrease of 279 cases, the number being 3,454 against 3,733 in 1880; while in non-cognizable crime there is an increase of 74 cases, the number being 726 in 1881 against 652 in 1880. The decrease in cognizable crime appears in classes III., IV. and V. to the extent of 34, 100 and 307 cases respectively, while there is an increase in classes I., II. and VI. of 11, 15 and 136 cases respectively. All the cognizable cases reported for the year together with 26 cases that were pending at the close of the year 1880, or in all 3,480 cases, were investigated by the Police during the year. Of these, 1,673 were decided and in 1,539 convictions were obtained, giving a percentage of 92 against 88 in 1880. The total number of persons arrested in 3,580 cognizable cases investigated, including 13 that were pending trial at the end of 1880, was 4,822, and of these 2,569 were brought to trial and 2,271 or 88 per cent. were finally convicted against 85 per cent. in 1880. The percentage of convictions to arrests has also somewhat improved, having risen from 43 in 1880 to 47 in 1881.

Particulars of heinous offences.

35. There were 12 cases of murder during the year against 7 in the preceding year. Of these 12 cases, 5 were struck off the register as no crime by order of the Magistrates, in 5 cases convictions were obtained and in one of the remaining 2 cases the administration of poison being suspected, the viscera and food were sent to the Chemical Analyser, who reported that no poison could be traced, while in the other case the corpse of a woman having been found in a well with a fractured skull and wounds on the side of the face, the case was ordered by the Magistrate to be brought on the register as one of murder, though the whole circumstances of the case lead to the conclusion that it is one of suicide or of falling down a well. Both these cases are still under enquiry.

36. There were 10 cases of culpable homicide during the year under report against 5 in the previous year. One of these 10 cases was struck off the register as no crime by order of the Magistrate, in 6 cases convictions were obtained, and in the remaining 3 cases the accused were acquitted and discharged. Of the 20 persons arrested, including 3 who were awaiting trial at the close of the previous year, 10 were convicted and the remaining 10 were acquitted and discharged.

37. There were 4 cases of dacoity during the year under notice against 6 in the previous year. In three of these four cases convictions were obtained and one case was still under enquiry at the close of the year. Of the 26 persons arrested in these cases, 16 or 66 per cent. were convicted. From the particulars of these cases, as furnished by the District Superintendent of Police, none of them are such as to require any special mention.

Review of undetected cases of previous two years.

38. The number of cases which remained undetected at the close of the years 1879 and 1880 were 280 and 294 respectively. Of the 280 cases of 1879, one was detected during the year and 42 were struck off the registers. Of the

294 cases of 1880, 11 were detected during the year and 52 were struck off. The number remaining undetected at the close of the year under report was 231.

Suicides and accidental deaths.

39. There were 12 cases of suicide and 155 cases of accidental deaths during the year against 19 and 175 respectively in the previous year. The following are the particulars of the cases pertaining to the year under report :—

Suicides.	By drowning ...	...	8
	By other means	...	4
			12
Accidental deaths.	By drowning...	...	88
	By wild beasts...	...	3

Administration of Arms Act.

40. The provisions of the Arms Act are stated to have been duly enforced in the Násik District, and 1,156 licenses, including renewed licenses for the possession of arms, were issued in the year against 833 in the previous year.

Drill.

41. During the year 6 officers and 12 men are reported to have undergone the prescribed course of drill with the 19th Regiment of Native Infantry at Málegaon, of whom 2 officers and 2 men have obtained certificates as instructors. The District Superintendent of Police states that of the entire force 610 men have undergone the required course of drill.

Inspection of arms, ammunition and accoutrements.

42. During the year under report the arms, ammunition and accoutrements were, the District Superintendent of Police states, inspected "at all head-quarters of the tálukas and at all outposts, and were found to be serviceable and in good order."

Officers in charge.

44. The following officers were in charge of the office of Superintendent of Police of this district during the year under report :—

Mr. W. B. Prescott, from 1st January to 7th August, from 15th to 23rd August, and for 6th September 1881.

Mr. G. W. Cotgrave, from 8th to 14th August, from 24th August to 25th September, and from 27th to 30th September 1881.

Mr. H. Scannell, from 1st October to end of the year.

Conduct of the Force.

45. During the year under report one officer and 12 men were dismissed the force against 4 officers and 16 men in 1880; 2 officers and 6 men were punished judicially against 1 officer and 7 men in the previous year, and 39 officers and 115 men were punished departmentally against 44 officers and 179 men in 1880. The number of officers and men who received money rewards during the year was six against 23 in 1880.

Education.

46. The returns show that there are now in the force 83 officers and 96 men who can read and write thoroughly against 92 officers and 109 men in the previous year, being a decrease of 9 officers and 13 men. This decrease is explained by the Superin-

endent of Police to be due to 9 officers having come under reduction when the Police force was reduced to the appointment of 9 men as kárkuns to chief constables, and to 4 men having been pensioned during the year.

Barrack accommodation.

47. The District Superintendent of Police, Mr. Scannell, states that the Police at the outposts are badly off for quarters, that the posts are concentrated, but much of the benefit arising from this arrangement has been lost by the men not being able to live together in lines, and having to find quarters where they can. Mr. Scannell adds, "The men have seldom a room where they can keep their kit, Government and private, under lock and key, and are unable to take their families with them. They have consequently little comfort, and are constantly applying for leave. There is also no place where Government property can be safely kept such as spare ammunition, handcuffs, medicines, and attached property." The District Magistrate on this remarks that it is difficult, unless the grant for building outposts is greatly increased, to provide suitable lines for the men on duty in the district, but that proper lines and outposts should be built there can be no question.

Fluctuation of crime.

48. The total number of cases of all descriptions of crime reported to have been committed during the year under notice was 7,033, or a decrease of 1,133 cases as compared with the preceding year. The decrease in cognizable offences amounts to 80 cases, the number being 5,001 in 1881 against 5,081 in 1880. The decrease occurs in classes I., III. and V. to the extent of 5, 112 and 341 cases respectively. There is, on the other hand, an increase in classes II., IV. and VI. of 26, 195 and 157 cases respectively. In non-cognizable crime there is a decrease of 1,053 cases, the number being 2,032 in 1881 against 3,085 in 1880. The total number of persons arrested in cognizable cases, including 48 who were pending trial at the end of the previous year, was 6,052; of this number 3,183 were put on trial and 2,228 or 70 per cent. were convicted, against 72 per cent. in 1880. The percentage of convictions to arrests also shows a slight fall from 41 in 1880 to 37 in 1881, which is not satisfactory.

Particulars of heinous offences.

49. There were 11 cases of murder during the year under report against 14 in the previous year. In only 4 of these 11 cases convictions were obtained. In 6 cases the accused were acquitted and discharged, and one case remained undecided at the close of the year.

50. Ten cases of culpable homicide were reported during the year under review against 4 in the previous year. Of these 10 cases, 4 were struck off as no crime. In 5 of the remaining cases the accused were acquitted and discharged by the Sessions Court for want of sufficient evidence, and in only one case conviction was obtained.

51. There were 6 cases of dacoity during the year under report against 14 in the previous year. Two of these 6 cases were struck off as no crime. In two only of the remaining cases convictions were obtained, and in 2 cases the accused were discharged by the Magistrate and Sessions Court. In connection with these dacoities 29 persons were arrested, of whom 7 were convicted and 22 acquitted and discharged.

Review of undetected cases of the previous two years.

52. At the close of the year 1879 there were 813 undetected cases, and of these 77 were struck off the register by order of the Magistrates during the year 1880, and 39 were detected and satisfactorily disposed of, leaving 697 still undetected. Of these 697 cases, 157 were detected during the year under report and 275 were struck off the register, leaving a balance of 265 to be still detected. At the close of the year 1880 there were 667 cases undetected, and of these 160 were satisfactorily disposed of and 247 struck off the registers by order of the Magistrates, leaving 260 to be still detected, and regarding which enquiries are, it is stated, going on. At the close of the year under notice 476 cases remained undetected.

53. During the year under report there were 32 cases of suicide and 253 cases of accidental death against 18 and 218 respectively in the previous year. The following are the particulars of the cases relating to the year under notice :—

Suicides and accidental deaths.

Suicides. ...	By drowning...	11	32
	„ other means	21	
Accidental deaths.	By drowning...	112	253
	„ snake-bites	15

54. The provisions of the Arms Act are stated to have been duly enforced in the Poona District, and 259 licenses were issued during the year. The stocks and accounts of the licensed vendors of arms and ammunition are reported to have been periodically inspected and examined by the District Superintendent of Police himself and the Inspectors.

Administration of the Arms Act.

Drill.

55. On the subject of drill, the District Superintendent of Police states :—

"Daily drill takes place in the head-quarter lines, also on the drill ground in the Civil lines of the Cantonment and City Police. The district is fortunate in having a head-quarter Chief Constable so thoroughly efficient as a drill master as Mr. Kadar Khan Vahid Khan. In addition to this Chief Constable, 3 other Chief Constables are efficient drill masters. There are besides 32 drill masters in the Police of this district, who are distributed about in the various tálukas, the Poona Cantonment and head-quarters."

56. The District Superintendent of Police states that the arms, accoutrements and ammunition at the head-quarters and at the outposts in all the tálukas were inspected by him, that at the outposts the men had 10 rounds each, which seems to him to be sufficient in the absence of proper quarters where Government property can be stored ; and that the accoutrements were everywhere old and almost unserviceable. New accoutrements are in course of being supplied. In the matter of arms the Superintendent observes as follows :—

Inspection of arms and accoutrements.

"Eighty men are armed with the artillery breech-loading carbines, 52 with the muzzle-loading muskets, 656 bore, and the remainder 471 with the old Sappers' carbines. These old carbines were issued secondhand to the Police in 1857-58 ; they are therefore worn out and unserviceable. There is much inconvenience experienced in having three different kinds of fire-arms for the armed police, which would be still more felt were they called out on any service. Three different kinds of ammunition have to be indented for. The artillery breech-loading carbines are excellent in every way for the police, being light and suitable for hill work."

In place of the old Sappers' carbines, the muzzle-loading muskets, 656 bore is the weapon issued generally to the Police, the artillery breech-loading carbine having been issued sparingly only to some of the men. The Superintendent will be instructed to submit an indent for new arms of the description issued generally to the Police, and which it was intended he should receive in the current year.

58. Major G. H. F. Codrington was in charge of the Police of this district throughout the year, but the report is submitted by Mr. C. E. Coles.

Officers in charge.

Conduct of the Force.

59. The conduct of the Police force during the year is stated to have been on the whole satisfactory. Six men were dismissed during the year against one officer and 19 men in 1880; 1 officer and 14 men were punished judicially against 1 officer and 10 men in 1880, and 30 officers and 121 men were punished departmentally, by degradation, fine and suspension for offences against discipline against 34 officers and 84 men in the preceding year. Six constables were rewarded by promotion during the year.

Education.

60. During the year under report 34 officers and 106 men were under instruction against 33 officers and 262 men in 1880. There are now in the force 119 officers and 188 men who can read and write well against 136 officers and 175 men in 1880; the decrease in the number of educated officers and diminution in the number of men under instruction is to be accounted for by the reduction of many head constables of the 4th class to constables on the abolition of punitive posts which necessitated the discharge of some 200 men. The District Superintendent of Police states that the school was examined by him, and that the progress made seems to him to have been fair.

Barrack accommodation.

61. During the year under report no new buildings were constructed. A number of small outposts have been abolished, and the question of providing increased accommodation at those posts, where the number of men has been augmented, by selling or utilizing the materials of the old lines, and by a fresh grant, is under consideration. The head-quarter lines and other buildings above the value of Rs. 1,000 have had some repairs costing Rs. 3,690-15-3 executed to them by the Public Works Department. Out of the Budget allotment for "Petty construction and repairs" Rs. 515-5-5 have been expended in repairing Police buildings of smaller value in various parts of the district.

Fluctuation of crime.

62. The total number of offences reported to have been committed during the year is 4,475, showing a decrease of 1,639 cases as compared with the previous year. In cognizable crime there is a decrease of 1,712 cases, the number being 3,952 in 1881 against 5,664 in 1880. In non-cognizable offences, however, there is an increase of 73 cases, the number being 523 in 1881 against 450 in the preceding year. The decrease in cognizable crime extends to all classes, the largest being in classes IV and V." Minor Offences against Person and Property." Of the 3,952 cognizable cases, 1,967 were struck off as no crime, leaving 1,985 *bona fide* cases against 3,576 in the previous year. In connection with these cognizable cases, 2,437 persons were brought to trial, of whom 1,567 or 64 per cent. were convicted against 59 per cent. in 1880, a result which may be regarded as fairly satisfactory.

Particulars of heinous offences.

63. During the year under notice 13 cases of murder were reported, as against 9 in the preceding year. Of the 13 cases pertaining to the year, 3 were struck off the register as no crime by order of the Magistrates. Of the remaining 10, convictions were obtained in 7 cases. In one case the accused were acquitted by the Sessions Court; in one case the accused committed suicide before trial, and one case was pending trial at the close of the year, in which a conviction has since been obtained. In connection with these cases 25 persons were arrested, of whom 16 or 64 per cent. were convicted, 2 were admitted as Queen's evidence; 1 committed suicide before trial, 2 were acquitted by the Sessions Court; 2 were discharged by the 1st Class Magistrate, and 2 who were under trial at the close of the year have since been convicted. The two accused who were discharged by the Magistrate have since the close of the year been re-arrested by order of the Sessions Court, and of them one was made Queen's evidence, and the other was convicted.

64. Three cases of culpable homicide were reported during the year. Of these 2 were struck off as no crime, and in the remaining case conviction was obtained, the accused being sentenced to undergo $1\frac{1}{2}$ year's rigorous imprisonment.

65. One case of dacoity was reported during the year under review, but on investigation the complaint was found to be false; and application has been

accordingly made to the Magistrate in order that the case may be struck off the file. In this case the complaint made to the Police was to the effect that on the night of the 25th December some 8 or 10 men had entered the toll-house at Helwak, Táluka Patan, and carried away a copper pot and cash valued at Rs. 223.

Review of undetected cases of the previous two years.

66. The District Superintendent of Police states that at the close of 1880 the number of undetected cases was 942, of which 131 were detected during the year under report, and that the number of cases remaining undetected at the end of 1881 was 441.

Suicides and accidental deaths.

67. There were 39 cases of suicide and 201 cases of accidental death during the year under report against 49 and 317 respectively in the preceding year. The following are the details of the cases relating to the year under notice :—

Suicides ...	By drowning...	...	25	39
	„ other means	...	14	
Accidental deaths.	By drowning	...	141	201
	„ snake bite	...	44	
	„ wild animals	...	2	
	„ other causes	...	14	

Administration of the Arms Act.

68. During the year under report 280 licenses were issued, *viz.*, 182 to possess 272 arms and to go armed for the purposes of sport, protection and display, 26 licenses to manufacture and sell gunpowder, &c., and 72 licenses for guns to kill wild animals which injure human beings, cattle and crops. The fees collected on account of these licenses amounted to Rs. 136. The District Superintendent of Police states that the accounts of the shops of 15 licensed vendors of gunpowder, &c., were examined during the year under report, and that no irregularities worth noticing were found.

Drill.

69. During the year under notice, 157 officers and 751 men were put under drill instruction, of whom 98 officers and 519 men were brought in from the different tálukas for the purpose. The Savárs and 50 men of the Foot Police armed with breech-loaders were put through a course of ball practice by a drill master of the 17th Regiment Native Infantry. It is stated that they commenced at 100 yards and went up to 600, and that the practice was good.

Inspection of arms and accoutrements.

70. The District Superintendent of Police states that during the year under report 23 posts were visited by himself, 16 posts by the Inspector A Division and 15 posts by the Inspector B Division. At each outpost the arms, ammunition and accoutrements in possession of the men were examined and found to be in good order.

Officers in charge.

72. During the year the following officers were in charge of the office of Superintendent of Police in this district :—

Captain T. R. M. Macpherson, from 1st January to 11th March 1881,

Mr. Darasha Dosabhoy, Huzur Deputy Collector, from 12th March to 2nd April.

Mr. A. H. Spry, from 3rd to 6th April.

Mr. J. B. D. Adams, from 7th April to 27th idem.

Mr. C. E. Coles, from 28th April to the end of the year.

Conduct of the Force.

73. The conduct of the force is stated to have been good during the year. One officer and five men were dismissed the force in 1881 against 4 officers and 25 men in 1880; 3 men were punished judicially by the Magistrates against 7 in the previous year; and 6 officers and 75 men were punished departmentally against 32 officers and 169 men in the preceding year. No rewards were granted during the year, but good services were taken into consideration when giving promotions.

Education.

74. The number of officers and men reported as being able to read and write is 30 and 67 respectively as compared with 22 officers and 40 men in the previous year. Mr. Coles states that the above figures are taken as given by the chief constables, who, he thinks, have taken too high a standard of education as the minimum; but his own memorandum, after testing nearly every man in the district, shows that there are 38 officers and 104 men who are able to read and write. Mr. Coles adds that the school was open throughout the year, and that during the rain it was attended by all under 10 years' service and recruits, but that during the fair season the paucity of men at head quarters makes it impossible for them to attend, and that even recruits have often been reported as "absent on duty". The daily average attendance at the school was 25 officers and 120 men as compared with 75 officers and 402 men in 1880.

Barrack accommodation.

75. No new buildings were constructed during the year under report, but from the information furnished by the Examiner of Public Works Accounts, it appears that a sum of Rs. 1,037-9-7 was expended by the Public Works Department in repairing Police buildings valued above Rs. 1,000 during the year Mr. Coles states that lines for the Police on outpost duty are most urgently required, partly owing to the fact that no lines have been constructed during the last few years, and partly because the Police were re-distributed and several of the old lines had to be abandoned. The strength and locality of the outposts have now been finally settled, and plans and estimates for lines are being prepared.

Fluctuation of crime.

76. The total number of cognizable and non-cognizable offences reported to have been committed during the year is 1,942, or a decrease of 312 cases as compared with the previous year. In cognizable crime there is a decrease of 303 cases, the number being 1,732 in 1881 against 2,035 in 1880, and extends to all classes of crime except Class IV. "Minor Offences against the Person." The increase under this class is mainly due to cases of hurt which have increased from 274 in 1880 to 511 in 1881. A marked decrease is however apparent in Class VI. and is mostly due to a fall of crime under "Public and Local Nuisances" from 776 cases in 1880 to 359 in 1881. Of the 1,763 cognizable cases investigated by the Police, including 31 which were reported in the previous year and brought under enquiry during the year, 1,094 were decided, and in 801 of these convictions were obtained, giving a percentage of 73 against 81 in the previous year. The total number of persons arrested in cognizable cases, including 7 who were awaiting trial at the end of the previous year, was 1,993, of whom 1,897 were put on their trial and 1,074 or 57 per cent. were convicted against 71 per cent. in the preceding year. The percentage of convictions to arrests has also fallen from 64 in 1880 to 54 in 1881. In explanation of the falling off of these percentages the District Superintendent of Police writes as follows:—

"While admitting that these percentages are not satisfactory, I would at the same time draw attention to the different classes of crime as shown in Statements A. and B. It will be seen that in all heinous offences, both against person and property, the success of the Police has been most marked compared with the previous year. On the other hand, in Class IV. "Minor Offences against the Person", the Police have completely failed, if we are to judge by the percentages. Cases coming under this class are very memerous this year and affect the aggregate percentage perceptibly, but I maintain that the Police cannot be held responsible for the number of these cases which have broken down."

77. There were 6 cases of murder during the year under report against 5 in the previous year. In 3 of the 6 cases of the year convictions were obtained; in one case the accused, who is known to the Police, has absconded; and two cases were pending trial at the close of the year. Of the 11 persons arrested in connection with these cases, 3 were convicted, 3 acquitted and 5 were under trial at the close of the year.

Particulars of heinous offences.

78. There were 3 cases of culpable homicide in the year 1881 against 5 in the previous year. In one only of these 3 cases conviction was obtained. In one case the accused were acquitted and discharged by the trying Magistrates, and in one case the accused was awaiting trial at the close of the year.

79. There were 3 cases of dacoity during the year under notice against 2 in the preceding year. In 2 of these 3 cases convictions were obtained and one remained undetected at the close of the year. Of the 20 persons arrested during the year, 13 were convicted, 5 acquitted and discharged, and 2 were awaiting trial at the end of the year. None of these cases call for any particular remarks.

80. The District Superintendent of Police reports that 387 cases remained undetected at the end of 1879, and that of these 8 were detected in 1880, 21 persons being arrested, of whom 16 were convicted. Of these 8 cases, 3 were dacoities, 1 a case of house-breaking, 2 of theft, 1 of receiving stolen property and 1 of grievous hurt. In 1880, 177 cases remained undetected, of which 5 were detected during the year under notice, 9 persons being arrested, of whom however 2 only were convicted. Of these 5 cases, 2 were of theft, 2 of criminal breach of trust, and one of house-breaking by night.

Review of undetected cases of the previous two years.

81. There were 16 cases of suicide and 161 of accidental deaths during the year under notice against 36 and 179 respectively in the previous year. The details of the cases relating to the year under report are :—

Suicides and accidental deaths.

Suicides ...	By drowning	13	16
	„ other means	3	
Accidental deaths.	By drowning	120	161
	„ snake-bite	9	
	„ wild beasts	1	
	„ other causes	31	

82. The District Superintendent of Police, Mr. Coles, reports that the provisions of the Arms Act have been duly enforced during the year, and that 286 licenses were issued, *viz.*, 221 to possess arms and 65 to go armed.

Administration of Arms Act.

83. The District Superintendent of Police reports that during the year 3 officers and 5 men have been through a course of drill instruction in Poona, and that 2 officers and 6 men are at present in Poona for instruction. That in addition to the drill masters at head-quarters there are now qualified instructors in each táluka, and that at the end of the year 31 officers and 93 men were reported as having completed their course of drill, while 46 officers and 266 men were under instruction. Mr. Coles adds :—

Drill

"Ball practice has been held monthly during the year, and by offering small money prizes for the best scores and circulating the returns, every effort has been made to encourage the men to become good marksmen. The result is so far satisfactory, the return for the month of July (when this system was first started) showing 299 competitors with 18 efficient, while the return for the month of December shows 357 competitors with 55 efficient. Of course this shooting taking place at the táluka stations is open to doubt, and these returns must be considered as approximately correct only. Still the object aimed at (the improvement in shooting of the men as a body) may, I think, be said to have been attained."

84. The different Police posts in the district are stated to have been visited by the Superintendent of Police himself and by the Inspectors, who found the arms, ammunition and accoutrements of the men to be serviceable and in good order.

Inspections of arms, ammunition and accoutrements.

E. P. ROBERTSON,
Commissioner, C. D.

JUDICIAL DEPARTMENT.

From

ARTHUR CRAWFORD, ESQUIRE,
Commissioner, Southern Division ;

To

THE HONORABLE C. GONNE, C.S.I.,
Chief Secretary to Government, Bombay.

Poona, 28th June 1882.

SIR,

I have the honour to submit the annual report on the administration of the Police of the Southern Division for the year 1881, together with the usual statements, marked A. to J.

2. The Division was up to 20th March under Mr. Sheppard, while I was on special duty under the Government of India, and from that date till 28th September under me, Mr. Moore having held charge of the Commissioner's office during the rest of the year, when I was absent on privilege leave.

3. The subjoined table shows the dates of the Police Superintendents' reports, of the District Magistrates' transmitting memoranda, and of the final replies of the Superintendents to references made to them regarding discrepancies &c. discovered on examination of the reports and returns—

DISTRICTS.	Dates of the Police Superintendents' reports.	Dates of the District Magistrates' transmitting memoranda.	Dates of the Police Superintendents' final replies.
Belgaum	18th March	28th March	27th May.
Dhárwár	18th April	27th April	27th do.
Kaládgi	14th March	25th March	5th June.
Kánara	2nd do.	11th do.	1st do.
Ratnágirl	17th do.	24th do.	19th May.

COGNIZABLE AND NON-COGNIZABLE CRIME.

4. The following statement shows the amount of cognizable and non-cognizable crime, and contrasts the results of the year's operations with those of the previous year—

DISTRICTS.	Number of cases reported including struck off cases.		PERSONS.						Percentage of Convictions to Arrests.	
			Arrested.		Convicted.		Acquitted and released.			
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Belgaum	3,296	3,084	4,318	3,342	2,336	2,276	2,039	1,059	54	68
Dhárwár	3,112	3,158	3,571	3,536	1,591	1,456	1,967	2,090	45	41
Kaládgi	1,837	2,102	2,393	2,474	1,154	1,062	1,228	1,307	48	43
Kánara	2,294	1,966	2,555	2,234	1,390	1,100	1,152	1,137	54	49
Ratnágirl	2,708	2,567	2,547	2,336	1,395	1,319	1,140	950	55	56
Total ..	13,247	12,877	15,384	13,922	7,866	7,213	7,526	6,543	51	52

5. The total number of offences reported during the year is 12,877 or 370 less than the previous year. There is a decrease in the districts of Belgaum, Kánara and Ratnágiri of 212, 328 and 141 cases respectively; while Dhárwár shows an increase of 46 and Kaládgi of 265 cases.

6. In connection with these cases 13,922 persons were arrested, of whom 7,213 or 52 per cent. were finally convicted. The Divisional percentage (52) of convictions to arrests has improved but one point, the figure for the last year being 51.

Belgaum stands first with a percentage of 68, showing the very satisfactory improvement of 14 per cent. The percentage in Ratnágiri has risen from 55 to 56. The remaining Districts have fallen off—Kánara and Kaládgi each by 5 per cent. and Dhárwár, which ranks last, by 4 per cent. I reserve my remarks on the success or otherwise of the Police of the several Districts till I comment on cognizable crime for which alone the Police are responsible.

7. The number of offences reported during the last six years is as follows :—

1881	... ...	12,877	1878 12,724
1880	... ...	13,247	1877 (Famine year) 20,318
1879	... ...	15,434	1876 12,722

These figures show that crime has now fallen to its normal level.

8. The subjoined is a statement showing District by District the proportions of cognizable and non-cognizable offences to area and population :

Districts.	Area in square miles.	Population according to the recent Census of 1881.	Year.	Offences reported to have occurred.		Proportion of Cognizable Crime.		Proportion of Non-cognizable crime.

Cognizable Crime.

9. The total of cognizable crime reported in this Division is 10,387 or 833 cases less than last year, when the figure was 11,220. The number of offences in each District and the result of Police operations in connection with them are shown in the subjoined statement :—

District.	Cases reported during the year including Cases struck off.		Cases investigated.		Cases decided during the year.		Cases in which convictions were obtained. 10. A falling off in crime is observable from the above statement in all the Districts of this Division except Kaládgi, where there is an increase of 142 cases. This falling off is specially noticeable in "minor offences against property"

which are 4,152 or 559 less than previous year when they numbered 4,711. The fall is mainly attributable to a comparatively prosperous condition of the people consequent on better harvests and low prices. Increase and decrease of the various descriptions of offences will be treated when I come to the classification of crime.

11. The Divisional results do not vary materially from those of the preceding year.

12. Of the 9,409 cases investigated by the Police, 4,077 or 43 per cent. resulted in convictions. The best result (84) per cent. has been obtained by Belgaum. Next comes Kánara with a percentage of 49. Then follow Kaládgi, Ratnágiri and Dhárwár with the unsatisfactorily low percentages of 36, 33 and 25 respectively.

13. The percentage of cases convicted to cases decided has risen from 74 to 78. In this respect Kánara stands first with a percentage of 89 and is followed by Belgaum and Dhárwár, which have attained to 85 each. Ratnágiri has improved by one per cent. only. Kaládgi has declined from 62 to 58, and again remains at the bottom of the list.

14. In the 10,387 cognizable cases, 10,368 persons were apprehended. Of these 5,490 were convicted, which gives the same percentage as last year, *viz.* 53. Belgaum again stands at the head of the list and has made a great stride from 56 to 74 per cent. Next comes Ratnágiri with a percentage of 62 against 59 in the previous year. Kánara and Kaládgi have both fallen considerably with percentages of 48 and 43 respectively against 57 and 51 last year.

15. These figures are not however of great value in testing the efficiency of the Police; for the results very often depend quite as much on the efficiency and moral courage of the Subordinate Magistracy as on the discretion of the Police. Local peculiarities, the character of the population and of the criminal classes in a district must all be considered.

16. The statistics given in the following table are a better test, showing as they do the work done by the Police acting independently on their own discretion :—

Districts.	Year.	CASES.						PERSONS.					
		INVESTIGATED.		CONVICTED.		PERCENTAGE OF CASES CONVICTED TO CASES INVESTIGATED.		APPREHENDED.		CONVICTED.		PERCENTAGE OF CONVICTIONS TO APPREHENSIONS.

17. Here again the results for the Division are nearly the same as in the previous year.

18. Of the 7,464 cases investigated by the Police *suo motu*, 3,314 were prosecuted to conviction, giving a percentage of 44. In this respect Belgaum heads the list with a creditable percentage of 85 as opposed to 78 in the last year. Next comes Kánara, which has, however, declined from 55 to 50 per cent.

Kaládgi and Ratnágiri show poor percentages of 33 and 29 respectively, and have each deteriorated by one per cent. Dhárwár has obtained the worst percentage of 24 as compared with 26 of the last year.

19. The success of the Police in obtaining convictions of persons arrested by them *suo motu* is in order of merit as follows:—

Belgaum	...	...	...	76 per cent	against	77 in 1880.

Analysis of Cognizable Offences.

20. The following table shows the analysis or classification of cognizable crime as compared with the previous year:—

	1880.	1881.	Increase.	Decrease.
Class I.—Offence against the State, Public Tranquillity, &c.	142	140	..	2
Class II.—Serious Offences against the Person	466	562	96	..

Class VI.—Other Offences	1,974	2,227	253	..
Total ..	11,220	10,387	349	1,182
Net Decrease ..				833

Class I.—Offences against the State, public tranquillity, &c.

21. Under this class there has been but a slight decrease of 2 cases. Ratnágiri shows a marked decrease of 15 cases, and Kánara and Belgaum of 4 and 2 cases respectively. In Kaládgi, however, there is an increase of 16 cases and in Dhárwár of 3.

22. The number of offences relating to coin, &c., was the same as in the previous year, *viz.* 29. In 11 of these were convictions obtained against 12 last year.

Class II.—Serious Offences against the Person.

23. In the total number of offences under this class there has been a net increase of 96 cases. It chiefly appears under the heads—

	Increase.
"Other murders"	18
"Exposure of infants or concealment of births" (Sections 317 and 318 of Indian Penal Code)	15
"Grievous hurt" (Sections 332, 326 and 335, Indian Penal Code) ...	18
"Criminal force" (Sections 353, 354, 356 and 357, Indian Penal Code) ...	33

Kaládgi contributed to the extent of 45 cases, Dhárwár by 27 cases, Kánara by 23 cases, and Ratnágiri by 9 cases, Belgaum alone showing a decrease of 8 cases.

24. The following statement shows the number of offences against the person of the most serious nature, reported during the year under review and in the preceding year, and the number of convictions obtained:—

Districts.	Serious Offences against the Person.										Number of Convictions obtained including those in cases of the previous year.									
	Murder, Sections 302, 303, 396.		Attempt at murder, Section 307.		Culpable homicide, Sections 304, 308.		Grievous hurt, Sections 325, 326, 329, 331, 333, 335.		Kidnapping, Sections 363 to 369.		Murder.		Attempt at murder.		Culpable homicide.		Grievous hurt.		Kidnapping

Total ..	33	50	11	14	32	20	65	84	19	23	20	26	3	1	10	7	29	45	..	3

25. From the above figures it will be seen that except in cases of culpable homicide, which show a decrease of 12 cases, there is an increase in all the other offences specified as compared with the preceding year. The cases of reported murder for the Division show an increase of 17 cases, and attempts at murder, grievous hurt and kidnapping have increased by 3, 19 and 4 cases respectively.

26. The total number of murders (50) in the Division is classified below according to causes :—

Intrigues with women	3
Revenge	2
Quarrels	7
Illegitimate offspring	11
For gain	7
Jealousy	4
Recovery of debt. (It was reported that a creditor with his servants murdered his debtor by strangulation, but the case was one of suicide)	1
Starvation (a woman caused the death of her daughter and attempted to commit suicide for want of food)	1
Unknown causes	5
False cases	9
	50

27. The percentage of convictions to cases reported is as follows :—

	1880.	1881.
Murder	61	52
Attempt at murder	27	7
Culpable homicide	31	35
Grievous hurt	45	54
Kidnapping	....	13

28. It is true that the direct preventive influence of the Police in respect of these offences is not great, but they are responsible for detection.

29. Apparently the success of the Police in murder cases, which has declined from 61 to 52 per cent., is unfavourable, but it is not really so. Out of the 11 cases in Belgaum 3 were struck off, 6 resulted in conviction, one was pending at the end of the year, and only one remained undetected. This is satisfactory. The results of the Dhárwár District are discouraging, convictions having been obtained only in 33 per cent. of the cases reported. Kaládgi did well with 50 per cent. as opposed to 33 last year. Kánara, which has obtained the highest percentage of 80, dealt with this crime with remarkable success. Ratnágiri has secured a very good percentage of 67 and is second on the list.

30. In regard to attempts at murder little success has attended Police action. There were 14 cases or 3 more than last year, but conviction was obtained only in one case in the Dhárwár District. Six of these cases have, however, been subsequently struck off as false.

31. It is satisfactory to note that cases of culpable homicide have again this year fallen from 32 to 20, but the detective result (35 per cent.), though better than last year by 4 per cent., is not as high as it ought to be. Kaládgi failed utterly as it did last year, no conviction having been obtained in any of the 6 cases reported. Belgaum had 3 cases of which only one was convicted. The result in Kánara was still worse, conviction having been obtained in one out of 4 cases returned. Of the remaining districts, Dhárwár has maintained the percentage attained last year, *viz.* 50, and Ratnágiri has done exceedingly well, each of the three cases that occurred there having been prosecuted to conviction.

32. Of grievous hurt there were altogether 84 cases, or 19 more than last year. In 45 of them were convictions obtained, giving a percentage of 54 as opposed to 45 in the preceding year. Nevertheless, I am not satisfied with this result, for one would naturally expect that most cases of grievous hurt should be established or proved to have been accidental.

33. Kidnapping shows an increase of 4 cases, the number being 23 against 19 in 1880. In Ratnágiri there were but two cases of which one was prosecuted to conviction. There were two more convictions, one in Dhárwár and the other in Kaládgi. It is very difficult to obtain evidence in these cases. The result is on the whole favourable as compared with the previous year, when there was no conviction at all.

Class IV.—Minor offences against the person.

34. There has been a considerable decrease of 454 in the number of cases in this class, and it appears mainly under the head of "Hurt."

35. The results of trials as regards hurt cases and persons concerned in them are shown below :—

Districts.	Total number of Cases.	Cases convicted.	Percentage of cases convicted.	Persons arrested.		Persons convicted.		Percentage of persons convicted to persons arrested.	
				By Police *suo motu.*	Under order of Magistrate.	Arrested by Police *suo motu.*	Arrested under order of Magistrate.	By Police *suo motu.*	By order of Magistrate.
Belgaum	190	58	30·5	211	29	89	11	42·1	55
Dhárwár	687	191	27·8	174	1,254	77	240	44·2	19·8
Kaládgi	314	82	26·1	110	479	49	85	44·5	17·7
Kánara	552	190	34·4	479	154	216	28	49·2	18·1
Ratnágiri	777	164	21·1	168	396	107	162	63·6	40·9
Total ..	2,520	685	27·1	1,142	2,303	558	535	48·8	23·2

36. The total number of hurt cases is 2,520, or a decrease of 452 on the previous year, when the cases amounted to 2,972. This decrease is attributable to the fact that the Police have been more discreet in taking up these cases, many of which are trivial quarrels, which the people will often settle amicably, if judiciously guided or left alone till their blood cools.

37. When the new Code of Criminal Procedure comes into force, this offence will be treated as non-cognizable, and the Police will be at liberty to devote more time to the detection of more serious offences.

38. Out of 2,520 cases convictions were obtained only in 685 or 27 per cent. This small percentage does not, for the reasons stated above, sensibly detract from the merit of the Police. They are, however, responsible for arrests which numbered 1,142. Of these 558 were convicted, giving a percentage of 48, which is not very satisfactory. The Ratnágiri Police, who have obtained 63 per cent, display remarkable precaution in this matter. The results in the other Districts vary from 49 to 42.

39. The percentage (23) of persons convicted to persons arrested under orders of the Magistrates is very poor indeed. Turning to the District figures we find that Belgaum and Ratnágiri have done well with percentages of 55 and 40 respectively. But the results in Dhárwár, Kánara and Kaládgi are far from respectable, being less than 20 per cent. This means that in these three districts out of every hundred persons arrested for common assault, about eighty were innocent and unnecessarily proceeded against. I anticipate a great improvement when the new code becomes law.

Class III.—Serious offences against person and property, or property only.

40. There has been a decrease of 167 cases in the offences falling under this class, the numbers being 646 in 1881 against 813 in 1880. The decrease appears chiefly in "Lurking house-trespass or house-breaking" (Sections 454, 455, 457 to 460, Indian Penal Code), and in the number of dacoities.

Class V.—Minor offences against property.

41. Under Class V. there has been a marked decrease in the number of cases which were 4,152 as compared with 4,711 in 1880, and it has occurred almost entirely under the head "Ordinary thefts". The decrease is distributed among all the Districts and its causes are undoubtedly the same

as have led to the general decrease in offences against property, *viz.* cheapness of the necessaries of life and general improvement in the condition of the people.

42. The subjoined table shows the more serious offences against property included in Classes III. and V. noticed above, and the detective result of the Police action in the same :—

Districts.	Serious offences against property.								Number of convictions obtained including those in cases of the previous year.							
	Dacoity, Sections 395, 397 and 398.		Robbery, Sections 392, 393, 394, 397, and 398.		Theft, Sections 379 to 382.		Receiving stolen property, Sections 411 to 414.		Dacoity.		Robbery.		Theft.		Receiving stolen property.

Dhárwár	15	13	61	58	985	841	40	23	1	3	5	4	274	192	26	2

Ratnágiri	2	..	7	9	969	766	19	10	..	1	2	4	283	177	21	12
Total ..	57	31	166	145	3,822	3,247	142	90	5	9	19	13	1,242	850	105	58

43. The above table exhibits a satisfactory falling off of 26 cases in dacoity, of 21 in robbery, of 575 in theft, and of 52 in receiving stolen property, which depends on other offences against property.

44. In dealing with the crime of dacoity the Police have been even more successful than in the year before, the percentage of cases convicted to those reported having risen from 9 to 29. No case occurred in Ratnágiri, and in Kánara there was only one, which was prosecuted to conviction. The number in Belgaum has fallen from 13 to 6 and convictions were obtained in 3 cases, giving a percentage of 50. Dhárwár shows a decrease of 2 cases and Kaládgi of 4; but the Police of these districts, especially of Kaládgi, failed entirely in the detection of this crime.

45. During the year under review the gang of Bedar dacoits, which had given considerable trouble in Kánara and Belgaum, was broken up and all of its members sentenced to imprisonment for terms varying from six months to sixteen years. The credit is due to Colonel McGillivray, who conducted the operations with remarkable energy and ability. This matter has already been dwelt upon in the last Police Administration Report (paras. 38 and 39) and formed a subject of a special report to Government, which resulted in Government Resolution No. 4828 of 26th July 1881 (J. D.)

46. Other offences against property specified above have, as already remarked, decreased, but the detective results are slightly inferior to those of the last year, and the want of success on the part of the Police in dealing with them is very marked.

Class VI.—Offences under special and local laws, and other offences not specified.

47. There were 2,227, or 253 cases more than last year when the figure was 1,974. The increase appears almost exclusively in offences against local and sanitary laws, and in offences under special laws not specified in Statement A., Part I. The result is encouraging.

48. Offences under "Excise laws" have decreased by 71.

49. On receipt of Government Resolution No. 1424 of 3rd March 1882 (Revenue Department), I issued the following circular to the District Superintendents of Police in this Division with a view to direct the special attention of the Police to the detection of opium and liquor smuggling cases—

"It is stated that sufficient attention has not been given to the detection of cases of opium and liquor smuggling. I request therefore that you will impress upon all the Policemen under your control that the suppression of smuggling is one of the most important duties of the Police, and that any want of zeal in this respect will be visited with extreme displeasure.

2. "To enable me to ascertain that the above orders are properly carried out, I request that you will devote a separate chapter to this subject in the annual Police Administration Report, the statistics being furnished in the subjoined form :—

Number of cases.	Description of Cases.	Number of persons concerned or believed to be so.	Number of persons arrested.	Number of persons convicted.	Amount of liquor or opium seized.	Remarks.

Note.—In column 6 the amount of liquor should be given in gallons and that of opium in tolas.

3. "The Police should be informed that their efficiency will be in no small degree judged by their success in detecting and repressing smuggling."

50. In the following statement is shown the detective action of the Police in liquor smuggling and miscellaneous cases—

Districts.	Description of Cases.	Number of cases.	Number of persons concerned or believed to be so.	Number of persons arrested.	Number of persons convicted.	Amount of liquor seized.	Remarks.
						Gallons.

Total ..	Smuggling	101	123	123	106	91½	
	Miscellaneous..	198	248	247	196	.. ..	

51. In the whole Division 101 cases of liquor smuggling were detected and about 91½ gallons of liquor seized. Belgaum shows the largest number of cases, viz. 53, Kaládgi had 23, Dhárwár 14, and Ratnágiri 11. In Kánara, some smuggling from Goa territory must have occurred, but strange to say none were detected. I hope the Kánara Police will pay greater attention in future to this matter.

52. In connection with these cases 123 persons were arrested, of whom 106 were convicted. This result is satisfactory.

53. Opium smuggling was detected only in two instances in the Ratnágiri District. 17½ tolas' weight of opium was seized and two persons were arrested and convicted. But little opium, however, is consumed in this Division.

54. In the following table is shown the proportion of doubtful cases reported by the Police under section 117 of the Criminal Procedure Code to the total number of cases entered in the Crime Register:—

Districts.	Total number of cases.	Cases reported under Section 117, Criminal Procedure Code.	Percentage of cases reported to the total number of cases.	
			1881.	1880.
Belgaum	2,449	417	17	16
Dhárwár	2,481	470	19	7
Kaládgi	1,626	237	15	24
Kánara	1,537	418	27	26
Ratnágiri	2,294	1,204	52	48

55. As expected, the largest number of doubtful cases reported belongs to Ratnágiri, where the people, though law-abiding, are unfortunately most litigious, and the smallest difference between them on matters of right or custom, results in a series of legal proceedings. It is frequently found that complaints of so-called criminal trespass, mischief and theft are made simply with a view to get, by a decision in a criminal case, some better standing ground or evidence for the civil suits to follow.

56. The percentage of doubtful cases reported has slightly increased in all the districts except Kaládgi, where it has declined from 24 to 15. The increase of 12 per cent. in Dhárwár is only nominal. Last year out of 2,544 cognizable cases, 404 or 16 per cent. were reported under Section 117, Criminal Procedure Code, but the Superintendent showed only 17 of them, under a misapprehension that cases in which some investigation had been made before they were reported to the Magistrate, were not to be entered in column 4 (*a*) of Statement A, Part I. Thus the real increase in the proportion of Dhárwár was but 3 per cent.

57. In the following statements are given statistics regarding struck-off cases, persons concerned in them, &c. &c. :—

58. From the above tables it will be seen that out of 10,994 cases, 2,603 or 24 per cent. were struck off as false. The percentage of last year was 21. The excess of 151 struck-off cases over the previous year is due to Belgaum, Dhárwár and Ratnágiri; Kaládgi and Kánara show a decrease of 32 and 45 cases respectively.

59. The highest percentage (36) of struck-off cases appears in Ratnágiri, and is in the proportion of doubtful cases reported to the Magistrates (*vide* para. 54). Kánara and Kaládgi have percentages of 23 and 22 respectively. Belgaum and Dhárwár show the lowest percentage of 18.

60. It is satisfactory to find that the number of persons discharged in struck-off cases is very low throughout the division. Of all the persons arrested only two per cent. were connected with false cases in Ratnágiri and Kánara, 3 in Belgaum and Dhárwár, and 4 in Kaládgi.

61. These results indicate fair discrimination and intelligence on the part of the police.

62. The proportion of undetected cases in Dhárwár and Kaládgi is very large being 29 and 27 per cent. respectively. The percentage in Kánara (16)

is also high. Belgaum and Ratnágiri show remarkably low percentages, 7 and 10 respectively.

63. The following statements show the results of the Police operations in undetected cases standing over from the previous two years :—

64. The results exhibited in these statements do not show any improvement on last year. It is true that the older a case becomes, the more difficult it is to detect. But making all allowances for this, I cannot say that these old cases have received sufficient attention.

65. All results taken together, Káladgi and Ratnágiri seem to have done pretty fairly. The success of Belgaum and Kánara cannot be pronounced satisfactory. Dhárwár has recovered the largest amount of stolen property, but the number of cases followed up and detected is the smallest in the division.

66. The table below shows the value of property stolen and recovered, and the proportion which the latter bears to the former, as compared with the results of last year :—

Districts.	Property stolen.	Property recovered.	Percentage of property recovered to property stolen.	Percentage of recoveries in 1880.
	Rs.	Rs.		
Belgaum	29,205	10,151	35	38
Dhárwár	53,948	15,803	29	26
Kaládgi	30,942	13,654	44	42

Total ..	1,94,693	91,881	47	....
Total for 1880 ..	1,77,976	76,415	....	43

67. The reported value of the property stolen during the year under review exceeds the figure for 1880 by Rs. 16,717. It is however satisfactory to observe that the results of the recovery are better than in the past year by 4 per cent. Ratnágiri stands far ahead of the other districts with a creditable percentage

of 77, showing an improvement of 11 per cent. Next comes Kánara with a declined percentage, 50 against 62 last year. Kaládgi has improved by 2 per cent. The figure 35 obtained in Belgaum is indifferent. Dhárwár with its slight improvement from 26 to 29 per cent. has again to show the poorest result in the division.

68. We must not however measure the zeal and energy of the Police in this respect by mere statistics, for it is admitted on all hands that the amount of loss is usually exaggerated, and that the recovery of stolen property often depends upon a lucky find.

Non-cognizable Crime.

69. The following table shows District by District the number of non-cognizable cases instituted and taken up by Magistrates of their own motion, and the results obtained in them as contrasted with the previous year. :—

70. This species of crime shows an increase of 463 cases, the total number of cases being 2,490 against 2,027 last year. It is contributed by Belgaum, Dhárwár, and Káladgi, but specially by Belgaum where the number has risen from 375 to 635. In Kánara there is a decrease of 31 cases. Ratnágiri has remained stationary with a trifling increase of 2 cases.

The increase is chiefly due to greater activity on the part of the Magistrates in enforcing special laws.

71. In connection with these cases 3,554 persons were apprehended or summoned, of whom 1,723 or 48 per cent. were convicted. This shows an improvement of 3 per cent. Dhárwár has obtained the best percentage of 53 and is followed by Belgaum and Kánara, each with a percentage of 52. Kaládgi has improved from 41 to 43, and Ratnágiri declined from 36 to 35.

72. The value of property involved in these cases was Rs. 981, of which Rs. 867 has been recovered.

73. In the subjoined two statements are exhibited separately the results in cases in which the Police were employed, and those in cases which were disposed of by Magistrates without Police intervention :—

Total for 1880 ...	1,566	2,468	1,333	1,117	45	53 4 0	53 4 0

74. Although the total non-cognizable cases increased by 463, the number referred to the Police was less than the preceding year by 46.

75. The percentage of cases in which the Police were employed is as follows :—

Districts.	1880.	1881.
Belgaum	16	4
Dhárwár	19	18
Kaládgi...	12	17
Kánara	12	9
Ratnágiri	73	55

It is satisfactory to find that the percentages are lower in all the districts except Kaládgi, which shows an increase of 5 per cent. The lowest percentage belongs to Belgaum. The highest percentage appears in Ratnágiri, which is due to the fact that cases of criminal misappropriation of property, mischief (simple) and of offences under special laws, have unavoidably to be referred to the Police. This also accounts for the low percentage noticed below of persons convicted to persons apprehended.

76. In the 415 cases inquired into by the Police, 576 persons actually appeared before the courts, of whom 302 or 52 per cent. were convicted. This shows the considerable improvement of 9 per cent. as compared with the previous year. Kánara leads with a very high percentage of 81. Next comes Dhárwár, which has obtained 66. Belgaum and Kaládgi have reached the figures 56 and 53 respectively. The percentage in Ratnágiri (37), though better than last year by 4, is still, as was to be expected, the lowest in the Division.

77. The number of cases taken up by Magistrates direct was 2,075. Processes were issued against 2,978 persons of whom 1,421 were convicted. The percentage of convictions to persons brought before the Courts was 48 against 45 of the preceding year. Belgaum, which has improved from 42 to 52, stands at the head of the list. The remaining districts—Dhárwár, Kánara Kaládgi, and Ratnágiri—have obtained respectable percentages of 51, 48, 43 and 34 respectively.

Statement D.

78. During the year under report, Police from the regular force and Shetsandis and peons noted in the margin were quartered as usual at the annual fairs of Yemnur* in the Navalgund and Guddguddápur† in the Ranebennur Tálukas of the Dhárwár District. The former fair lasted for 3 days from 19th to 21st March, and the latter for 4 days from 1st to 4th October. The number of people assembled at Yemnur was about 51,000, or 20,000 more than previous year, and that at Guddguddápur about 7,000, which shows a decrease of 3,000.

*	†
1 Officer	1 Officer
6 Men	6 Men
2 Savárs	2 Savárs
89 Shetsandis	42 Peons

79. Only two criminal cases occurred at Yemnur during the fair. They were detected and the property stolen (Rs. 10-8-0) was recovered.

80. There were no punitive posts in this Division during the year of report.

Statement E.

81. The total strength of the Police including the Superintendents was 3,412, and was maintained during the year at a cost of Rs. 5,30,159. The difference (57) in the total strength given this year and that shown in the last year's report is due to the reorganization of the Police establishments sanctioned in Government Resolution No. 7137 of 22nd October 1880 having been carried out. Out of the total reductions (62) 57 were effected and 5 remained to be made at the close of the year—4 in Kaládgi and 1 in Kánara.

82. The force was distributed as follows on the last day of the year :—

	Men and Officers.
General Police duties	2,629
Jail Guards	53
Treasury and Miscellaneous Guards	429
Town duties	277
Cantonment duties	19
Add Superintendents of Police	5
	3,412

83. The following statement shows the proportion of Police to area and population for the Division and for each district separately :—

Districts.	Area in square miles.	Population (according to the recent Census of 1881.)	Proportion of Police.	
			To Area.	To Population.
Belgaum	4,656·8	864,014	1 to 7	1 to 1,303
Dhárwár	4,534·7	882,907	1 to 6	1 to 1,205
Kaládgi	5,757·3	638,493	1 to 9	1 to 1,037
Kánara	3,910·7	421,840	1 to 6	1 to 636
Ratnágiri	3,922·1	997,090	1 to 5	1 to 1,353
Total ...	22,781·6	3,804,344	1 to 7	1 to 1,117

84. The average proportion of the whole force to the area and population of the Division is one policeman to 7 square miles and to 1,117 souls.

Statement F.

85. Of the entire force of the Division 1,867 men are provided with fire-arms, 185 with swords only or with both swords and batons, and the remaining 1,355 with batons only.

86. In the course of my tour I found that the arms and accoutrements of the force were not always sufficiently looked after. I therefore issued a circular to the District Superintendents of Police in this Division, requiring them to report on the arms and accoutrements in their annual reports.

87. The following table shows the departmental punishments inflicted on the men of the force in the several Districts of the Division:—

Districts.	Total strength of the Police.	Number of Departmental Punishments.	Percentage of Punishments to Police.
Belgaum	662	218	33
Dhárwár	732	193	26
Kaládgi	615	41	7
Kánara	662	77	12
Ratnágiri	736	57	8
Total ...	3,407	586	17

88. There is a great variation in the number of punishments inflicted in the several districts. The proportion of punishments has decreased everywhere except in Belgaum where there is an increase of 24 per cent. over last year. It would seem that $\frac{1}{3}$rd of the force was punished. The Belgaum Police had become

very lax in discipline, and Mr. M. Kennedy honestly and determinedly set himself to work to improve it. Kaládgi has the lowest percentage of 7, showing a decrease of 15 per cent. Considering all the circumstances and their general ill-success in the year of report, I cannot but think that the Police of this district required a tighter hand.

89. Punishments by Magistrates have diminished by 9, the figures being 27 against 36 last year.

90. A set-off to these punishments is to be found in promotions and money rewards in recognition of special good service. During the year 278 men were rewarded by promotion and 33 were given money rewards, the number so rewarded last year being 343 and 41 respectively.

91. There has been no improvement in the education of the Police, it being very difficult, except in Ratnágiri, to obtain men who have received some education, for enlistment in the lower ranks of the force. Three hundred and eleven officers and 788 men or 32 per cent of the whole force are returned as able to read and write against 331 officers and 817 men in the previous year. The falling off in the numbers (49) is due to certain reductions in the force and to some of the chief constable's writing orderlies having been appointed karkuns under the reorganization of the Police establishments. As usual Rátnágiri stands first with a percentage of 51. The number under tuition in the Division was 840 against 762 in 1880.

92. Escapes and recaptures :—

Districts.	From Jails.	From Lock-ups.	From the custody of		Total Escapes.	Number re-captured.	Percentage of recaptures to Escapes.

Kánara	....	....	1	....	1	....	....
Ratnágiri	....	1	3	3	7	5	71
Total ..	5	4	21	9	39	30	77

The total number of escapes from the custody of the District and Village Police was 39 or 17 more than previous year. Of these 17 were in Kaládgi, 9 in Belgaum, 7 in Ratnágiri, 5 in Dhárwár and one in Kánara.

93. The percentage of recaptures to escapes is very satisfactory, being 77 as compared with 41 in 1880. In Kaládgi, where the number of escapes was the largest, the percentage of recaptures is 82, the highest figure in the Division. Dhárwár, Belgaum and Ratnágiri have also good percentages of 80, 78 and 71 respectively. In Kánara one person escaped, and he has not yet been apprehended. The conduct of the Police to blame for allowing escapes was duly noticed. Seventeen were prosecuted criminally, and four punished departmentally.

94. The subjoined table shows the number of policemen in each district who have been instructed in the course of drill under the several heads prescribed. In Belgaum none were taught "Company drill" till the close of the year. The Superintendent of Police, however, reports that it has since been proceeded with :—

Ratnágiri	635	510	305	327	728
Total ..	2,541	1,735	1,606	2,124	2,176

95. In the subjoined table is shown the percentage of men instructed more or less in the course of drill to the total number of Police :—

Districts.	Total number of Police.	Number of Men who have been instructed more or less in the course of Drill.	Percentage of men in Column 3 on the total number of Police.
1	2	3	4
Belgaum	662	517	78
Dhárwár	732	692	95
Kaládgi	615	240	39
Kánara	662	587	89
Ratnágiri	736	731	99
Total ..	3,407	2,767	81

96. The divisional percentage 81 shows a satisfactory increase of 28. In Ratnágiri and Dhárwár almost all the policemen have been instructed more or less in the course. The progress made in Kánara is satisfactory, and that in Belgaum is fair. Kaládgi returns 240 men as thoroughly drilled under all the five heads. The system adopted here has already been detailed in para. 81 of the last year's report. Even after making due allowance for this, I cannot look upon the progress made as satisfactory, and have drawn the special attention of the present Superintendent to the subject.

Statement G.

97. The entire force of the Police, as it stood on 31st December 1881, was composed of 6 Europeans and 3,368 natives, 38 places being vacant at the close of the year. Of the Europeans, 5 were District Superintendents of Police and one the Port Constable at Kárwár; and of the Natives, 543 were officers and 2,825 men. There were altogether 548 officers inclusive of the Superintendents, of whom 7 were Christians, 192 Mahomedans, 347 Hindus of various castes, 1 African and 1 Pársi. Of 2,826 men, 52 were Christians, 1,133 Mahomedans and 1,641 Hindus.

98. It will be observed that the force is mainly composed of Maráthas and Mahomedans in almost equal numbers, the former being 1,313 and the latter 1,325.

Statement H.

99. The aggregate expenditure on account of Police buildings during the year was Rs. 14,722 against Rs. 18,745 in 1880. Of this the expenditure by the Public Works Department on repairs and works amounted to Rs. 8,857, and the balance Rs. 5,865 was spent departmentally on petty constructions and repairs.

100. The want of proper accommodation for the Police continues to be a general complaint.

Statement J.

101. The following is a brief abstract of the returns received from the several Superintendents regarding cases of serious crime personally investigated by them :—

Districts.	Cases entered in Return.	Number visited at once.	Number visited after a few days.	Number not visited.	Details of the figures given in Column 2.							
					Murder.	Attempt at murder.	Culpable homicide.	Dacoity.	House-breaking.	House-breaking and theft.	Causing hurt by dangerous weapon.	Abandoning a child.

Total ..	97	24	12	61	50	3	15	21	4	2	1	1

102. Major Hay in Dhárwár has displayed his usual activity in this respect.

103. In Belgaum Mr. M. Kennedy has done well. He was authorized* by Government to depute the Police Inspector to visit the scenes of serious crime, whenever he himself was prevented from going by the necessity of attending at drill and equitation.

* Resolution No. 3235 of 23rd May 1881, Judicial Department.

104. Mr. Yates in Kaládgi investigated personally only 8 out of 28 cases. It is true that some of the cases, the scenes of which were not visited, were at first reported as unreliable, and in some, the intelligence was not received in time to make it worth while for him to hurry to the spot; but on the whole, this Superintendent, Mr. Yates, did not, in my opinion, show sufficient activity in this respect.

105. In Ratnágiri and Kânara the report of a serious crime is generally speedily followed, if not accompanied, by a report of the capture of the offenders, and of the evidence obtained. And if the evidence is sufficiently strong to secure conviction, it is hardly necessary for the Superintendent to proceed to the spot, unless it is within easy reach. Colonel McGillivray and Mr. H. Kennedy have exercised great discrimination in this matter: for out of 11 cases in Kánara and 6 in Ratnágiri, the scenes of which were not visited by the Superintendents, convictions were obtained in 7 and 5 cases respectively.

Suicides and Accidental Deaths.

106. The number of suicides and accidental deaths which occurred in each district, and other details connected with them are shown in the following table:—

Districts.	Suicides.												Accidental Deaths.												Total Suicides and Accidental Deaths.

107. The number of suicides was 303. Of these there were 94 in Dhárwár, 91 in Kaládgi, 57 in Belgaum, 40 in Kánara and 21 in Ratnágiri. Out of the total number, 176 deaths or 58 per cent. were caused by drowning, chiefly in Dhárwár, where there were 67 cases.

108. Accidental deaths from various causes numbered 1,100. Ratnágiri heads the list with a figure of 321, of which 175 were due to snake-bite. Next comes Belgaum with 233 accidental deaths, 110 of which were caused by drowning. Dhárwár had 198, Kánara 187 and Kaládgi 161.

Working of the Arms Act.

109. The subjoined is a statement showing the working of the Indian Arms Act in this Division during the year under review. There are some discrepancies between the figures in this statement and those furnished by the District Magistrates in their annual reports on the subject, which have been forwarded with my review (No. $\frac{P}{709}$ of 20th May last); and the explanation of the officers concerned has been called for:—

Number.	Name of District.	Number of Licenses granted in 1881.										Number of Arms confiscated.	Number of persons prosecuted under the Act.	Number of persons convicted.	Number of Shops of licensed vendors of Arms and Ammunition.	Number of Shops examined by the Police.	Remarks

	Total ..	21	44	1,418	11	10	266	12	8	51	1,8	762	56	45	67	40	

110. In Kánara and Kaládgi all the shops of licensed vendors of arms and ammunition were examined by the Police. In the remaining districts only about one-half of the shops were examined. I have directed the District Magistrates to enforce the periodical inspection by the Police Inspectors, contemplated in paragraph 1 of Government Resolution No. 5916 of 12th October 1878.

111. The provisions of the Act have, on the whole, been carried out liberally and carefully.

General Remarks.

112. On the whole, the Belgaum Police displays marked improvement. This is creditable to Mr. M. Kennedy, who held the office of Police Superintendent from 5th March to the end of the year under review. The success of the Ratnágiri and Kánara Police was, in many respects, satisfactory. The conduct of the Police in Dhárwár was good, but their action in the detection of crime was, as usual, attended with very little success. Kaládgi has again deteriorated and there have been traces of somewhat defective supervision since Mr. Kennedy left the district. I hope that (now he has returned) Mr. Kennedy, who has done so much in Belgaum, will succeed in restoring the discipline of Kaládgi. As I observed last year (para. 90 of the Report) it is more difficult to get good men in Dhárwár and Kaládgi than elsewhere, and I am taking steps occasionally to infuse fresh blood in these districts.

113. For a considerable portion of the touring season I was on special duty in connection with the Anglo-Portuguese Treaty. I, however, visited Kánara and Ratnágiri. Messrs. Sheppard and Moore, who were acting for me, saw the remaining districts, the former Belgaum and Dhárwár, and the latter Kaládgi. The Police lines and schools at head-quarters of the districts were inspected, and the accounts, &c., in head-quarters and Chief Constables' offices were examined and were found generally satisfactory.

114. At present the District Magistrates generally forward the Police Administration Report with remarks of a merely formal and cursory nature. One District Magistrate, I very much regret to observe, sent on the report this year with only one word, "Forwarded." These officers are expected, being thoroughly acquainted with the working of the Police, to express their opinion regarding the force for the information of Government, and I have impressed this view upon them.

115. In conclusion, I have the pleasure to bring to the favourable notice of Government the names of Colonel McGillivray and Mr. M. Kennedy.

I have the honour to be,
Sir,
Your most obedient Servant,
ARTHUR CRAWFORD,
Commissioner, S. D.

PART II.

PRE'CIS OF THE POLICE SUPERINTENDENTS' REPORTS.

BELGAUM.

Statistics.

116.

Area	... 4,656-8 square miles.
Population (according to the Census of 1881)	... 864,014
Strength of Police	... 663
Police to Area	... 1 to 7·03
Police to Population	... 1 to 1,303

Officers in charge.

117. The officers in charge during the year were as follows :—

Colonel Bartholomew from 1st to 31st January.

Mr. McCorkell from 1st February to 4th March.

Mr. M. Kennedy from 5th March to end of the year.

Conduct of the Force.

118. During the year under report 1 officer and 20 men were dismissed; 36 officers and 161 men were fined, degraded or suspended, and 1 officer and 11 men were punished judicially. These figures compare unfavourably with the previous year, but indicate, as stated in para. 88, increased activity and diligence on the part of the Superintendent, who is responsible for the discipline and efficiency of the force.

Education.

119. Fifty-two officers and 101 men, or 23 per cent. of the whole force are able to read and write, which is less than last year by 1 per cent.

Barrack accommodation.

120. In 10 táluka stations and 33 outposts the Police are totally unprovided with Government accommodation and have to house themselves as best they can. New lines at headquarters are in course of construction and will be partially completed by March 1883.

Fluctuation of crime.

121. For the year under report, taking cognizable and non-cognizable crime together, there has been a decrease of 212 cases on the previous year. This is owing to the large decrease of 472 cases of cognizable crime reported in 1881, non-cognizable crime having increased by 260 cases. The amount of property stolen during the year was Rs. 29,205 against Rs. 35,554 in 1880. Of this, Rs. 10,151, or 35 per cent. was recovered, which is less than last year by 3 per cent.

Murders.

122. There were 11 cases of murder reported against the same number in the previous year. The detective action of the Police was excellent. Of the 11 cases, 6 were convicted, 3 struck off as false, 1 was pending trial by Court Martial, the accused being a soldier of the 2nd Battalion Royal Irish Fusiliers and 1 remained undetected. The details of the undetected case are as follows :—

On the 10th January 1881, one Gurupadapa, an oilmonger of the town of Athni, was found murdered in his field with an axe. No clue has yet been obtained as to the murderers. The cause of his death is a mystery.

Culpable homicide.

123. Three cases under this head were reported against 7 in the previous year. One was struck off as no crime, and two committed to the Sessions, where conviction was obtained in one, and the other was discharged.

Dacoities.

124. Of this crime, there were 6 cases as compared with 13 in the last year. Conviction was obtained in two, two were struck off as false, and two remained undetected.

125. Although the Belgaum Police show well in the returns for the year (principally owing to Mr. Kennedy's energy) there is still very great room for improvement. The District Superintendent of Police has been so often changed of late years, that not only discipline has suffered but promotions to higher grades have been injudiciously, because ignorantly, made.

126. If, as I hope, Mr. Down will now stay some months in Belgaum, I have no doubt he will effect a great improvement.

Police to Population ... ... 1 to 1,205

Officers in charge.

128. Major Hay was in charge of the office of Superintendent of Police throughout the year.

Conduct of the Force.

129. There has been an improvement in the conduct of the force. Six constables were punished judicially, and 35 officers and 158 constables departmentally against 3 officers and 17 constables punished judicially and 45 officers and 171 constables departmentally in 1880. On the other hand, 23 officers and men were rewarded by promotion for good service and 2 chief constables were presented with silver watches.

Education.

130. Seventy-three officers and 167 men were able to read and write, and 7 officers and 155 men were under instruction. That improvement has not been shown is owing to reduction of establishment and to some of the chief constables' writing orderlies having been appointed kárkúns.

Barrack accommodation.

131. New lines were under construction at Motebenuur, Shalvádi, Mundargi, Hirekerur and Sangtikop.

At head-quarters 40 new huts were completed and 20 more were under construction, and 40 old huts were repaired departmentally.

Fluctuation of crime.

132. There were 2,481 cases of cognizable crime reported during the year against 2,544 in 1880, showing a decrease of 63 cases. The cases of non-cognizable crime were 677 against 568 last year, showing a comparative increase of 109. The amount of property reported stolen is Rs. 53,948 against Rs. 61,946 in the year preceding, giving a decrease of Rs. 7,998. 29 per cent. of property lost has been recovered, which is 3 per cent. more than last year.

Murders.

133. Twelve cases of murder were reported during the year against 10 in 1880. It is noticeable that 6 were murders of newly-born children. In 6 cases the accused were committed to the Sessions, where conviction was obtained in 4 and 2 were acquitted. Of the remaining 6 cases, 1 was struck off as false, 1 was pending at the close of the year in which conviction has since been obtained, and 4 remained undetected, in one of which the offender has since been committed to the Sessions, but there acquitted. The following are the particulars of the three cases in which no clue as to the offenders has yet been obtained :—

(1) At the village of Hombal, Táluka Gadag, the dead body of a female child about 2 months old was found in a tank. A widow named Maddi, who was kept by one Sabya, was suspected of having committed the crime. She has absconded, and search is being made for her.

(2) On the morning of 3rd November, in the Military lines at Dhárwár, one Jamálbee, the wife of Havildár Piru of the 28th Regiment, gave birth to a male child, and it was found dead in the evening with a wound made with a sharp instrument in the throat. It has been ascertained that Jamálbee was separated from her husband for about a year and a half on his going on field service, and joined him at Dhárwár about 5 months ago. On the day in question, Jamálbee informed her husband that she had given birth to a five months' child. But the Civil Surgeon was of opinion that it was a full-time child. No direct evidence could be obtained as to how and by whom the wound was inflicted.

(3) At Náráyanpur, Táluka Gadag, the dead body of a blind man, named, Irapa, was found hanging to a tree. It is doubtful whether this is a case of murder or suicide. Enquiry is going on.

Culpable homicide.

134. There were 4 cases under this head, being the same number as in 1880. Conviction was obtained in 1 case, in 2 cases the accused were committed to the Sessions but were acquitted, and in the remaining case the accused was discharged by the Magistrate.

Dacoities.

135. Thirteen dacoities were reported during the year, showing a slight decrease of 2 cases as compared with the last year. Of these, 2 were struck off as no crime, 1 was discharged by the Magistrate, and 4 were committed to the Sessions where conviction was obtained in 3 and in one the prosecution broke down. The remaining five were undetected.

136. I have had much reason of late to be dissatisfied with the exertions of the Dhárwár Police, but it has been in connection with events of the current year.

Officers in charge.

138. Mr. Yates was in charge of the office of District Superintendent of Police throughout the year.

Conduct of the Force.

139. The conduct of the force, judging from Statement F, has been fairly satisfactory. One member was tried judicially, and 13 men were dismissed the force against one officer and 5 men for the previous year; 8 officers and 20 men were degraded, fined and received other minor departmental punishments for misconduct against 32 officers and 99 men thus punished during the year 1880.

Education.

140. Thirty-six officers and 59 men can read and write. The number has thus decreased since the previous year by 2 officers and 7 men.

Police Buildings.

141. No Police buildings were constructed during the year under report.

Fluctuation of crime.

142. The total number of cases committed during the year is 2,102, of which 1,626 are cognizable and 476 non-cognizable cases. This shows an increase of 265 cases as compared with 1,837 last year. Rs. 13,942 worth of property is reported to have been stolen of which Rs. 13,654 have been recovered, showing an increase of two per cent. of recoveries over last year.

Murders.

143. There were altogether 16 murders reported this year against 9 of the preceding year. Convictions were obtained in 6 of 8 cases committed to the Sessions, and 2 were acquitted—one by the Sessions and the other by the High Court on appeal. The accused in one case were discharged by the Magistrate, 5 have been struck off as no crime, and one reported under Section 117, Criminal Procedure Code, with a view to its being struck off. The details of the one case remaining undetected are as follows:—

At Satihal in the Bágevádi Táluka the body of one Galib was found suspended from a tree in his field. From inquiries it appears doubtful whether this is a case of suicide or murder. The only evidence obtained in this case is that of the deceased's wife, who states that for some time past her husband had formed a connection with another woman named Israva, and that on the night of the 1st March Israva came to her house and took her husband away with her. He was not seen alive afterwards.

Culpable homicide.

144. There were six cases of culpable homicide against 8 in 1880. They were disposed of as follows :—

(1.) Struck off.

(2.) Reported to the Magistrate under Section 117 with a view to their being struck off the register.

(3.) Discharged by the Magistrate for want of proof.

Dacoities.

145. There is a decrease of 4 cases in the number of dacoities, which were 11 against 15 in the previous year. Of these, one was convicted, 1 struck off, 7 acquitted and discharged, and 2 were under inquiry. This result is far from satisfactory.

146. Both Messrs. Sheppard and Moore were dissatisfied with the Kaládgi Police; I myself did not visit that district in the year under report.

Officers in charge.

148. Colonel McGillivray was in charge of the office of the Superintendent of Police during the whole year under report.

Conduct of the Force.

149. The conduct of the Police during the year has been good; 20 men were dismissed from the force, 4 men were punished judicially, and 16 officers and 41 men were punished departmentally. On the other hand 58 men were rewarded by promotion. Mr. Subhanrao Salve, Police Inspector, was presented during the year with the Viceroy's Sanad conferring upon him the title of Ráo Bahádur.

Education.

150. Fifty-eight officers and 181 men are able to read and write, and 4 officers and 51 men were under instruction at the head quarter school during the year.

Barrack accommodation.

151. During the first half of the year under review new station-houses were constructed at Nilkund and Nidgode in the Siddápur Táluka and Chandwadi in the Supa Petta. New station-houses at Kadra in Kárwár Táluka and Anshi and Kumbarliwada in the Supa Peta are in the course of erection.

Fluctuation of crime.

152. The number of offences reported during the year is 1,966, of which 1,537 cases were cognizable and 429 non-cognizable; while those reported last year were 2,294, of which 1,834 cases were cognizable and 460 non-cognizable. This gives a decrease of 328 in the total and of 297 and 31 in cognizable and non-cognizable cases respectively. The value of property stolen is Rs. 36,687, of which Rs. 18,192 worth was recovered.

Murder.

153. There were 5 cases of murder or 4 more than last year. Conviction was obtained in 4, and in the remaining case the accused were discharged by the Magistrate.

Culpable homicide.

154. Of this offence there were 4 cases, of which one was convicted, one acquitted, one reported to the Magistrate as false, and one was pending at the close of the year.

Dacoities.

155. Only one case of dacoity occurred. This was prosecuted to conviction.

156. I have found the Kánara Police very zealous and active, though they have been much harassed by the wearisome duty of tracking dacoits in the dense forests. The force has a large admixture of Ratnágiri and Sávantvádi men, who have done much to improve its general tone. I trust that no more coast Musalmen will be enlisted, for they are generally indolent, uneducated and apt to be drunkards.

Officers in charge.

158. The undermentioned officers were in charge of the office of Superintendent of Police during the year :—

Mr. H. Kennedy, from 1st January to 21st December.

Mr. J. Down, from 22nd December to the end of the year.

Conduct of the Force.

159. Six men were dismissed during the year; 17 officers and 34 men were fined, degraded and suspended, and 4 men were punished judicially. 63 officers and men were rewarded with promotion, and 30 received money rewards.

Education.

160. There is a falling off under this head, the number of officers and men able to read and write being respectively 92 and 280 against 98 and 305 reported last year. 22 officers and 340 men received instruction during the year under report.

Barrack accommodation.

161. Two new thánás to accommodate 18 men have been built during the year—one at Málvan and the other at Tinre, Táluka Sangameshvar. New Police lines are badly wanted at Rájápur.

Fluctuation of crime.

162. The returns for the year under review show a decrease of 143 cognizable cases as compared with the previous year, the number being 2,294 in 1881 against 2,437 in 1880. There is a slight increase of 2 in the number of non-cognizable cases; it was 273 in 1881 against 271 in 1880. The value of property stolen is stated to be Rs. 43,911, of which Rs. 33,981 was recovered, which gives a percentage of 77 of recoveries against 66 last year. This speaks favourably for the Ratnágiri Police.

Murders.

163. Six cases of murder were returned during the year of report as compared with 2 in the preceding year. In 3 was conviction secured, 1 was acquitted, 1 was reported to the Magistrate as no crime, and the remaining one was pending at the close of the year.

Culpable homicide.

164. Three cases of culpable homicide occurred during the year as against 4 in 1880. In each of them was prosecution successful.

Dacoities.

165. From this description of crime Ratnágiri was entirely free.

166. Mr. H. Kennedy kept up the discipline of the force and maintained his character as a zealous and able officer. In many respects the Ratnágiri Police are superior to the Police of the Southern Marátha Country, notably in intelligence and sobriety.

167. The improvement of the prospects of the Chief Constables, whereby the tone of the whole Police force will be raised, is becoming a burning question.

168. So also is the reorganization of the Police, generally from the bottom without increased expense to the State, by the better utilization of the array of hereditary Shetsandis in the Southern Marátha Country.

169. Both these questions are engaging serious attention, and will, in due course, be laid before Government. It would be alike premature and out of place to discuss them here.

ARTHUR CRAWFORD,
Commissioner, S.D.

No. 1013 OF 1882.

JUDICIAL DEPARTMENT.

From

H. N. B. ERSKINE, ESQUIRE,
Commissioner in Sind;

To

HIS EXCELLENCY THE RIGHT HONOURABLE
SIR JAMES FERGUSSON, BART., K.C.M.G. & C.I.E.,
Governor and President in Council, Bombay.

Commissioner's Office,
Karáchi, 28th June 1882.

RIGHT HONOURABLE SIR,

Statements A. to G.
Do. of Dismissals and Resignations.
Do. of Expenditure on Police buildings.
Do. of Serious Crimes.
Do. of Cases decided by Magistrates.

I have the honour to submit the annual report on the working of the Police in Sind during the year 1881. The usual statements noted in the margin are appended.

2. The following statement shows the dates of the Superintendents' reports, of the Magistrates' forwarding endorsements, and final replies from the former to reference made to them regarding errors discovered, &c. :—

DISTRICTS.	Date of Superintendents' Report.	Date of Magistrates' Letter or Memorandum.	Superintendents' final Letter.
Karáchi	24th February 1882	5th March 1882	5th June 1882.
Hyderabad	11th March 1882	25th do.	12th May do.
Shikárpur	7th do.	20th do.	2nd June do.
Thar and Párkar	28th do.	.....	20th May do.
Frontier	17th do.	.....	15th do. do.

3. The year 1881 was on the whole a very prosperous one in Sind, and prices ruled unusually low. It might therefore reasonably have been expected that the year's returns should show a marked decrease in crime, which since 1875 until 1879 had exhibited a steady increase. Such expectations have not, I regret to state, been realized to the extent that might confidently have been looked for. Last year I pointed out that with the fall in prices which had then commenced crime was decreasing, and that in every district, except Shikárpur, there was a marked decrease in the worst forms of crime, that is in cognizable crime. There is again, I am glad to state, a decrease in such crime except in the Upper Sind Districts of Shikárpur and Jacobabad, but in these there is a large increase. This continued increase in one locality points to local, not general, causes as promoting it, and these I think may be said to be the influx, particularly from the direction of the Punjab, of large numbers of needy men, many of them of the criminal classes, who came during the Afghan war in the hope of getting service in the Transport Department or employment on the Railway or, as certainly was the case with some, in the hope of finding opportunities for plunder.

The year, prices, &c.

4. The reduction in the number of outposts held by the Sind Horse near the Frontier, and the reports that reached the tribes of successful lootings from time to time, undoubtedly had an unsettling effect on the frontier population, which is largely composed of immigrants from the tribes beyond our border, and induced many who might otherwise have continued to cultivate their lands steadily to revert to their old habits of plundering or stealing cattle. This

offence unfortunately is by them not looked on as a crime, but rather in the light in which the same offence was viewed by Highlanders in Scotland in the days of "Rob Roy."

5. The Police force in both the Upper Sind Districts proved unequal to the strain to which it was subjected. In the case of the Police in the Jacobabad Districts, this was not surprising as it is wretchedly underpaid, and it requires entire reorganization. This is now about to be carried out, but the effects cannot be apparent for some time to come. In the Shikárpur District the Magistrate has assigned various reasons, all of which have helped to produce the bad results exhibited. After some general remarks, he observes :—

"Another reason why the report is worse on the face of it this year than last is that the records have been very carefully attended to, and a good deal of appearance has been sacrificed to accuracy. The inspection of Táluka Police records by the Deputy Collectors under your special Circular No. 13, dated 24th September 1881, has had something to say to this, and will have more next year; but it is chiefly due to the trouble taken by the Superintendent to 'nothing extenuate.'

"At the best the general and particular circumstances are such that no very good record could be expected. The force is small compared, not to the population or revenue, but to the enormous area; the only popular part of it is the mounted Police, and the material available is accordingly poor.

"It is also under-officered to the last degree, the Superintendent having about as much work to do as is divided in an equal area in Gujarát, north of the Mahi between 2½ Superintendents and an Assistant (the half Superintendent representing so much time as the Superintendent B. B. and C. I. Railway Police gives to that region; and the Political officers, and those of Native States being left out of the count.)

"The district is bordered on the west by Beluchistan, into which escape is easy, and once effected, conclusive. That I may not be thought to accuse the Political officers there, I may add that exactly the same is true of the Khairpur State; for which I am myself Political Agent, and of the Desert States of Rajputána; on the border-wilderness of which neither the Queen's writ nor that of the Maháraja runs; because the country is practically impenetrable to civilized man."

These as well as some other general reasons named by the District Magistrate are all true enough, but they do not explain the increase of crime in 1880 and 1881. The district has always been its present size and had the same Native States around it. There can, however, be no question that crime has been much more strictly recorded during the last two years than it ever was before, and this accounts for a large part of the increase. While the general unsettling of the minds of the wild border population by the constant rumours of disturbances, and of expeditions for purposes of plunder comparatively near them, and the number of reckless men first attracted by the construction of the "Kandahar State Railway" and the establishment of a Transport Train, &c., and subsequently very suddenly discharged without means of support is quite enough to account for the remainder. It takes time for causes of this kind to disappear, and they were in active operation during the whole of 1881.

Cognizable and Non-Cognizable Crime.

6. The number of cognizable and non-cognizable cases (including cases subsequently struck off) reported during the year, and in the previous year, are shown in the following statement :—

District.	Number of cases reported including struck-off cases.		Persons.						Percentage of conviction to arrests.	
			Arrested.		Convicted.		Acquitted and released.			
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Karáchi	5,672	6,182	6,850	7,726	3,658	4,027	3,114	3,573	53·40	52·12
Hyderabad	6,822	5,018	8,297	7,165	4,500	3,241	3,736	3,700	54·24	45·23
Shikárpur	6,327	7,559	6,709	7,704	3,184	3,557	3,536	4,109	47·45	46·17
Thar and Párkar	889	747	1,132	997	654	507	500	488	57·77	50·85
Upper Sind Frontier	650	745	915	1,032	449	442	454	548	49·07	40·89
Total ..	19,860	20,211	23,903	24,624	12,445	11,754	11,340	12,418	52·06	47·73

7. There was thus a slight increase in the total number of cases. This increase is chiefly due to the larger number of non-cognizable cases in the Karáchi and of cognizable crimes reported in the Shikárpur Districts. It will also be observed that an important increase in the number of persons arrested occurs in these districts. The percentage of convictions to arrests is not so good as could be wished for. These results and the increases noticed above will be found fully discussed further on in the remarks on cognizable and non-cognizable cases.

8. In the foregoing statement both classes of crime, cognizable and non-cognizable, have been shown together; it may be well to show what amount of crime comes under each of these heads and to show also the proportion of each class of crime to area and population:—

Districts.	Years.	Offences reported.		Proportion of Cognizable Crime.		Proportion of Non-cognizable Crime.	
		Cognizable.	Non Cognizable.	To Area.	To Population.	To Area.	To Population.
				Square miles.		Square miles.	
Karáchi	1880	3,551	2,121	1 to 3·97	1 to 134·8	1 to 6·65	1 to 225·6
	1881	3,540	2,642	1 to 3·98	1 to 135·2	1 to 5·34	1 to 181·1
Hyderabad	1880	4,532	1,790	1 to 1·99	1 to 160·5	1 to 5·04	1 to 421·5
	1881	3,467	1,551	1 to 2·64	1 to 217·6	1 to 5·82	1 to 486·5
Thar and Párkar	1880	729	150	1 to 17·46	1 to 278·9	1 to 79·55	1 to 1,270·9
	1881	560	161	1 to 22·49	1 to 359·2	1 to 79·06	1 to 1,262·0
Shikárpur	1880	4,930	1,397	1 to 2·53	1 to 173·0	1 to 7·15	1 to 610·5
	1881	6,176	1,563	1 to 1·67	1 to 138·1	1 to 7·33	1 to 625·8
Upper Sind Frontier	1880	582	68	1 to 3·67	1 to 213·5	1 to 31·4	1 to 1,855·6
	1881	666	79	1 to 3·21	1 to 186·4	1 to 27·0	1 to 1,571·9
Total	1880	14,324	5,536	1 to 3·25	1 to 168·5	1 to 8·67	1 to 436·0
	1881	14,415	5,796	1 to 3·23	1 to 167·4	1 to 8·28	1 to 416·4

9. From the foregoing it will be seen that there has been an increase in both classes of crime; but that the increase in cognizable crime is confined to the Shikárpur and Upper Sind Frontier Districts, as has been already mentioned, while non-cognizable crime shows an increase in the Karáchi, Thár and Párkar, and Upper Sind Frontier Districts.

10. With regard to the proportion of crime to area it is needless to remark, as the circumstances of each district are so different and the area of desert waste varying so much in each, that no fair comparison between the different districts can be made.

11. With regard to the proportion of crime to population the greatest number of cognizable crimes were committed in Karáchi and Shikárpur, and of non-cognizable crimes in Karachi and Hyderabad.

12. In consequence of the recent orders of Government, according to which only cases in which the Police have been employed are shown in Statement A, Part I, instead of *all* cases reported, excepting cases struck off, no comparison can be made between the figures of the present year and those of years previous to 1880. I therefore do not give any details of figures of former years.

Cognizable Crime.

13. The number of cognizable cases and the result of Police operations in their detection are exhibited in the following statement compared with those of the previous year. The figures given for 1880 do not in some instances tally with those in last year's report: the causes of the difference are noted at the foot of the statement.

Notes.—In Column 3 for 1880. Police Superintendent, Hyderabad, omitted to include 582 cases reported under Section 117, Criminal Procedure Code, owing to misapprehension of orders on the subject; the correct figures are now stated to be 833 instead of 251 entered last year.

In Column 4 for 1880. The figures for Hyderabad have been altered from 4,231 to 3,699 owing to above 582 struck off cases having been deducted. The number of cases for Frontier should be 528 instead of 532 shown in statement in para. 11 of last year's report.

14. There has been an increase in the number of cases reported during the year, but also an increase in the number of cases struck off the register as no crime, so that it may be said, presuming the cases have been properly struck off by the Magistrates, that there has been a considerable decrease in cognizable crime, namely, 11,971 cases against 12,536 in the previous year. There has been, excluding struck-off cases,

A decrease in the Karáchi District of			200
Do. Hyderabad do. of			840
Do. Thar and Párkar of			154
			1,194
while there has been an increase in the Shikárpur District of ...		610	
Do. do. do. Upper Sind Frontier ...		19	
		—	629
Giving as net actual decrease of			565 cases.

15. I have already quoted some of the reasons assigned by the District Magistrate of Shikârpur for the increase shown against that district. I may, however, give another extract which refers more particularly to cattle-lifting. He writes :—

"The besetting sin of the district as usual is cattle-lifting. In this the want of success "of the Police is not entirely their own fault. Besides the causes pointed out by the Super- "intendent, the strong tribal organization of society in Upper Sind has some curious effects "in this matter. Comparatively few thefts are committed by clansman on clansman, and "most members of any tribe are ready to serve each other in turn, as harbourers and 'ex- "purgators'. The complainants being well aware of this, frequently accuse not only the real "culprit, but all his clansmen who may be expected to bear witness for him, by way of stop- "ping their mouths, and the result is a chaos of lies, in the face of which the perplexed "Magistrate is obliged to give the accused the benefit of the doubt."

16. Mr. Sinclair also complains of a tendency on the part of the Judge to interfere with sentences passed by Magistrates, if they, to check "the habitual cattle theft which scourges and disgraces this district," impose heavy sentences.

17. The percentages of cases convicted to cases "investigated" shown in the Statement—(Column 8)—is calculated on the number of cases investigated and disposed of *plus* the number pending before Magistrates at the end of last year; but *minus* the number pending at the end of the year of report.

The figures thus obtained include all cases which were investigated, but were afterwards struck off as no offence, as the Police can hardly be held responsible for the results in such cases; a fairer estimate of work done by them can be gathered if all such cases are omitted before a percentage is struck.

18. Percentages struck according to this method for the years 1880 and 1881 are as follows:—

	1880.	1881.
Karáchi	46·61	55·43
Hyderabad	53·08	50·51
Thar and Párkar	52·75	45·25
Shikárpur	33·81	36·10
Frontier	44·50	44·84

19. Except in the Karáchi District where the percentage of cases convicted to cases decided (*see* column 9 of Statement) has increased from 73 to 84, there is a falling off in every district. On the whole, however, the percentage of convictions to cases decided is favourable, and shows that excepting in the Shikárpur District the Police prepared cases sent up to the Magistrates with due care. On the other hand, the percentages of convictions to apprehensions (column 12 of Statement) show that arrests were not made with similar care or discretion. Thar and Párkar, in which the percentage is best, obtained a percentage of 56, the same as last year. Karáchi and Hyderabad come next with percentages of 53 each against 57 and 60 last year. In Shikárpur the percentage is the same as last year, *viz.* 50. The Frontier has declined from 48 to 41.

20. It may be well to examine somewhat more in detail the results obtained in cognizable cases in which arrests have been made, separating those cases in which arrests were made by order of a Magistrate from those made by the Police on their own responsibility; such an inquiry gives the following results:—

Districts	Year.	Number arrested.		Number actually put on trial.		Convicted including persons ordered to give security for good conduct.		Percentage of persons arrested to convicted.		Percentage of persons put on trial convicted.	
		Arrested by Police.	Arrested by order of Magistrate.	Arrested by Police.	Arrested by order of Magistrate.	Arrested by Police.	Arrested by order of Magistrate.	Arrested by Police.	Arrested by order of Magistrate.	Arrested by Police.	Arrested by order of Magistrate.

21. It may be instructive still further to analyze the returns of cognizable crime, and see what forms of crime have been most prevalent. In the following statement are shown the number of cases coming under each of the principal headings. In these figures

Serious offences.

cases struck off the register by Magistrates have not been included. A comparison is also made with the results obtained in the previous year :—

In last year's report, I pointed out that there was a decrease in the number of cases that find a place in this statement, and it is satisfactory to notice that there has again been a very considerable falling off, the decrease being observable under each head except "Murders", "Dacoities", "Vagrancy and bad characters" and "Public and Local Nuisances."

22. The number of murders is large, 3 greater than last year, but this is a species of crime that rarely can be prevented by the Police. There are 6 dacoities against 2 in the previous year and in 5 convictions were obtained. Three of these cases were committed by one gang in the Hyderabad District. This gang was entirely broken up by Major Simpson, who took charge of the office of District Superintendent of Police just as the last of the gang robberies was committed. The members of this gang also committed many robberies, acting separately and created a panic throughout the Hála Táluka. Major Simpson on assuming charge, proceeded at once to the Hála Táluka, assembled the Zamindárs and by judicious action succeeded in restoring confidence and learning the names of the members of the gang, thirteen in all. He immediately arranged for the pursuit of the gang, but the dacoits, when pressed, separated. The Police, however, pursued the principal party, tracked them across the Indus, and on the 7th of June came up with them near the Sonehri hill in the Mánjhánd Táluka; by this time, however, only three remained : these refused to surrender and fired on the Police, who then fired on them. One of the three, the leader of the gang, was shot, and the two others then gave themselves up. By degrees, most of the remaining members of the gang were captured. All of those captured were sent to trial and were sentenced by the Sessions Judge, seven to transportation for life, one to transportation for ten years, and one to rigorous imprisonment for three years, while one, a lad of only fourteen years of age, was sentenced to twenty-four stripes. Thus eleven out of the thirteen were accounted for and the two others are supposed to have left Sind. The fourth gang robbery was only technically a gang robbery owing to the number engaged in it.

23. The number of cattle thefts reported is still very large though smaller than in the previous year, the numbers being 2,607 against 2,871. There has been a marked decrease in this class of crime in the Kárachi, Hyderabad and Thar and Párkar Districts, the number being only 1,636 against 2,000, or a decrease of 364. Unfortunately, as has been already pointed out, there has been an increase in the Shikárpur and Jacobabad Districts. This class of crime has always been lamentably prevalent in Sind, and the difficulties in dealing with

cases of this kind are unusually great. Some of these difficulties I have already pointed out in an extract from a letter from the District Magistrate of Shikárpur. The District Magistrate of Karáchi also thus refers to such cases—

"Cattle theft always stands near the head of the list, and it is known that a large proportion of cattle thefts are not reported, as the persons who lose their animals prefer to recover them, if they can, by an amicable arrangement rather than incur all the trouble and uncertainty of a prosecution. It thus sometimes happens that reports are received after some delay and the difficulty of detection is enhanced, while crime is encouraged. I have, in consultation with the Superintendent of Police, taken some measures in the Ghorábári Táluka and propose to do so elsewhere with the view of enlisting Zamindárs on the side of good order, for much is in their power if they only choose to exert their influence."

The attempt being made to secure the co-operation of the Zamindárs is, if successful, likely to be productive of much good, and I hope next year's report may show that much good has been done.

24. The provisions of Chapter 38 of the Code of Criminal Procedure (security for good behaviour) have been very little worked during the year except in the Shikárpur District, and even in that district they have been comparatively little resorted to. I think more use might, with advantage, be made of them, and attention will be called to the subject. The remaining figures in the statement call for no remarks.

25. I subjoin the usual statements prescribed by Government showing how all cognizable cases were disposed of as well as how all persons accused in them have been dealt with. The figures in this statement differ but little from those already given in paragraph 13; the only difference occurs in column, 2 but additional details are added :—

26. The foregoing statement and tables show a falling off in most respects. The percentage of cases convicted is 37 against 39 last year, while the percentage of persons convicted is 42 against 55. The number of cases struck off shows a considerable increase, 2,444 cases having been so dealt with against 1,788 in the previous year. The number of undetected cases in the Shikárpur District was very large, in the other districts except in Thar and Párkar the figures are better than last year. The number of persons "discharged," compared with the number acquitted, seems to show either that false accusations are very common or that the Police too often arrest on insufficient grounds.

27. It may be well here to note the manner in which the Police have worked Sections 117 and 125 of the Code of Criminal Procedure. It will be observed that the number of cases disposed of under Section 117 has decreased in all but the Shikárpur and Frontier Districts, and that the number of cases disposed of under Section 125 has increased in all except in the Thar and Párkar and Shikárpur Districts. On the whole, the number of cases disposed of under Section 117 shows a decrease of 460 and of cases disposed of under Section 125, an increase of 563. These results are to a great extent due to cases that should have been treated under Section 125 having last year been shown as treated under Section 117. A good deal of confusion seems to have existed everywhere, not in Sind alone, regarding the working of these sections; but there is one broad line of demarcation which is simple and easily comprehended, which I have directed is in future to be followed, namely—that cases that are only reported but not investigated are to be treated under Section 117, and that all investigated cases that are reported for orders should be included under Section 125, whether any accused has actually been arrested or not. The real object of each section may be gathered from the marginal note against it, and even if through there being no accused person named or dicovered, no arrest is made, the cases if investigated by the Police should be reported under Section 125, or confusion is certain to occur.

28. The number of struck-off cases has increased in the Karáchi, Shikárpur and the Frontier Districts, but as under present orders no crime can be struck off the Crime Register without the order of the District, Divisional or First Class Magistrate in charge of the Táluka, on application of the Superintendent of Police, who is required to go carefully into each case before making such application, the increase must be looked upon as indicating a growing habit in these districts of making false complaints. The remedy for this is in the hands of the Police, who by prosecuting the complainants in a few clear cases could put a stop to this state of things.

29. Information in detail regarding the working of this Act will be found in Part II of this Report. It may suffice here to state that, on the whole, the Act has worked well.

Arms Act.

Non-Cognizable Crime.

30. Turning now to the classes of crime not cognizable by the Police, the returns show that the number of such cases has slightly increased (from 5,536 to 5,796). The increase and decrease in this class in each District is as follows :—

Last year I remarked on the increase in the number of non-cognizable cases referred to the Police, and I regret to see that again there is an increase. In

1879 only 279 were thus referred. Magistrates should, as a rule, dispose of such cases without referring them to the Police for investigation. Inquiry is being made why so large a number of cases were referred in the Karáchi, Shikárpur and Frontier Districts, and if it is found that the Magistrates are in the habit of needlessly referring cases to the Police the practice will be checked. The results obtained as regards the number of persons convicted and property recovered in cases referred to the Police are favorable.

PROPERTY STOLEN AND RECOVERED.

The following table shows the value of property stolen in cognizable cases :—

DISTRICTS.	VALUE OF PROPERTY STOLEN.		Value of property recovered.	Percentage of property recovered to property stolen.	Percentage of recoveries in 1880.
	As stated by complainants.	As estimated by Police.			
	Rs.	Rs.	Rs.	Rs.	Rs.
Karáchi	61,286	60,776	39,330	64·14	52·59
Hyderabad	70,628	65,843	35,736	54·27	51·24
Thar and Párkar	14,040	14,040	9,887	70·42	79·05
Shikárpur	1,22,596	1,22,505	57,488	46·89	48·77
Upper Sind Frontier	13,072	12,968	5,076	38·83	61·16
Total ..	2,81,622	2,76,132	1,47,517	53·42	....
In 1880 ..	2,98,285	2,92,352	1,55,537	....	53·19

36. The estimate of the Police of property reported to be stolen, it will be seen, very nearly corresponds with that stated by complainants, which is satisfactory, as showing that they have not endeavoured to conceal losses. The percentage of recoveries in the Frontier and Shikárpur Districts is bad, but this is not altogether the fault of the Police as the thieves escape across the Frontier either into Beluchistan or Jeysulmir or some other Native State, and it is then almost impossible to trace them. Another reason for the low percentage of recoveries in the Frontier District is said by the Deputy Commissioner to be that certain large thefts of ornaments were committed in the town and cantonment of Jacobabad which were never detected. • It is supposed these thefts were committed by the bad characters who infested the country after the Afghan war, and who at once left the country by rail after the commission of the crime and thus escaped discovery.

37. Thar and Párkar, which has succeeded in obtaining the best percentage of recoveries, has however declined fron 79 to 70. Karáchi, which succeeds and Hyderabad which follows it, have both improved. Karáchi has succeeded in recovering 64 and Hyderabad 54 per cent of the property stolen against 52 and 51 per cent. recovered respectively last year.

Strength of Police.

38. The strength of the Police and the proportion it bears to area and population in each District is given below :—

DISTRICTS.	Area in square miles.	Population according to census of 1881.	Strength of Police.	PROPORTION OF POLICE.	
				To Area.	To Population.
Karáchi	14,115	478,688	1,467	1 to 9·62	1 to 326·30
Hyderabad	9,029	754,624	740	1 to 12·20	1 to 1019·76
Thar and Párkar	12,729	203,344	568	1 to 22·41	1 to 357·99
Shikárpur	10,000	852,986	1,162	1 to 8·60	1 to 734·06
Frontier	2,139	124,181	243	1 to 8·95	1 to 511·04
Total ..	48,012	2,413,823	4,180	1 to 11·48	1 to 577·46

39. The above table shows the total number as 4,180, last year the strength given was 4,136. There have been various increases and decreases during the year. Increases amounting to 173 men and decreases numbering 129. The chief part of the increase is due to the inclusion of 100 men, the guard for the Nara Jail Gang, who were not last year included as part of the regular district force, there has also been a slight increase in the number both of the Municipal and Railway Police. The chief decrease has been the reduction of 106 men to provide office establishment for the Chief Constables, an arrangement sanctioned by Government.

40. The sanctioned strength of the force at the close of the year including Superintendents, and the Assistant Superintendent at Karáchi, was 4,184, and was distributed as follows :—

Karáchi District Frontier Force	100
Sind, Delhi and Punjáb Railway	101
Indus Valley State Railway, including branch of Jacobabad ...	220
Jail guards	318
Guards over Lock-ups and Treasuries or escorting prisoners or treasure	575
Employed in Towns, Cantonments...	742
On general Police duties	2,061
Superintendents, and Assistant Superintendents of Police ...	4
Vacancies	63
Total ...	4,184

41. Though the Police of Sind appears to be numerically strong, if compared with police in other parts of the Presidency, it is not so in reality, for everywhere in the Presidency there is some sort of village police, while in Sind there is as yet none. Where Village Police exists a very great proportion of the work is done by them. In Sind, however, the whole work of detection, and repression of crime falls upon the regular police, who not being on the spot when a crime is committed and not having the local knowledge that village police must have, are far less favorably situated for the detection of crime. Under these circumstances I consider the results obtained, except in the Shikárpur and Upper Sind Frontier Districts, are on the whole fairly good.

Railway Police.

42. The force of Railway Police is divided into two parts: that employed on the Sind, Punjáb and Delhi Railway and that on the State Railway. The force in Lower Sind is said to have worked well, but the Superintendent of Police and Officers of the Railway in Upper Sind concur in stating that the present force is far too weak to perform the duties expected of it in a satisfactory manner. The Superintendent of Police, Karáchi, reports that a good deal of trouble was given by pick-pockets who travelled up and down the line. One of the most notorious of this class was caught and convicted. The Superintendent of Police, Shikárpur, complains that he cannot get men to serve as Police on the Railway as the work is too continuous and hard, also that men of the stamp required cannot be induced to enlist, so he has been obliged to try such men as he could get, the result being, to quote his own works, "that if the Railway subordinates do not pilfer goods the policemen do." He states that many thefts are committed by men employed on the Railway. In some cases regular organized systems of plundering were discovered and the parties concerned prosecuted; but besides this he says, "The Railway authorities take on a great many men as grease-men, porters, or pointsmen, who are bad characters, and these men working with their friends living in the neighbouring villages make away with anything they can lay their hands on." He likewise complains that the subordinates of the Police and Railway do not work very cordially together. This is hardly to be wondered at: the Railway was hurriedly opened for traffic and the lower staff were not well trained, while the police also were new to Railway work. With time and a little patience I hope better results may be looked for, but the police force is too weak even to give really good results, while the work, owing to the break at Sukkur-Rohri, is as heavy as it now is.

Frontier Police.

43. This force has worked well under considerable difficulties, and both Mr. Giertzen and Major Simpson have been satisfied with it. The District Magistrate also considers "the work done creditable."

44. The following is the number of summonses, notices, &c., made over to the police for service :—

	1880.	1881.
Karáchi	15,170	16,349
Hyderabad	16,172	15,643
Thar and Párkar...	1,607	1,429
Shikárpur	18,097	17,348
Frontier	797	62

45. Education in the police force continues sadly backward. The following statement shows the number of men in each District who can read and write:—

Education in the Police force.

Districts.	Number of Men.	Able to Read and Write.		Percentage.
		Officers.	Men.	
Karáchi	1,467	46	97	9
Hyderabad	740	55	108	22
Thar and Párkar	568	13	53	11
Shikárpur	1,162	82	115	17
Frontier	243	7	13	8
Total ..	4,180	203	386	14
In 1880 ..	4,029	178	453	15

46. The slight decrease observable is due to a certain number of men who could read and write, and who were, though borne on the strength of the Police, employed as Munshis, having been struck off the force on the introduction of the new system of keeping accounts.

47. The work of drilling the police has been attended to, and some progress made, but much still remains to be done. It is represented and not without reason that it is very difficult to give effect to the orders of Government on this subject. In the first place the police is hardly sufficient to carry on the work which has to be done, and the men cannot be detached from duty, or got together in sufficient numbers for any reasonable length of time to learn drill. Besides this the ordinary Sindhi, who alone will take service in the Police, has the greatest possible dislike to learn drill, and as a rule declines to serve in the armed police. To such an extent is this the case that Superintendents have, with the exception of the Thar and Párkar District Superintendent, found it impossible to keep up the Police to the proper strength, and have been compelled to enrol Pardeshis, who are of little use except for regular guards. This difficulty in procuring good men for the Police is becoming a very serious one, and is one that I see has been almost equally felt in the adjoining districts in the Punjab.

Drill.

48. The subjoined statement shows the number of men who have been put through a course of drill:—

Districts.	Manual and Platoon Drill.	Company Drill.	Light Infantry Drill.	Guard and Sentry Duty.	Ball Practice.	Total number of men more or less instructed.	Total number of Foot Police.	Percentage of men instructed of the total Foot Police.
	1	2	3	4	5	6	7	8
Karáchi	225	225	225	225	225	264	1,110	23·00
Hyderabad	295	179	179	236	..	295	581	50·00
Thar and Párkar	53	169	24	21	30	297	564	52·
Shikárpur	212	212	212	212	..	212	925	22·
Frontier	..	..	..	..	..	..	113	..
Total ..	785	785	640	694	255	1,068	3,293	32·

49. It will be observed from the above that very little has been done in the way of ball practice, but now that better weapons are being supplied, I hope it may be found possible to introduce more regular instruction in this necessary part of their drill.

50. The number of suicides and accidental deaths that have been reported during the year are given below, compared with those of last year:—

Suicides and Accidental Deaths.

Districts.	Suicides.		Accidental Deaths.	
	1880.	1881.	880.	1881.
Karáchi	9	12	286	286
Hyderabad	10	19	426	427
Thar and Párkar	1	1	79	78
Shikárpur	19	14	308	289
Frontier	..	1	25	36
Total ..	39	47	1,124	1,116

51. The number of suicides has slightly increased and of accidental deaths decreased. The figures call for no special remarks. Fuller details will be found in Part II.

Personal investigation of serious crime.

52. The number of serious cases visited by the Superintendents of Police is shown in the statement given below :—

Districts.	Cases entered in Returns.		Number visited at once.		Number visited after some days.		Number not visited.		Percentage of Cases entered to Cases visited.	
	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.	1880.	1881.
Karáchi	24	20	12	4	8	2	9	14	62·5	30·00
Assistant Superintendent of Police, Karáchi ..	12	5	12	5	..	..	..	..	100	100·00
Hyderabad	24	25	14	10	4	1	6	14	75·00	44·00
Shikárpur	32	41	10	10	12	1	10	30	68·75	26·83

53. This return is not satisfactory, but it is partly accounted for by the changes in the personnel of the Superintendents, and to the office of Superintendent being held both in the Hyderabad and Shikárpur District for a part of the year by officers with other duties to attend to. The reasons assigned by the Superintendents for not visiting the scene of a larger number of crimes are that in many instances the accused were at once arrested or that when they received the report they were too far away from the scene of crime to go to it. The Districts in Sind are so large, and the distances consequently so great that the Superintendents have unusual difficulties to contend against. Still I am not prepared to admit that the mere fact that it is reported that the criminal has been arrested is by any means a sufficient reason in every case for the Superintendent not going to the scene of a crime. In some cases the Superintendent's presence may not be necessary, as when a murderer is arrested red-handed or a thief caught with the property in his possession just after the commission of the offence; but the mere fact that some accused person has been arrested should not I think deter a Superintendent from visiting the scene of a crime, as many cases fail through the ignorance or carelessness of the Police in preparing them, and getting together the necessary evidence. It is true that for a part of the year in Sind the heat is so intense, and the hot winds so trying, that it is almost impossible for Europeans to move about, but even taking this fact into consideration the results reported are disappointing. In like manner enough was not done during the year in the matter of inspecting outposts, a very important duty. The attention of the Superintendents have been called to these points.

General supervision.

54. But although there has been some neglect in the points just named, I am glad to be able to state that the Superintendents have as a rule exerted themselves. Major Simpson, as I have already mentioned, showed great activity in breaking up, and apprehending the gang of dacoits, while Mr. Vincent, since he took charge of the Hyderabad Police, has laboured most anxiously to improve their condition, and is I hope succeeding. Mr. Gibbs at Shikárpur has really been overworked, but has never spared himself, and the District Magistrate reports that he has done much to improve the force. I have pointed out defects, where I thought they existed; but I do not wish it to be thought that I blame any of the Superintendents: they have all, I believe, worked well.

I have the honour to be,
Right Honourable Sir,
Your most obedient Servant,
H. N. B. ERSKINE,
Commissioner in Sind.

B 275—4 SIND

PART II.

PRE'CIS OF THE POLICE SUPERINTENDENTS' REPORTS.

KARA'CHI.

1.	Area in square miles	14,115
	Population	478,688
	Strength of District Police on 31st December 1881	1,138
	Extra District Police (Municipal)	56
	Railway Police	173
	Frontier Police	100
	Police to Area	...1 to 9·50
	Police to Population	...1 to 324·97

2. *Superintendent of Police.*—Major Simpson was in charge of the District from 1st January to 19th May, and again from 29th November to 31st December. Mr. Giertzen was in charge during the interim.

Assistant Superintendent of Police.—Mr. H. L. Evezard acted as Assistant Superintendent of Police from 1st January to 23rd June and Mr. F. C. Jones from 24th June to 31st December.

Conduct of the Police.

3. There has been, to judge from figures, no improvement in the conduct of the Police: 4 officers and 28 men were punished judicially against 2 officers and 25 men last year, and 32 officers and 249 men were departmentally punished against 72 and 232 last year. But so far as cases have come before the Commissioner, the Police seem to him to have worked better and fewer serious charges of neglect of duty have been preferred. The Superintendent himself remarks that "the working of the Police during the year has been satisfactory on the whole."

Education.

4. Forty-five officers and 93 men can read and write an intelligible report in Sindhi, and 5 officers can read and write English. In last year's report 135 men were put down as being able to read and write, but since then through the introduction of the new system of keeping Police accounts, 27 educated men, who were formerly borne on the strength of the Police, have been removed from the force and classed as Munshis. Education is still lamentably backward in the force.

Drill.

5. The armed Police consisting of 350 men have all gone through a course of drill. The men of the District Police are also instructed to a certain extent on joining and are more efficient than they were last year, when 238 men went through their drill.

Rewards.

6. No rewards were given this year, nor were any promotions given for special meritorious conduct.

Fluctuation of Crime.

7. The number of reported cases, including those subsequently struck off, was 3,540, and deducting struck off cases the number was 2,856 cognizable cases against 3,056, such cases last year showing a decrease of 200 in the number of true cases reported :—

	1880.	1881.
Cognizable cases	3,056	2,856
Struck off cases	495	684
Reported in previous year but inquired into during year ..	33	26
Total ..	3,584	3,566

8. The amount of property stolen last year was Rs. 97,711, this year it was only 61,286. In 1,722 cases property was lost and in 1,307 cases the property was more or less recovered. Last year the number of cases in which property was stolen, and the number of cases in which it was recovered were 1,946 and 1,299 respectively.

9. There is thus an improvement in the results obtained. The percentage of convictions to cases decided is 84·97 against 73·81 last year, but there is a

slight falling off in the percentage of persons convicted to persons arrested. Last year the percentage was 57·64, this year it is 52·49. The percentage of persons convicted to persons brought to trial is 87·59 against 88·61 last year. The percentage of recoveries of stolen property is 64·14 against 52·59 in the previous year.

Undetected cases of previous years.

10. Only one case of 1879 of ordinary theft was detected. The prisoner was convicted, and property value Rs. 20 recovered. Of 30 cases of 1880, which the Police took up, 12 cases were disposed of under Section 125 of the Criminal Procedure Code. Of the balance convictions were obtained in 9 cases, and of 26 persons supposed to have been concerned, 7 were convicted. The property stated to have been lost in these cases was Rs. 24,858, of which Rs. 2,013 were recovered. There are still 679 undetected cases of 1880 and the Police have been directed not to lose sight of them.

Murders.

11. Seven cases of murder were investigated this year against 9 last year. Of this year's cases—

2 resulted from jealousy, or intrigue.
3 do. from avarice.
2 do. from other causes.

7

Of these 7 cases one was afterwards found to have resulted from the accidental discharge of a gun whereby a woman was killed and her husband wounded. A second case was said to be a case of child poisoning by an Ayah, but on the entrails, &c., being examined by the Chemical Analyser no traces of poison were found, and it was believed that no murder had been committed. This case was struck off the crime register. The remaining 5 cases were disposed of as follows:—

2 convicted and the accused hanged.
1 acquitted by Sessions Court.
1 discharged by Divisional Magistrate.
1 accused pronounced insane by Sessions Court.

The last case was disposed of after the close of the year under review.

Culpable homicide.

12. There were 2 cases of culpable homicide. One of these was disposed of under Section 352, Indian Penal Code, after the close of the year under report. In the other case, which was disposed of during the year, the accused was sentenced to transportation for 7 years.

Dacoity.

13. There was only one case of dacoity which occurred at Karáchi. Ten men broke into a house in the garden quarter. Nine men were arrested of whom 5 were committed to the Sessions Court, where they were acquitted.

Highway robbery.

14. There were 6 cases of highway robbery during the year. Of these convictions were obtained in 4. Thirteen men were arrested and 8 convicted. The property lost was Rs. 1,318 and recovered Rs. 265. Of these there was only one large case in which Rs. 1,006 were lost.

Arms Act.

15. There are 30 licensed shops for the sale of arms and ammunition in the district, 25 of these are in the town of Karáchi. The books and premises of most of these shops have been inspected by the Police Superintendent or his Assistant. The Inspectors have also inspected the shops quarterly and sent in reports about them. There were 406 licenses of all kinds under the Arms Act granted during the year.

Suicide.

16. There were 12 cases of suicide, 8 men and 4 women, of which 8 were by hanging, 1 by drowning and 3 from other causes.

Accidental Deaths.

17. There were 286 cases against the same number in the previous year, *viz.* :—

	Male.	Female.
Drowning	67	44
Snake-bites	68	24
Wild beasts	5	2
Other means	59	17
	199	87
Total...	286	

Losses by fire and water.

18. There were 157 fires this year against 182 last year. Property worth Rs. 14,775 was destroyed. Fifteen boats carrying property to the extent of Rs. 6,235 were also lost.

Police buildings.

19. Rupees 1,866 were provided in the Police Budget for petty construction and repairs of which Rs. 1,777-12-0 were spent. The expenditure incurred by the Public Works Department was Rs. 2,354-14-7. Two new barracks were under construction during the year through the agency of the Public Works Department, *viz.* :—lines at Sujawal, and a barrack for the armed police at Karáchi, for which Government has sanctioned Rs. 4,418. The Superintendent expresses a hope that Government will soon be able to sanction funds to build lines for all the men at headquarters at Karáchi. Two new thánas were constructed departmentally, one at Kurrumpore at a cost of Rs. 100, and the other a kutcha landi at Thatti at a cost of Rs. 10.

Mounted Police Fund.

20. During the year 7 horses and 9 camels died, and 8 horses and 10 camels were cast. The cost to the fund of meeting these casualties was Rs. 2,969-0-10. The balance at the end of the year was Rs. 12,683-13-1. The fund is consequently in a solvent state.

Police Superintendent's tour.

21. The number of Police posts visited during the season was 127.

Examination of Accounts.

22. All the Chief Constables' records and accounts were inspected by the Superintendent. The new account forms were introduced on the 1st April last and they are now kept in good order.

Books.

23. The books belonging to the Superintendent's Library have all been catalogued and they are all in good condition.

Serious crime visited.

24. The Superintendent visited personally the scene of 6 and the Assistant Superintendent that of 5 serious offences.

26. *Superintendent of Police.*—Mr. C. McIver was in charge of the office of Superintendent of Police from 1st January to 30th April; Mr. Mules (Deputy Collector) from 1st May to 24th May; Major Simpson from 25th May to 22nd November; Mr. Bolton (Deputy Collector) from 23rd November to 28th November, and Mr. R. H. Vincent from 29th to end of the year.

27. There has been, as will presently be shown, a great decrease in crime during the year; this was only what was to be expected under the influence of good seasons and low prices as the amount of crime for two or three years had been abnormally high. The action of the Police can hardly be said to have contributed very much towards this result. The Superintendent complains that it is almost impossible to get any men to serve in the Police force, and quite impossible to get Sindhis, who dislike the restraint and dread the drill. Still he remarks that during the year the Police have worked as well as usual, and in some cases have done very good service; but the following details show that punishments have been numerous:—

Conduct of the Police.

Convicted and punished under Police Act...	...	1 officer, 3 men.
Do. do. Penal Code	...	7 men.
Fined departmentally	...	10 officers, 97 men.
Dismissed	...	28 men.

Some minor punishments, such as extra drill, were also inflicted. Seven men of the force deserted during the year.

28. Fifty-five officers and 108 men can read and write fairly; the rest 61 officers and 516 men are quite illiterate.

Education.

29. One hundred and eighty-one men were were put through a course of drill during the past year. Of these 144 belonged to the foot police and 37 men to the mounted branch. The Superintendent remarks:—

Drill.

"The instruction given to the former is I think sufficient, but in the mounted police the progress made is very unsatisfactory. There are not a dozen men out of the 116 mounted constables who can ride in any other way but the ordinary amble of Sind, and I do not think that either a single horse or sowar has been trained so as to enable the man to make use of his weapons on horseback. As good horsemanship is not at all incompatible with good policemanship, I shall endeavour to rectify this state of things as far as the exigencies of the service permit."

30. No money rewards were given to any member of the Police, but one Chief Constable, Sajan Khan valad Sataba Khan, was promoted in January 1882 for good service rendered in connection with a dacoity case, which occurred in Hála in June 1881.

Rewards.

31. The number of cognizable cases reported during the year, and the number reported in previous years but brought under enquiry during the year, are as follows:—

Fluctuation of crime.

	1880.	1881.
Cognizable cases ...	3,699	2,859
Struck off cases ...	833	608
Reported in previous years but inquired into during the year	177	108
	4,709	3,575

The figures entered for 1880 differ from those given last year. The Superintendent having discovered that some struck off cases had not been shown as such.

From the above it will be seen that there is a decrease of 1,404 in the cases retained on the register, and an increase of 339 cases in the number struck off altogether. The percentage of recoveries of stolen property is 50·59 against 50·38 in the previous year.

32. The Superintendent remarks that increase is very noticeable in serious and minor offences against the person, often combined with theft. Decrease in offences against property alone, and in offences punishable under local, special and municipal laws. The increase in minor offences against the person is not a result for which the Police can be blamed.

Undetected cases of previous years.

33. The following shows the result of undetected cases of cognizable crime for the years 1879 and 1880 :—

	1879.	1880.
Undetected cases	1,214	1,019
Investigated cases	6	19
Convicted cases	4	12
Percentage of cases undetected, investigated .	0·4	1·8
Percentage of cases investigated, convicted ...	66·6	63·1

Murders.

34. During the year seventeen charges of murder and 2 of attempt at murder came under investigation. Two of the former were found to be false, and were reported under Section 125 of the Criminal Procedure Code, leaving 15 murders and two attempts to be accounted for. These may be classed as follows :—

From intrigue and jealousy	8 cases.
„ revenge	3 do.
„ avarice or plunder	2 do.
„ other causes	4 do.
	17

36. Convictions were obtained in 11 cases; in one case the accused were acquitted by the Sessions Court, two cases remained undetected, and one was pending at the end of the year, but has since been disposed of by the conviction of the accused in the Sessions Court. In both cases of attempt at murder the accused were convicted.

36. The following details of certain murder cases, which present features of more than ordinary interest, are thus described by the Superintendent—

"Two persons induced a prostitute to accompany them to the jungle. They took her to the banks of the Indus, killed her with an axe, and after robbing her of the ornaments she wore on her person threw the body into the river. The two murderers were arrested, and most of the property recovered from them; but as the *corpus delicti* could not be found they were acquitted by the Sessions Court.

"A party of prisoners escorted by police came across a man carrying arms. Being asked by the officer commanding the escort to produce his license, he became turbulent and shot one of the escort. This man was a deserter from the First Sind Horse. He was arrested, and sentenced to death.

"There is one case of suspected murder that has as yet entirely baffled the police. One Gopaldas, who was greatly disliked on account of his harshness to his debtors, and intrigues with women, suddenly disappeared with his servant on the 4th of April, from which date nothing has been heard of either of them. It is stated that on the day he disappeared he had started in the company of his servant, who generally acted as his procurer, in pursuance of an assignation to meet a woman named Soni. No clue has been found respecting these men, and the presumption is that they have been murdered. The other cases, and two attempts at murder were of the ordinary kind, chiefly arising from intrigues with women."

Culpable homicide.

37. Of the two cases of culpable homicide one remained undetected. The other was pending at the end of the year, but the accused has since been convicted.

Dacoities.

38. There were four cases of dacoity during the year, of which three were real dacoities and the fourth only technically so, owing to the number concerned in it. The three regular dacoities were committed by a gang in the Hála Táluka. This gang on the first occasion consisted of 8 persons, four armed with swords, one with a pistol and three with bludgeons. The Superintendent of Police thus describes their attacks :—

"In the first case, which happened on the night of the 11th March 1881, a Bania, an inhabitant of Amin Lakha, was aroused out of his sleep, and saw in the compound of his house 8 persons of whom 4 were armed with swords, 1 with a pistol, and 3 with bludgeons; these men, after overpowering a private watchman, tried to effect an entrance into the house, in which they were not successful.

"Meanwhile the neighbours were aroused, and assembled at a distance from where they viewed the proceedings of the robbers with total indifference, and the latter after firing a couple of blank cartridges moved off without doing any further mischief, but coming across two villagers in a lane they attacked and wounded them with their swords, after which they proceeded unmolested to another village, where they robbed a Bania of property valued at Rs. 21-10-0. One of these 8 men was subsequently arrested, and sentenced to transportation for life.

"The same gang on the night of the 24th May 1881 entered, to the number of 10 and all armed, the village of Amin Lakha, and more successful than in their first visits on the 11th March 1881, they robbed the same Bania of valuables estimated by him at no less than Rs. 6,000, which undoubtedly was exaggerated.

"Again the same gang, numbering seven this time, entered the village of Purana Saidabad on the night of the 25th May 1881, and breaking into the house of a Bania, robbed him of property valued at Rs. 60, and this time also they proceeded unmolested on their way."

39. The last outrage by the gang took place on the day Major Simpson took charge of the office of Superintendent, and he at once proceeded to Hála, assembled the Zamindárs and took steps to effect the capture of the gang, which apparently had created quite a panic. The gang was followed up, tracked across the river Indus, and found by a party of police sent in pursuit on the 7th June. The gang had, however, broken up and only three were discovered; these showed fight, and fired at the police (having obtained guns during their plundering), the fire was returned, when one man fell and the others were seized. The man who had been shot proved to be the leader named Bocha Icho. By degrees most of the other members of the gang were captured and tried and were convicted and sentenced as follows:—

Seven to transportation for life;
One do. for 10 years;
One rigorous imprisonment, 3 years;
One 25 stripes (a boy of 14).

Thus the gang was effectually broken up.

40. The fourth dacoity was remarked as being committed by 12 prisoners belonging to an extramural gang employed in clearing a canal. The Superintendent thus describes the occurrence:—

"A Bania crossing the bridge near where these convicts were at work excited their cupidity at a moment when the warders were not in close attendance. The prisoners at once fell on him, and possessed themselves of his goods consisting of vegetables, &c., valued at Rs. 8. The Bania shouted for help and the prisoners were caught redhanded. All of them were convicted and sentenced to 5 years' rigorous imprisonment each."

Highway robbery.

41. Eleven cases of highway robbery were reported during the year. Of these convictions were obtained in four cases, in one case the accused was acquitted; one case remains undetected, and five cases were reported under section 125 of the Criminal Procedure Code.

Arms Act.

42. There are 19 licensed shops in the district; all of these were inspected by the Inspectors and three of them by the Police Superintendent himself. Six hundred and seventy-five licenses were granted during the year, 19 for manufacturing and selling arms, and the rest for carying arms.

43. Fifteen prosecutions were instituted, in 12 of which convictions were obtained.

Suicides.

44. There were 19 cases of suicides, 1 from drowning, 16 from hanging, and 2 from other causes.

Accidental Deaths.

45. There were 427 cases of accidental deaths:—

	Men.	Women.	Children.	Total.
Drowning	29	98	24	151
Snake-bites	65	105	15	185
Wild beasts	...	6	1	7
Other causes	65	8	11	84
Total ...	159	217	51	427

46. Fifty-six fires occurred. The losses therefrom, attended with the loss of one life, amounted to Rs. 2,844-12-0. The sinking of 7 boats occasioned a loss of about Rs. 6,456.

Losses by fire on the Indus.

47. The sum of Rs. 1,196-11-1 was expended departmentally out of a Budget allotment of Rs. 1,200 in repairing minor Police stations, and a further sum of Rs. 1,105-14-8 was expended by the Public Works Department in repairing the principal thánás.

Police Buildings.

The Police are well accommodated, and there is no need of further accommodation except in the thána of Kharwah, which requires to be re-built entirely.

48. Rupees 4,116-7-2 were expended during 1881 in purchasing remounts and a balance of Rs. 15,372-11-6 stood to the credit of the Fund on the 31st December 1881. The Police Superintendent states :—

Mounted Police Fund.

"I have separately brought to your notice the great difficulty that has been experienced in obtaining remount horses, and I hope Government will see fit to supply 4 stallions for this district, which are much needed to arrest the degeneration in horses which I could not help observing on my return to Sind."

Two stallions have, since the above was written, been provided, and placed under the charge of the Superintendent of Police.

49. Of the 85 police posts, 39 were visited by the several officers in charge. It is no doubt due to the frequent changes during the year that more posts were not inspected.

Police Superintendent's tour.

50. The offices and accounts of 7 Chief Constables were examined during the year. The Superintendent reports that "the result is not very favorable in my opinion, and I do not think that the system of having separate Munshis for the thánás will work well. The men receive 12 and 10 rupees per mensem, and it is not in my opinion possible to get on the salary of an ordinary labourer, or syce, persons up to the work which I am compelled to demand of them."

Examination of Accounts.

51. On the other hand, the District Magistrate who inspected 17 thánás considered that the returns, &c. were well kept, and "the procedure of most of the Thánádárs exhibited improvement." The change made is certainly one in the right direction.

52. The Superintendent visited personally the scene of ten serious crimes, starting without delay; he has explained satisfactorily why other cases were not visited, either because he was engaged in investigating another case, or because news of the crime and of the capture of the criminals reached him simultaneously.

54. Major R. I. Crawford was in charge for the entire period under report.

55. The year was a prosperous one, which as usual reacts on the criminal classes and there has been a decrease of crime. Major Crawford explains that "the rainfall was abundunt, the crops good and food grains cheap."

56. Strength of the Police exceeds that shown last year by 80; this is because the Police employed with the Nára gang of convicts is now part of the regular police.

Strength of Police.

57. There has been a marked improvement in the conduct of the Police during the past year. Twelve men were punished judicially (8 for negligently allowing the escape of prisoners, 3 for petty assaults, and one for neglect of duty) as compared with 3 officers and 36 men last year. Twelve officers and 41 men were punished departmentally against 20 officers and 104 men in the previous year. One Constable of the armed police, a Pardeshi, deserted during the year.

Conduct of the force.

58. Education is sadly backward; only 13 officers and 53 men are shown as being able to read and write an intelligible report; showing a falling off as compared with 1880, when the numbers were 16 officers and 60 men. The cause of this falling off has not been explained.

Education.

59. Two hundred and ninety-seven men were put through a course of drill against 217 in the previous year. There are 8 qualified Drill Instructors, 6 in the Mounted and 2 in the Foot Police, and some progress has been made during the year. There has been no ball practice, but as soon as the new arms are supplied this will be commenced.

Drill.

60. Several captures of contraband opium were made by the Police, assisted by officers of the Salt Department during the year. The First Class Magistrate by whom the cases were tried, granted the whole of the amounts awarded as fines, together with the value of the confiscated opium, and articles seized therewith as rewards, Rs. 118-3-7 falling to the share of the Police.

Rewards.

Fluctuations in Crime.

61. The following figures for two years show the fluctuations in cognizable crime:—

	1880.	1881.
Cognizable cases	620	466
Struck-off cases	109	100
Reported in previous year, but inquired into during the year	31	12
	760	578

This shows a decrease of 154 cases in the number retained on the register, and of 9 cases in the number struck off altogether. The percentage of cases convicted to cases decided has fallen from 76·45 in 1880 to 71·05 in 1881, and that of convictions to arrests from 57·92 to 56·79. The percentage of recoveries of stolen property is 70·42 against 79·05.

62. From 1879, there remained 198 undetected cases, viz., 30 of house-breaking, 167 of theft, and one of lurking house-trespass, and all remained undiscovered. The same must be said of the undetected cases of 1880, of which there were 91, viz., 13 of house-breaking, 75 of theft and 3 of other offences. These figures show that unless a clue is gained very shortly after an offence is committed, there is very little chance of the Police detecting it subsequently.

Undetected cases of previous years.

63. There was only one case of murder resulting from the murdered man being detected carrying on an intrigue with a woman. The accused was convicted by the Session Court, and sentenced to be hanged. The sentence was commuted by the Sadar Court to transportation for life.

Murder.

64. There was one case of dacoity during the year. Six persons were arrested, 2 of whom were convicted and the rest discharged for want of proof.

Dacoity.

Highway robbery.

65. Three cases of highway robbery were reported during the year, of which one was struck off as no crime.

66. There are two licensed shops in the district, one at Khipra, and the other at Nabisar. Both shops were inspected by the 2nd Class Magistrate, once by the Inspector and once by the Deputy Commissioner.

Arms Act.

Three hundred and ninety licenses were granted during the year against 231 in the previous year, as follows:—

For sporting	258
„ protection	57
„ journey	73
„ mere possession	2
	390

Five prosecutions were instituted, and of 6 persons concerned 5 were convicted and 1 discharged.

Seven arms were confiscated during the year.

Suicides.

67. Only one case of suicide was reported during the year.

Accidental Deaths.

68. There were 78 accidental deaths against 79 in the previous year, viz.,

	Males.	Females.
Drowning	13	4
Snake-bites	29	9
Wild beasts	3	...
By other means	13	7
	58	20

The decrease of 10 in the number of deaths from drowning is due to the absence of floods.

Losses by fire.

69. There were 53 fires reported, all accidental, the loss of property being estimated at Rs. 1,239-14-9.

Police Buildings.

70. These are all said to be in good order, except one at Berani, which is said to be in a ruinous condition owing to the heavy rains last year. The building is in charge of the Public Works Department. The Superintendent again complains of the want of lines for the Police at Head-quarters.

Mounted Police Fund.

71. A sum of Rs. 8,191-6-3 has been expended in purchasing camels and horses. This expenditure is within receipts by Rs. 1,360-14-3 ; the assets of the fund have therefore increased, the closing balance being Rs. 15,712-15-0 against Rs. 13,282-3-0 in the preceding year. Of this amount Rs. 11,000 are invested in Government paper and Rs. 2,485-13-10 are in the Savings Bank. The year has been a good one for the police horses and camels. Thirty-nine animals died against 68 in 1880.

Police Superintendent's tour.

72. Out of 113 thánás, 59 were visited by the Deputy Commissioner. The smallness of inspection is ascribed by the Deputy Commissioner owing to his having been obliged to remain at Umarkot for a long time on account of Census operations.

Examination of Chief Constables' accounts.

73. The records and accounts of 8 out of nine Chief Constables were examined. The accounts were kept in the new forms.

75. Mr. Gibbs was in charge throughout the year, except for a few days (from 28th March to 9th April), when Colonel Ross, the District Magistrate, took temporary charge.

76. The general results of the year are anything but encouraging; in spite of a good season and low prices crime has increased, and very considerably, so far as records show; but it may be doubted if the real increase has been anything like that exhibited. The District Magistrate remarks: "Another reason why the report is worse on the face of it this year than last is that the records have been very carefully attended to, and a good deal of appearance has been sacrificed to accuracy. The inspection of Táluka Police records by the Deputy Collectors under your special Circular No. 13, dated 24th September 1881, has had something to say to this, and will have more next year; but it is chiefly due to the trouble taken by the Superintendent to 'nothing extenuate.'

This no doubt is to a certain extent a correct explanation, for the Commissioner was satisfied from inquiry that for years many offences in some outlying districts were never reported to the Police at all; but even admitting this as one cause, there can be no question that crime has been very prevalent, and that the Police have not been successful in spite of the exertions of the present Acting Superintendent, Mr. Gibbs, who has done much to improve the force. The material of which the force is composed is not good and their behaviour has not given satisfaction.

Conduct of the force.

77. During the year 32 officers and 186 men were punished departmentally against 18 officers and 139 men in the previous year, and 2 officers and 36 men were punished judicially against 24 men last year.

Education.

78. The number of men who can read and write was 82 officers out of 145 and 115 men out of 994 against 82 officers and 118 men in 1880.

Drill.

79. Twenty-two officers and 190 men were put through a course of drill during the year.

Reward.

80. A special reward of Rs. 50 was awarded to Gul Muhammad valad Sobdar, mounted constable of the Shikárpur Horse Police, as well as an extraordinary pension of Rs. 10 per mensem for his gallant conduct in arresting two desperate and armed criminals who had escaped from the Sukkur Jail. Gul Muhammad obtained information that these men had taken up their quarters in a certain jungle, and proceeded thither with some Zamindárs armed only with sticks, he himself having his sword. The escaped convicts when discovered showed fight, and on Gul Muhammad advancing they attacked him furiously. He behaved very pluckily and was badly wounded, his left hand being cut off, and several other severe wounds, sword-cuts being inflicted. The Zamindárs who at first hung back coming to his aid the convicts were secured. Three of the Zamindárs were also wounded, but not dangerously. No promotions were given this year for specially meritorious conduct.

Fluctuation of crime.

81. The total number of cognizable offences reported during the year was 6,176 against 4,930 in the previous year; 6,068 cases were investigated by the Police during the year. Of these convictions were obtained in 1,901 cases, or 31·32 per cent. against 32·22 in 1880.

82. The amount of property stolen during the year was Rs. 1,22,596 against 87,309 in the previous year. The recoveries amounted to Rs. 57,480 against 42,588 in the last year.

Undetected cases of previous years.

83. Little has been done in the matter of this class of cases. The total number of undetected cases at the close of 1879 and 1880 was 792 and 1,494 respectively, of which only two were investigated, one of the year 1879 was sent for trial, and a conviction obtained, while the other was found to have been a false complaint, and was struck off the crime register as no offence.

84. The number of murders, as usual, was very large. There were 18 cases against 20 in the previous year, but 2 of the previous year's cases were inquired into and disposed of during the year under report. Of this year's cases—

Murders.

12 resulted from jealousy, or intrigue with women.
1 from avarice or plunder;
5 from other causes.

In 8 cases the accused were convicted, in 6 discharged by the Magistrates who inquired into the cases, one case was held to be no murder and was reported under Section 125 of the Code of Criminal Procedure, and struck off the crime register by order of Magistrate, one remained altogether untraced, two were pending at the close of the year. Of the two cases of the previous year, one was discharged by the Magistrate, and in the other case the accused died after committal to the Sessions.

85. There were 5 cases of culpable homicide reported against 3 in the previous year. All the 5 were disposed of during the year as under:—

Culpable Homicide.

Convicted	4
Discharged	1
	5

86. There were 5 cases of highway robbery against 8 in the previous year. Four remained undetected at the end of the year, and in one a conviction was obtained. There is perhaps no crime more difficult of detection than highway robbery in a country like Sind in which in many localities the country is covered with a dense scrub jungle, and in which, too, villages are very far apart.

Highway Robbery.

87. Cattle thefts may be said to constitute the chief offence in Upper Sind; the people do not look upon such thefts in the same light as ordinary thefts, and the facilities for disposing of stolen cattle are great. This class of thefts, as the following figures show, seems greatly on the increase.

Cattle theft.

Cases investigated during—

1878.	1879.	1880.	1881.	Average of 4 years.
440	519	831	980	692¼

There can be no question that when cattle merely stray and are lost for a time that complaints of theft are often preferred; still there can be no question that the number of such cases is painfully large. The percentage of cases in which convictions were obtained to cases decided stands as follows:—

1878.	1879.	1880.	1881.
75·07	72·83	69·21	59·08

The number and percentage of persons arrested, brought to trial, and convicted were as under:—

	1878.	1879.	1880.	1881.	Average.
Arrested	541	603	693	745	646¼
Brought to trial	407	464	437	500	452
Convictions to arrests	59·70	64·14	53·53	47·91	56·32
Convictions to brought to trial	79·36	84·05	84·89	71·40	79·92

The value of cattle stolen and percentage of recoveries stood as follows :—

Year.	Value of Cattle stolen.	Value recovered.	Percentage of Recoveries.
	Rs.	Rs.	
1878	12,585	10,745	85·37
1879	17,424	13,942	80·01
1880	20,023	17,130	85·55
1881	27,120	18,006	66·34

The percentage of recoveries this year is very bad, but at the same time the value of cattle recovered through the Police has been larger than it ever was before.

Arms Act.

88. There were 19 licensed shops in the Shikárpur District during the year, all of which were inspected by the Inspectors in their respective charges.

Five hundred and fifty-seven licenses were granted during the year against 496 in the previous years. The licenses were granted for—

(1)	License to transport arms in British India ...	... 1
(2)	Do. to manufacture, sell, or keep arms ...	... 6
(3)	Do. to keep and sell arms...	... 13
(4)	Do. to possess arms, &c., and to go armed for sport, &c.	...367
(5)	Do. to go armed on a journey	... 24
(6)	Do. to possess fire-arms in district not disarmed ...	... 41
(7)	Do. to possess arms for destroying wild animals	...105

The number of offences against the Arms Act during the year 1881 was 27. Convictions were obtained in 9, in 5 the accused were discharged, 5 remained undetected, and 8 were pending at the close of the year.

Eight swords and 26 guns were confiscated during the year.

Suicide.

89. There were 14 cases of suicide against 19 in the previous year.

Accidental death.

90. There were 289 cases of accidental deaths against 308 in the previous year. These were due to the following causes :—

	Males.	Females.	Total.
Drowning	82	53	135
Snake-bites	57	18	75
Wild beasts	4	...	4
Other causes	52	23	75
	195	94	289

Losses by fire.

91. Three hundred and eighty three fires were reported during the year against 556 in the previous year. The value of the property destroyed was Rs. 30,098-6-9.

Police Buildings.

92. The sum of Rs. 1,680 was provided in the Police Budget for petty construction and repairs, and the amount expended during the year was Rs. 1,290. The number of Police buildings of all kinds (including temporary landhis) constructed and repaired during the year under report was—

(*a*) Departmentally	... 75
(*b*) By the Public Works Department ...	... 8

A plan and estimate is under preparation for an office for the Railway Police Inspector at Sukkur with lock-ups and quarters for Police. A new building for the Foujdár of the Town Police at Sukkur is also much needed, the present Foujdari being a great deal too small.

Mounted Police Fund.

93. The amount available in the Fund at the close of the year was Rs. 6,520-11-10. Three horses and 11 camels died during the year against 8 horses and 8 camels in the previous year, and 4 horses and 9 camels had to be cast against 3 horses and 4 camels.

Police Superintendent's tour.

94. Out of 141 posts, only 16 were visited and inspected by the Superintendent during the year. The small amount of visiting has been ascribed by the Police Superintendent to his Office Establishment having been employed on Census duty, and he himself being

for a long period detained at Rohri, where he was engaged in investigating a bad case of murder and robbery in which the Police were said to have misconducted themselves.

Examination of accounts.

95. The accounts of 6 Chief Constables' offices were examined during the year by the Superintendent of Police. The District Magistrate also examined 9 offices and the 1st Class Magistrate three. The new forms of account perplexed the Chief Constables a good deal, but now they have got used to the system and the accounts are very fairly kept.

Serious crime visited.

96. The Superintendent visited the scene of 11 serious crimes.

98. Major Malden was in charge from 1st to 25th January.

Lieutenant-Colonel E. W. Trevor from 26th January to 31st December with exception of 3 months during which he was on leave, and a few days in November when he had to proceed to Calcutta on duty.

Mr. R. Giles acted for him on both occasions, namely, from 16th July to 15th October, and again from 9th November to 1st December.

99. The general results of the working of the Police force during the year has by no means been satisfactory. Crime has increased in spite of a favourable season and low prices, and a large number of offences have remained undetected. With regard to the increase in crime, the Superintendent thinks "there was an increase but not to the extent the returns would indicate." He considers that far greater attention is now paid to the recording of crime in the register, which is undoubted and that the people are more and more learning to appeal to the Police, which is probable, as both population and wealth are rapidly increasing. He likewise remarks :—

"There were a number of cases of house-breaking accompanied by theft of ornaments and cash of considerable value in the town and cantonment of Jacobabad during the hot weather; none of these cases were traced or properly discovered."

These cases were supposed to have been committed by men thrown out of employ by the stoppage of the State Railway works.

Conduct of the Police.

100. As regards the conduct of the men in the force, one officer and 10 men were punished judicially as compared with 10 men in the previous year, and 7 officers and 24 men were punished departmentally against one officer and 31 men in 1880.

Education.

101. Education is vary backward; only seven officers and 13 men can read and write an intelligible report; but these figures are slightly better than in the previous year when only 4 officers and 11 men were reported to be so qualified.

Drill.

102. No men have been put through a course of drill. The men are so much scattered and have so much to do that it is impossible even to attempt to drill them.

Rewards.

103. No rewards were granted during 1881.

Fluctuations in crime.

104. The details for the years 1880 and 1881 show the following differences in cognizable crime :—

	1880.	1881.
Cognizable cases	528	547
Struck-off cases	54	119
Reported in previous year but inquired into during the year	20	14

There was thus an increase of 19 in the number of cases retained on the register, and an increase of 65 in the number struck off.

Stolen Property.

105. The amount of property stolen last year was Rs. 13,329; this year it was almost the same, namely, Rs. 13,072. The percentage of recoveries of stolen property is 38·83 against 61·16 in the previous year.

Undetected cases of previous years.

106. The following figures show what progress was made in dealing with cases left undetected at the close of the years 1879 and 1880:—

	1879.	1880.
Cases cognizable remaining undetected ...	143	107
Cases investigated during 1881	1	2
Cases convicted...	1	2
Percentage of cases undetected to investigated	0·7	1·8
Percentage of cases investigated to convicted...	100	100

Serious crime.

107. The following remarks regarding the serious crime in the district may be quoted at length as illustrating the general nature of the offences committed and the difficulties met with in the Frontier District—

"Of 11 reported cases of murder 3 were struck off as no crime. In one of the cases struck off the person who was reported as having been murdered because she was missing, was found alive. In another case it proved that a girl, who had been reported to have been strangled by her father and brother, had died from natural causes; in the third it was reported that a man, who was missing, had been murdered by men of another tribe with whom there was a blood feud. The man's body was found in a canal in Khelát territory without any marks of violence on it, and the proof was that he was accidentally drowned.

"Of the eight murders, 3 resulted from intrigues with women. In two of these cases both the man and woman were killed, in the third the man only. All these cases occurred amongst Beluch tribes, and were disposed of under the Frontier Tribes Regulation of 1872. Three were from revenge in retaliation and in pursuance of blood feuds. In two of the cases Shambani Bhugtis from Khelát killed Mazaris. The culprits were not given up by the Political authorities, who however made a settlement between the two tribes; the third case was committed to the Sessions, but resulted in an acquittal from want of sufficient evidence though there was no moral doubt of the guilt of the accused There are no cases from avarice or plunder and no murders were the result of cattle tresspass. Other causes, two cases. A man killed his wife, because she refused to go out and cut grass. The man was convicted (hanged.) In the second case there were words between a man who had failed to pay a debt and the person and his friends who had stood security for the debt. The words led to blows, and in the fight the debtor was killed by a blow from a bludgeon on the head. The case was disposed of under the Frontier Tribes Regulation of 1872.

"There was one case of culpable homicide; a conviction was obtained. There were two highway robberies during the year. In one the offenders were convicted, in the other the offenders were tracked into Khelát territory. As their foot-prints were recognized by the trackers their extradition was asked for by name: but they have not yet been given up.

"No dacoities occurred during the year, but one case pending at the end of 1880 was tried and one man convicted."

"Two women were raped by five men, the offence was commited openly, the motive being revenge on the husband of one of the women who had an intrigtue with the wife of one of the men who committed the rape. The offenders were convicted."

Arms Act.

108. There are 4 licensed shops in the district. All the four were examined by the Inspector of Police. No irregularities were discovered. Two hundred and twenty-six licenses were issued during the year by the Deputy Commissioner. Four prose utions were instituted during the year against 7 in 1880, and 5 arms were confiscated.

Suicides.

109. There was only one case of suicide. A woman hanged herself.

Accidental Deaths.

110. There were 36 cases of accidental deaths against 25 in the previous year. The following figures give details:—

	Males.	Females.
Drowning	8	4
Snake-bite	5	2
Wild beasts	1	...
By other means	13	3
	27	9

Losses by fire.

111. Fifty-three fires occurred and the property destroyed was estimated at Rs. 521-5-3.

Police Buildings.

112. Rs. 465 were provided in the Police Budget for petty construction and repairs of which Rs. 390 were expended during the year, the greater part in the construction of landhis—for at present there are only permanent buildings for the Police at the head-quarters of tálukas and at Toj. The Superintendent thinks that thánás should be built at Gouspur, Kundkote and Garhi Khairo to replace the present landhis. This is a question that can be considered when something has been done to put the Frontier Police generally on a better footing.

Examination of accounts.

113. The accounts and offices of the following officers were examined by the Superintendent and Assistant Superintendent. Nothing worthy of remark was noticed—

Kotvál, Jacobabad.
Thánádár, Khairo Garhi.
Do. Thul.
Do. Gouspur.
Do. Kashmor.

H. N. B. ERSKINE,
Commissioner in Sind.

* The four men were arrested in 1880 and brought to trial in 1881. Other men also concerned in the case had been convicted in 1880. The case therefore is not shown in columns 2, 4, 6, 7, 12, 16 and 17.

Cattle Theft.

Column 7.—The number of persons shown as arrested is exclusive of fifty-three persons arrested but discharged under section 125 Criminal Procedure Code, and of 16 persons arrested for cattle thefts in other Districts and transferred to those Districts for trial but includes 3 men arrested in 1880 but not brought to trial.

Column 13.—Of the four men shown as arrested in 1880, one was arrested in 1881 for an offence committed in 1880, which offence is included in column 2.

Column 14.—The four men entered under 1880 were tried in 1881 for offences committed in 1880.

Column 16 and 17.—The entries under 1879 and 1880 refer only to property stolen and recovered in cases shown in column 2. Columns 8 and 10, include 31 persons discharged under section 215 Criminal Procedure Code who are not included in column 15, but in column 14 of Statement A.

Every endeavour was made to detect the thieves and also to recover the stolen cash, but no trace of either of them could be found.
4	Murder and theft of Rs. 10,825-7-9	Rohri	25th Feb. ,, ...	26th do. at 3 P. M.	Started on 27th at 5 A.M. and arrived on the 27th February 1881 at 9 A.M.	Visited	Discharged	In this case a Bania by name Begraj valad Mulchand was murdered by strangulation and robbed of ornaments and other articles to the aggregate value of Rs. 10,825-7-9. Three men were arrested on suspicion on the 5th March, and 4 days' extension obtained from the 2nd Class Magistrate, Rohri, on the 6th. On the morning of the 10th a bundle of ornaments valued at Rs. 615 was found, and another 8 days were sanctioned by the Magistrate. There were however strong suspicions that these ornaments were hidden by the Police. I requested sanction to prosecute the Inspector of Police, Rohri, and 2 of his subordinates, *viz.* 1 Head Constable, 3rd grade, and another, a camelsowar, having first suspended them. The District Magistrate held a preliminary enquiry and ordered the Inspector to be reinstated and the two policemen to be put on their trial. They were committed to Sessions and sentenced, one to 6 months and another to 12 months' rigorous imprisonment under section 193, Penal Code, the sentence having been subsequently enhanced by the Sadar Court in Sind to 12 months' and 2 years' rigorous imprisonment respectively. On a perusal of the proceedings in the case the Commissioner in Sind ordered the prosecution of the Inspector, Ram valad Chandiram, for recording-

								ly suspended from duty and committed to the 1st Class Magistrate at Rohri, who has since sent up the case before the Court of Session. The 3 accused who were arrested on suspicion, were discharged by the Magistrate for want of proof. Spies were sent out in search of the real offenders, and they brought one Nabbia valad Ramkrishna who promised to reveal facts of the case on condition of pardon. The Magistrate granted his request and made him Queen's evidence in the case. Nabbia pointed out the place where the property was hidden and began to dig, turning out some ornaments to the value of about Rs. 200, his share of the property having been removed (as he asserted) by one Arginsing whom he implicated, together with 50 others, whilst he was undergoing 6 weeks' imprisonment in Saharunpur Jail for picking pocket. Three of the suspected parties were again put on their trial and discharged. The other two were at large, and one of them, viz. Arginsing, one of the principal offenders in this case, who was subsequently reported to be undergoing sentence of imprisonment in the Ahmedabad Jail, has been called for under a warrant through the District Magistrate. The property recovered in this case, both at the time the robbery took place and subsequently during the course of enquiries, amounts to Rs. 3,590-13-6.
5	House-breaking and theft of Rs. 1,187-12-6.	Ruk Railway Station.	5th March 1881.	7th March at 10 A.M.	.....	Not visited owing to being busy with the murder case at Rohri (serial No. 4). I subsequently enquired into this case at Ruk, but there was no proof that the sweeper, a Panjabi, on whom a strong suspicion lay, were the thieves.	Partly detected	The house of an Engine Driver was broken into and property valued at Rs. 1,187-12-6 stolen therefrom. The Police took up the case and discovered property valued at Rs. 971-12-6 relinquished by the thieves at a short distance from the complainant's house. No footprints were visible on the scene of crime.
6	Murder	Gagdero ...	9th Dec. 1880 ...	13th March 1881, at 2 P.M.	.....	Not visited owing to being busy with case No. 4.	Acquitted	In this case a man by name Kowro Dudi was reported missing. The Police were in search of him until they heard from the Thánedar of Dádú in the Karáchi District that a dead body was found lying on the bank of the river and that it was recognised by one of the deceased relations to be that of the missing man. The Chief Constable of Tigar proceeded at once to the

Enquiries were made into the cause of death, and it was found that a dispute had arisen between Kowro and some relatives of his brother's wife owing to her intimacy with the deceased's sons, and the woman's relatives, who were 6 in number, finding an opportunity to avenge themselves, attacked Kowro with sticks and beat him to death. The sticks stained with blood were also found in their houses and they were accordingly committed for trial before the Court of Session and discharged.
7	Highway robbery of Rs. 74-1-3.	Shikárpur ...	18th March 1881.	19th March 1881, at 6 A.M.	19th March at 8 A.M.	Visited	Undetected	Two Banias while returning home from the Saddár bazár in the evening were attacked and robbed of cash and other articles to the aggregate value of Rs. 74-1-3 by one man. At the time of the robbery a very high wind was blowing and the dust was so great that the Banias who had covered their faces to keep the dust out of their eyes could not recognise the man who attacked them, nor could they say how he was dressed. The Police took up the case and searched for foot-prints, which however could not be found owing to the road being covered with grass. The absence of foot-marks and the inability of the complainants to identify the robber rendered detection a difficult matter.

12	Murder... ..	Baruk hill near Kutegi Kabar, Táluka Mehár.	16th ,, ...	28th May at 8 A.M.	Started on 31st at 12 in the noon and returned from Shah Godra.	Not visited, as on my way to the scene of crime I learnt from the 3rd Class Magistrate, Mehar, that it would take 4 days to overtake the Inspector of Police who had entered the Khan of Khelat's territory.	Undetected	In this case one Gosi, suspecting his sister of infidelity, murdered her with a sword and conveyed her body into the Khelat territory with the assistance of his brother-in-law, deceased's husband, Dossu. They also stole a herd of sheep and goats to the value of Rs. 616 and seized 3 persons, carrying them away with the help of 5 men beyond this territory. The Police promptly on receipt of this information followed the accused and recoverd the stolen cattle. They could not, however, get any assistance from the Khan of Khelat's authorities as regards the arrest of the offenders, and consequently returned with the complainants and witnesses in the case. The names of the accused have been communicated to the District Magistrate with the view of obtaining their extradition from the Khelat authorities.
